JANIYA BRIGGS

A Concise Introduction to Cultural

Anthropology by Conrad Phillip Kottak, ISBN SUNY Press

"Yanomamö culture, in its major focus, reverses the meanings of "good" and "desirable" as phrased in the ideal postulates of the Judaic-Christian tradition. A high capacity of rage, a quick flash point, and a willingness to use violence to obtain one's ends are considered desirable traits. Much of the behavior of the Yanomamö can be described as brutal, cruel, treacherous, in the value-laden terms of our own vocabulary. The Yanomamö themselves, however, as Napoleon Chagnon came to intimately know them in the year and a half he lived with them, do not all appear to be mean and treacherous. As individuals, they seem to be people playing their own cultural game, with

internal feelings that at times may be quite divergent from the demands placed upon them by their culture. This case study furnishes valuable data for phrasing questions about the relationship between the individual and his culture."-- Foreword.

Culture Counts Waveland Press

With a new evolutionary theme, Petri's book covers the biological, behavioral,

and cognitive explanations for human motivation. The advantages and drawbacks to each of these explanations are presented, allowing students to draw their own conclusions. Students want to know why they behave the way they do. To help students understand the processes that activate their behavior, Petri uses examples drawn from such contemporary topics as sexual behavior, aggression, eating disorders, and obesity to capture and keep students interested. To help students master and retain the information covered, this edition builds upon the text's simple and direct language with expanded pedagogy including preview questions at the beginning of every chapter, end of chapter summaries, key terms, Web links, and suggestions for further

Mirror for Humanity McGraw-Hill Education

What is it like living among and learning about the cultural realities of other people for the first time? Northern Passage uses the motif of apprenticeship to reveal the humbling, childlike quest of the novice ethnographer, on the one hand, and the trials of an active participant learning the intricacies of bush life and livelihood from subarctic Indian hunting partners and teachers, on the other hand. In the process, Jarvenpas reflexive narrative presents a compelling vision of northern Dene or Athapaskan society. The Han people of the Yukon Territory and eastern Alaska and the Chipewyan of northern Saskatchewan emerge as vividly drawn actors in a

cultural landscape distinctly influenced by gold miners, fur traders, missionaries, conservation officers, and other post-colonial agents. This candid but sensitive treatment deals with issues such as trapping economies, knowledge of the environment, dreaming and hunting power, permission and informed consent, language learning, accusations of spying, alcohol use, economic development, partnerships, note-taking, and the pros and cons of active participation. Jarvenpas early field experiences unfold as a primer on false leads, setbacks and revealing discoveries building to a suspenseful aftershock.

Giving students the capacity to include ethnography in their own experience! Asking and Listening is the first book to trace the changing ways in which human beings have learned to look at the Others Beyond the Gate with their strange languages and stranger customs. Not a history of ethnography so much as a chronicle of its uses and potentials, Asking and Listening examines the premises of ethnography and concerns itself with a wide range of

issues such as ethnocentrism and the morass of cultural relativism, the cultures of corporations, and the meaning of ethnography for government policy. It ends with an examination of the problems in charting our tomorrows: ethnography in the information age, and for the future. Through its pragmatic analysis of cultures as storehouses of alternatives in the way universal problems can and have been approached, Asking and Listening offers students not merely the opportunity to make sense of descriptions of other peoples lifeways, but makes such ethnographic knowledge immediately useful in their own lives, choices, and career plans.

A Concise Introduction to Cultural

Anthropology University of Toronto Press
 New edition of the classic ethnographic study of Malay women factory workers. In the two decades since its original publication, *Spirits of Resistance and Capitalist Discipline* has become a classic in the fields of anthropology, labor, gender and globalization studies. Based on intensive fieldwork, the book captures a moment of profound transformation for rural Muslim women even as their labor helped launch Malaysia's rise as a tiger economy. Aihwa Ong's analysis of the disruptions, conflicts, and ambivalences that roiled the lives of working women has inspired later generations of feminist ethnographers in their study of power, resistance, religious upheavals, and subject formation in the industrial

periphery. With a critical introduction by anthropologist Carla Freeman, this new edition upholds an exemplary model of anthropological inquiry into cultural modes of resistance to the ideology, discipline, and workings of global capitalism. “This work ... remains powerful for its refusal to over-simplify the complexities of export industrialization as a model for economic development, and for its demonstration of the intimate dialectics of culture, economy, gender, religion, and class, and the meaningfulness of place amid the swirling forces of global capitalism ... [It] opened up many of the questions that should continue to inspire our analyses of globalization today. Indeed, these questions are equally compelling for the reader returning to this work

after twenty years and for the reader new to this text and to the intriguing and complex puzzles of globalization.” — from the Introduction by Carla Freeman
