The story of filmmaker Hayao Miyazaki's life and work, including his significant impact on Japan and the worldA thirtieth-century toxic jungle, a bathhouse for tired gods, a red-haired

fish girl, and a furry woodland spirit—what do these have in common? They all spring from the mind of Hayao Miyazaki, one of the greatest living animators, known worldwide for films such as My Neighbor Totoro, Princess Mononoke, Spirited Away, Howl's Moving Castle, and The Wind Rises.Japanese culture and animation scholar Susan Napier explores the life and art of this extraordinary Japanese filmmaker to provide a definitive account of his oeuvre.

Napier insightfully illuminates the multiple themes crisscrossing his work, from empowered women to environmental nightmares to utopian dreams, creating an unforgettable portrait of a man whose art challenged Hollywood dominance and ushered in a new chapter of global popular culture.

Twenty years ago, animated features were widely perceived as cartoons for children. Today, though, they encompass an astonishing range of films, styles and techniques. There is the powerful adult drama of *Waltz with Bashir*; the Gallic sophistication of *Belleville Rendez-Vous*; the eye-popping violence of Japan's *Akira*; and the stop-motion whimsy of *Wallace & Gromit in The Curse of the Were-Rabbit*. Andrew Osmond provides an entertaining and illuminating guide to the

endlessly diverse world of animated features, with entries on 100 of the most interesting and important animated films from around the world, from the 1920s to the present day. There are key studio brands such as Disney, Pixar and Dreamworks, but there are also recognised auteur directors such as America's Brad Bird (*The Incredibles*) and Japan's Hayao Miyazaki (*Spirited Away*). Technologies such as motion-capture, used in films such as *Avatar*, blur the distinctions

between live-action and animation. Meanwhile, lone artists such as Nina Paley (*Sita Sings the Blues*) and Bill Plympton (*Idiots and Angels*) make entire films by themselves. Blending in-depth history and criticism, *100 Animated Feature Films* balances the blockbusters with local success stories from Eastern Europe to Hong Kong. There are entries on Dreamworks' *Shrek*, Pixar's *Toy Story*, and Disney's *The Jungle Book*, but you will also find pieces on Germany's

silhouette-based The Adventures of Prince Achmed, the oldest surviving animated feature; on the thirty year production of Richard Williams' legendary opus, The Thief and the Cobbler; and on the lost work of Argentina's Quirino Cristiani, who reputedly made the first animated feature in 1917.

The definitive examination of the art and animation of Studio Ghibli's masterpiece of fantasy and flight, Castle in the Sky! The latest in

the perennially popular line of Studio Ghibli art books, which includes interviews, concept sketches, and finished animation cels from classics such as Spirited Away and My Neighbor Totoro. Hayao Miyazaki's Castle in the Sky was the first feature film produced by the legendary Studio Ghibli. Sheeta, a girl who has the power to defy gravity, is on the run from pirates when she meets the young inventor Pazu. Together they explore the secrets of Laputa, a flying city constructed by a

long-lost race of people. All of Miyazaki's major themes—the power of flight, the bravery of young women, and a world wrecked by change—are captured with beautiful animation and joyous storytelling. *The Art of Coco McFarland* In the first two decades of his career, filmmaker Hayao Miyazaki laid the groundwork for his legendary movies. Starting Point is a collection of essays, interviews, and memoirs that go back to the roots of Miyazaki's childhood,

the formulation of his theories of animation, and the founding of Studio Ghibli. Before directing such acclaimed films as Spirited Away, Miyazaki was just another salaried animator, but with a vision of his own. Follow him as he takes his first steps on the road to success, experience his frustrations with the manga and animation industries that often suffocate creativity, and realize the importance of bringing the childhood dreams of the world to life. Starting Point:

1979-1996 is not just a chronicle of the life of a man whose own dreams have come true, it is a tribute to the power of the moving image. -- VIZ Media

Films Dark Horse Comics Spirited Away, directed by the veteran anime filmmaker Hayao Miyazaki, is Japan's most successful film, and one of the top-grossing 'foreign language' films ever released. Set in modern Japan, the film is a wildly imaginative fantasy, at once personal and universal. It tells the story of a listless little girl, Chihiro, who stumbles into a magical world where gods relax in a palatial bathhouse, where there are giant babies and hard-working soot sprites, and

where a train runs across the sea. Andrew Osmond's insightful study describes how Miyazaki directed *Spirited Away* with a degree of creative control undreamt of in most popular cinema, using the film's delightful, freewheeling visual ideas to explore issues ranging from personal agency and responsibility to what Miyazaki sees as the lamentable state of modern Japan. Osmond unpacks the film's visual language, which many Western (and some Japanese) audiences find

both beautiful and bewildering. He traces connections between *Spirited Away* and Miyazaki's prior body of work, arguing that *Spirited Away* uses the cartoon medium to create a compellingly immersive drawn world. This edition includes a new foreword by the author in which he considers the world of animated cinema post-*Spirited Away*, considering its influence on films ranging from del Toro's *Pan's Labyrinth* to Pixar's *Inside Out*. **Dragon Girl and**
