Cyber Bullying And
Academic

PerformanceJust as classic
bullying, cyberbullying
adversely affects the
academic performance of

cyberbullied children.
Children who experience
classic bullying are likely
to avoid locations and
activities they associate
with negative
experiences;

cyberbullying victims attempt to avoid the technological spaces. Cyberbullying and Academic Impact | Education News Further, majority of the respondents 255 (70%) agreed that cyber bullying adversely affects students' academic performance. Results further designate that 60 (16.6%) of the respondents specified that they had bullied someone inside the university at least 2 or 3 times a month while 4 (1.1%) of the participants

said that they had bullied someone outside the university at least 2 or 3 times a month. ERIC - ED574784 - Cyber Bullying and Academic Performance ... "If the academically low-performing students are at higher risk for getting bullied, that suggests one way to reduce bullying is to help those students academically," she added. "Once they get into the cycle of being bullied because of their poor academic performance, their chances of doing better academically are

worse." Victims of bullying suffer academically as well, UCLA ... bullying adversely affects students' academic performance.
