Rowman & Littlefield Publishers

This work distills Fr. Rodger Charles' extensive knowledge of the social teaching of the Catholic Church into an introductory outline of its principles. It has been written especially for use as preliminary reading material for those studying the Church's teaching in this area, but will also serve equally well as a general introduction to the ethics of decision making in the civic, political, and economic spheres of human society. The social teaching of the Church usually refers to modern documents, but there is social teaching in the Scriptures, and

this reaching has developed within the tradition of the Church. Charles gives an overview of the evolution of social teachings. He quotes liberally from Church social documents, and adds an introduction and commentary to each section of this book.

Welcoming the Stranger Among Us Our Sunday Visitor

Including contributions from twenty-two leading moral theologians, this volume is the most thorough assessment of modern Roman Catholic social teaching available. In addition to interrogations of the major documents, it provides insight into the biblical and philosophical foundations of Catholic social teaching, addresses the doctrinal issues that arise in such a context, and explores the social thought leading up to the

"modern" era, which is generally accepted as beginning in 1891 with the publication of Pope Leo XIII's *Rerum Novarum*. The book also includes a review of how Catholic social teaching has been received in the United States and offers an informed look at the shortcomings and questions that future generations must address. This second edition includes revised and updated essays as well as two new commentaries: one on Pope Benedict XVI's encyclical *Caritas in Veritate* and one on Pope Francis's encyclical *Laudato Si'*. An outstanding reference work for anyone interested in studying and understanding the key documents that make up the central corpus of modern Catholic social teaching.

Call to Family, Community, &

Participation USCCB Publishing
 Catholic social teaching--when it is not distorted or misrepresented--is famously confounding to the pundits and politicians, both left and right. How can the Catholic Church simultaneously advocate against abortion and assisted suicide but for immigration reform and attention to the poor? How can it stand against the abuse of the environment and for the free market, against the death penalty and for the family? This unique Word on Fire Classics collection aims to bring the both/and of the Church's social teaching into sharp relief. That teaching comes roaring out of the Old Testament prophets and the New Testament, into the writings of the Church Fathers, and down through the Church's encyclicals and in the writings of the saints. The

Catholic Social Teaching Collection encompasses all of these different dimensions of the Church's history. But its purpose is not just to reveal the ethical and historical breadth of Catholic social teaching; it is to reveal its metaphysical heart--namely, God. With God out of the picture, it is indeed hard to make sense of the array of opinions the Church holds. But with God at the heart of things, the positions fall into harmony, much like the medallions in a rose window. If God exists, then every individual person is a subject of rights, freedom, and dignity. If God exists, then no one is expendable and everyone is equally worthy of respect.

[The Power of Forgiveness: Pope Francis on Reconciliation](#) USCCB Publishing
 For more than a century, the teaching

authority of the Catholic Church has attempted to walk along with the modern world, criticizing what is bad and praising what is good. *Counsels of Imperfection* described the current state of that fairly bumpy journey. The book is divided into 11 chapters. First comes an introduction to ever-changing modernity and the unchanging Christian understanding of human nature and society. Then come two chapters on economics, including a careful delineation of the Catholic response, past and present, to socialism and capitalism. The next topic is government, with one chapter on Church and State, another on War, and a third that runs quickly through democracy, human rights, the welfare state, crimes and punishments (including the death

penalty), anti-Semitism, and migration. *Counsels of Imperfection* then dedicates two chapters on ecology, including an enthusiastic analysis of Francis's "technocratic paradigm". The last topic is the family teaching, which presents the social aspects of the Church's sexual teaching. A brief concluding chapter looks at the teaching's changing response to the modern world, and at the ambiguous Catholic appreciation of the modern idea of progress. For each topic, *Counsels of Imperfection* provides biblical, historical and a broad philosophical background. Thomas Aquinas appears often, but so does G. W. F. Hegel. The goal is not only to explain what the Church really says, but also how it got to its current position and who it is arguing with. In the spirit of a

doctrine that is always in development, *Counsels of Imperfection* points out both strong-points and imperfections in the teaching. The book should be of interest to specialists in Catholic Social Teaching, but its main audience is curious newcomers, especially people who do not want to be told that there are simple Catholic answers to the complicated problems of the modern world.
