Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Foundations of Business Money Education

This text is written directly to the student. It introduces the student to the concepts, tools, and applications of personal finance and investments. In order to leave a lasting impression, this book concentrates on the fundamentals and underlying principles of personal finance, rather than focusing on equations and specific tools, which are more easily forgotten. Building on the 15 Axioms of Personal Finance, the text helps the students

develop an intuitive understanding not only of the process of financial planning, but also the logic that drives it. This text is designed for a one-semester introductory course in Personal Finance at the college and university level.

*Fundamentals of Financial Accounting with Annual Report + Connect Plus* McGraw-Hill Higher Education
