How to Read Music-Notation Made Easy-Take Note-For All Beginning Music

### Students-How to Read Music for Any Instrument Alfred Music Publishing

We call this series "I don't read music" since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. All 70 songs in this book have been written without using the classic music score system, because it is for absolute beginner who can not read sheet music. This book is aimed for those who want to add popular melodies to their experimentation. We use circles with numbers because most modern tongue drums have numbers engraved or painted on their keys. We do not show the note duration. You can experiment with a duration on your own. We recommend finding each of these songs on YouTube and listening to the rhythm before beginning to play. Our sheet music is only a guide. The most important thing is to listen and repeat the recordings. All songs from this book are possible to play in one octave. These songs are suitable for a diatonic 8-note tongue drum, which should have numbers 1, 2, 3, 4, 5, 6, 7, and 1 of the next octave. Please note: if you have a model of the tongue drum with 5 tongues, or if some keys from the octave are missing, you will not be able to play all of the songs in this book. The songbook includes very simple, popular children's and folk songs, but even well-known children's songs played on the tong drum will create an unusual magical sound.

Understanding these basic structures at the piano will help you to read piano music faster, especially when you're sight-reading. Viewing a phrase, you will no longer see each note as a separate entity - rather, you'll see the relationships between them (whole steps, half steps, and larger intervals), as well as patterns that make up scales like the chromatic scale or the major scale. Here's a quick look at some of the topics that this book

addresses. -Elements of Music - Learn Melody -Musical Notation and Pitch -Piano Keyboard - Layout of Piano Keys - Enharmonic -Key Signatures and Major Keys -Circle of Fifths -Elements of Music - Learn Rhythm -Duration of Notes and Rests and Time Signatures -How to Count Notes -Elements of Music - Learn Harmony -Melodic and Harmonic Intervals -Major, Minor, Diminished, and Augmented Chords -Dominant 7th, Major 7th, Minor 7th, and Minor 6th Chords -Combine Melody, Rhythm, and Harmony to Play Song -Let's Read Music

(Music Instruction). Music notation is a language that has been developing for thousands of years; even the manner in which we read music today has been around for several centuries. In learning to read music, we encounter basic symbols for pitch, duration, and timing. As we advance, we learn about dynamics, expression, timbre, and even special effects. How to Read Music will introduce you to the basics, then provide more advanced information. As a final reward for all your hard work, you'll get a chance to play excerpts from three classic piano pieces. Topics include: pitch \* rhythm \* meter \* special words and symbols \* plus classical piano pieces by Bach, Mozart, and Beethoven.

The Melodica is one of the best educational instruments. The Melodica is light and portable The Melodica develops both keyboard skills and breath control The Melodica is perfect for group play The Melodica works like a clarinet The Melodica plays like a piano The Melodica sounds like a harmonica or an accordion This book is for kids or adults who are absolute beginners in music. We tried to write it as simply as possible. That is why we use an "easy-to-play" visual aid so any beginner can play music quickly. Neither kids nor their parents have to read sheet music or have a musical background. No previous knowledge is necessary. None at all. Every song has a large and simple, color and letter-coded visual, along with traditional sheet music. The instruction is designed so that children begin with simple circles and gradually advance to reading notes using sheet music. We try to make this transition as easy as a game, where children advance to higher levels themselves. There is a total of 22 songs and 3 options to help children to begin to play right away. PLAYING BY COLOR

CIRCLE PLAY BY LETTER PLAY WITH THE MUSICAL STAFF The player can first follow the circles and then repeat with the classic note symbols and staff. The helpful letters are always above the notes. There are 3 parts in this book. They are equal to 3 levels. Level 1. Songs that are played in one octave. All songs here appear twice: once written with circles and the next time with classic music notes. This will help kids remember the staff notes. For example: Mary Had a Little Lamb - Ver 1 - CIRCLES Mary Had a Little Lamb - Ver 1 - NOTES Level 2. In this part, you will find one version with both circles and notes and a more advanced version of the song with notes and musical notation. For example: Hot Cross Buns - Ver 1 - CIRCLES Hot Cross Buns - Ver 1 - NOTES Hot Cross Buns - Ver 2 - NOTES (Here the player will play songs in a different key and learn to transpose). Generally, the version of the song written with sheet music is a little bit more complex than a letter-coded version. Such versions already have music notations such as rests or beams, etc. You can find an illustrated explanation of the notation at the end of this book. Level 3. Here, the first two songs are versions of the same melody (different combinations of notes) written with circles and notes. This is important so that the beginner can see how the same melody can be played in different keys. First of all, this book is addressed to newcomers to any keyboard instrument (such as Piano or Synthesizer, not only Melodica). Also, it is a perfect self-training guide for children and beginner adults to mastering the challenges of percussion instruments such as kalimba, marimba, xylophone, glockenspiel, or even color bell set.

 Reading Music: Traditional Way vs Non-Traditional Way It is FUN to learn to read music. There are some basic music fundamentals that you need to learn in

order to be able to start reading music. You need to understand the music staff, the grand staff, the lines, the spaces, the alphabets, the letter names, treble clef, bass clef & middle C. I show you the Traditional Method of how students are taught to read music. The Traditional method WORKS but it is slow going. It is good for you to know the Traditional Method. We don't want to throw away what works. We want to improve on 'what works' to make it 'more fun' for beginners to overcome the frustrations of reading music! This is how my "Note Attack & Say It" Method got developed as I saw the joy of seeing students gaining confidence in these drills and exercises of moving from Level 1 (The Note Attack Method) to Level 2 (Application of the Note Attack Method) & then onto Level 3 (Drilling Exercises with Speed). Rosa's Music Note Attack Method: 1. Intuitive Visual Recognition 2. Visual Memory in the Brain 3. Say it out Loud to store in Brain 4. Practice Smart - Exercises You only need to know 7 alphabet letters: A B C D E F G. Once you learn to read these letters forward and backward using my Unique method, you will tap into the power of reading music notes quickly with confidence. This will help you overcome all the years of fear and frustrations in reading music, and the reward you receive is for a life time. You learn to see the notes and read them like you read the names of your friends.

\*\*\*\*\*  
 \*\*\*\*\* This is a UNIQUE Method that I develop for BEGINNERS who wants to learn how to read notes and to read them QUICKLY! We are dealing specifically in the area of reading the music notes on music staff in both the Treble Clef and Bass Clef. We are NOT dealing with reading other music symbols, rhythm, or value and duration of notes. Have Fun! Rosa
