MASON LOGAN

Ayn Rand's Normative Ethics InterVarsity Press

A groundbreaking work that documents more than 20 years of feminist theological and ethical discussion, this volume includes the contributions of 20 distinguished women scholars who discuss a variety of issues,

ranging from the task of changing society's assumptions about women to ways in which people can live together in the modern world.

Beyond Bumper Sticker Ethics Routledge

"This book is about the most dramatic religion story of the early 21st century, yet one that most people in the West have little idea is even happening: The global war on Christians," writes John Allen. "We're not talking about a metaphorical 'war on religion' in Europe and the United States,

fought on symbolic terrain such as whether it's okay to erect a nativity set on the courthouse steps, but a rising tide of legal oppression, social harassment and direct physical violence, with Christians as its leading victims. However counter-intuitive it may seem in light of popular stereotypes of Christianity as a powerful and sometimes oppressive social force, Christians today indisputably form the most persecuted religious body on the planet, and too often its new martyrs suffer in silence." This book looks to shatter that silence. From Iraq and Egypt to Sudan and Nigeria, from Indonesia to the Indian subcontinent,

Christians in the early 21st century are the world's most persecuted religious group. According to the secular International Society for Human Rights, 80 percent of violations of religious freedom in the world today are directed against Christians. In effect, our era is witnessing the rise of a new generation of martyrs. Underlying the global war on Christians is the demographic reality that more than two-thirds of the world's 2.3 billion Christians now live outside the West, often as a beleaguered minority up against a hostile majority-- whether it's Islamic fundamentalism in the Middle East and parts of Africa and Asia, Hindu radicalism in India, or state-imposed

atheism in China and North Korea. In Europe and North America, Christians face political and legal challenges to religious freedom. Allen exposes the deadly threats and offers investigative insight into what is and can be done to stop these atrocities.-back of book.

In *Ethics beyond Rules* Keith Stanglin offers a clear and accessible guide for thoughtful Christians who want to lead ethical lives.

Stanglin's easy-to-understand Christian ethical system doesn't have a long list of rules

to follow but instead bases moral decision-making on Christian love. Stanglin is concerned less with a comprehensive ethics and scholarly discourse than with introducing everyone to important moral principles and modeling a way to reason through concrete issues. This resource does not answer every ethical question Christians face today, though it does provide examples such as abortion, sexual ethics, consumerism, technology, and politics. Instead, Stanglin provides a love-based framework for moral decisions that stands with the historic Christian faith, giving Christians the tools to consider the moral problems of today and the

foundation to confront new issues in the years to come.

An Introduction to Theories of Right and Wrong W. W. Norton & Company

What should we do or not do? This comprehensive text on biblical ethics is completely revised, focusing on how we fulfill the purposes of God for our lives. New content includes discussions of living virtuously, ethical alternatives, bioethical issues, technology, helping the poor, animal rights, sexual ethics, and the media.

The Global War on Christians Mercer University Press

Jokes often touch on the biggest topics of our existence, but many Christians haven't taken humor seriously. This

insightful yet delightful crash course from philosopher Steve Wilkens argues that viewing Scripture and theology through the lens of humor helps us understand the gospel and avoid the pitfalls of both naturalism and gnosticism, while facilitating a humble, honest, and appealing approach to faith.

An Introduction to Christian Ethics (2-downloads)

HarperCollins Leadership

With this introductory text, Steve Wilkens takes a fresh, friendly approach to understanding and evaluating various ethical systems. Beginning each chapter with a "bumper sticker" slogan ("If it feels good, do it"; "God said it, I believe it, that

settles it;" "When in Rome..."), he then moves on to examine the complex questions, conclusions and assumptions that lie at its heart. Wilkens acquaints students with the vast array of classic and contemporary approaches to ethics: cultural relativism, emotivism, behaviourism, hedonism, ethical egoism, atheistic existentialism, utilitarianism, categorical imperative, hierarchicalism, situation ethics, theistic existentialism, theological voluntarism, and natural law ethics. For each system, his thorough introduction explores its popular "bumper sticker" expression, its core assumptions and basic

elements, the questions that give rise to it, and its strengths and weaknesses. Students, professors and general readers will welcome Wilken's engaging text which simultaneously offers a well-rounded assessment of ethical systems and shows the relevance and prevalence of ethical ideas in daily life.

is both Susan
Cloninger's academic

passion as well as her personal lifestyle. With so many years of research and instruction under her belt, she has come to several important conclusions, many of which have helped guide her text through six editions. For one, while theories of personality can never explain all the particulars of individual lives, the theories explored within this text can help open eyes towards the important nuances and themes that might otherwise go unnoticed. With this in mind, this engaging text provides an overview of major classic and current theories of personality, brings theories to life through the interpretation of illustrative biographies,

and integrates a clear explanation of theory with the latest research. As well, it conveys the positive value of various theories in a balanced and respectful way, preparing students to apply theoretical ideas to understanding particular individuals they may encounter in their professional work and personal lives.

Nicomachean Ethics

Courier Corporation

We live in a world increasingly governed by technology—but to what end? Technology rules us as much as laws do. It shapes the legal, social, and ethical environments in which we act. Every time we cross a street, drive a car, or go to the doctor, we submit to the silent power of technology. Yet, much of the time, the

influence of technology on our lives goes unchallenged by citizens and our elected representatives. In *The Ethics of Invention*, renowned scholar Sheila Jasanoff dissects the ways in which we delegate power to technological systems and asks how we might regain control. Our embrace of novel technological pathways, Jasanoff shows, leads to a complex interplay among technology, ethics, and human rights. Inventions like pesticides or GMOs can reduce hunger but can also cause unexpected harm to people and the environment. Often, as in the case of CFCs creating a hole in the ozone layer, it takes decades before we even realize that any

damage has been done. Advances in biotechnology, from GMOs to gene editing, have given us tools to tinker with life itself, leading some to worry that human dignity and even human nature are under threat. But despite many reasons for caution, we continue to march heedlessly into ethically troubled waters. As Jasanoff ranges across these and other themes, she challenges the common assumption that technology is an apolitical and amoral force. Technology, she masterfully demonstrates, can warp the meaning of democracy and citizenship unless we carefully consider how to direct its power rather than let ourselves be shaped by

it. The Ethics of Invention makes a bold argument for a future in which societies work together—in open, democratic dialogue—to debate not only the perils but even more the promises of technology.

The Storytelling Secrets of the New Masters of Radio

Bloomsbury Publishing USA

Patrick Nullens and Ronald T. Michener seek to revitalize Christian ethics through an integrative approach to classical ethics. Their matrix of consequential, principle, virtue and value ethics provides an alternative to postmodern situation ethics and brings the framework of biblical wisdom to bear on contemporary ethical

questions.

Seasons of a Leader's Life InterVarsity Press

The Virtuous Egoist

John Wiley & Sons
An Introduction to Christian Ethics uses a Christian approach while encouraging students to consider a variety of current ethical issues and

apply relevant biblical and theological concepts to these issues. The main goal of the text is to acquaint students with both the field of ethics in general and varieties of Christian ethical systems in particular. Learning Goals Upon completing this book, readers will be able to use a Christian method of making moral decisions and view issues from a Christian perspective.

Understanding Persons
Wm. B. Eerdmans
Publishing

A few years ago, the first distinction that ethicists drew was the line between Christian ethics and philosophical ethics. However, in our global context, Christian ethicists must now, in addition, compare and contrast various ethics.

Christian ethics has become increasingly multivocal not only because of a plurality of faiths but also because of a plurality of Christianities. In light of these new realities, this book will introduce Christian ethics. It will lay out history, methods, and basic principles every student must know. The author also will include case studies for further explanation and application.

With its unique union of theory and application and its well-organized, easy-to-use design, *Moral Choices* has earned its place as the standard text for college ethics

courses. This third edition offers extensive updates, revisions, and brand new material, all designed to help students develop a sound and current basis for making ethical decisions in today's complex postmodern culture. *Moral Choices* outlines the distinctive elements of Christian ethics while avoiding undue dogmatism. The book also introduces other ethical systems and their key proponents, including Plato, Aristotle, Augustine, Aquinas, and Kant. After describing a seven-step procedure for tackling ethical dilemmas, author Scott Rae uses case studies to help students think critically and biblically about ? Abortion ? Reproductive

Technologies ? Euthanasia ? Capital Punishment ? Sexual Ethics ? The Morality of War ? Genetic Technologies and Human Cloning ? NEW: Ethics and Economics
New features include online resources for instructors; a chapter covering global capitalism, environmental ethics, and business ethics; new material on bioethics and on stem cell and embryo research; discussion questions at the end of each chapter; and sidebars with case studies.

Break the System, Live with Purpose, Be More Successful InterVarsity Press

A moving memoir and an extraordinary love story that shows how an expert physician became a family

caregiver and learned why care is so central to all our lives and yet is at risk in today's world. When Dr. Arthur Kleinman, an eminent Harvard psychiatrist and social anthropologist, began caring for his wife, Joan, after she was diagnosed with early-onset Alzheimer's disease, he found just how far the act of caregiving extended beyond the boundaries of medicine. In *The Soul of Care: The Moral Education of a Husband and a Doctor*, Kleinman delivers a deeply humane and inspiring story of his life in medicine and his marriage to Joan, and he describes the practical, emotional and moral aspects of caretaking. He also writes about the problems our society

faces as medical technology advances and the cost of health care soars but caring for patients no longer seems important. Caregiving is long, hard, unglamorous work--at moments joyous, more often tedious, sometimes agonizing, but it is always rich in meaning. In the face of our current political indifference and the challenge to the health care system, he emphasizes how we must ask uncomfortable questions of ourselves, and of our doctors. To give care, to be "present" for someone who needs us, and to feel and show kindness are deep emotional and moral experiences, enactments of our core values. The practice of caregiving teaches us

what is most important in life, and reveals the very heart of what it is to be human.

Go behind the scenes of our most ambitious radio programs and witness an intensely creative moment in a medium that's changing the way we tell stories. Every week, millions of devoted fans download or tune in to *This American Life*, *The Moth*, *Radiolab*, *Planet Money*, *Snap Judgment*, *Radio Diaries*, *99% Invisible*, and other nonfiction narrative radio shows. The compelling stories they produce are almost cinematic in scope and approach—intricately weaving sound into robust and engaging storytelling. A lot goes

into making the shows we love. Anchored by surprising characters and big questions, their stories are tightly structured, edited, and soundtracked, and they introduce us to authentic voices from every walk of life. Radio and podcasts today are entrepreneurial and DIY; there's a can-do, collaborative spirit that characterizes people working in this field, fearlessly breaking new artistic ground. And more than ever, given the excellence and explosive popularity of shows like *Serial*, it's clear that the creative producers working in this medium hold the key to storytelling secrets that the rest of us must learn. Out on the *Wire*, a documentary comic, literally illustrates

those secrets, gleaned straight from those on the frontlines of radio's revolution. With the help of This American Life's Ira Glass, cartoonist Jessica Abel uncovers just how producers construct a story, spilling some juicy insider details along the way. Jad Abumrad of RadioLab talks about chasing moments of awe with scientists, while Planet Money's Robert Smith speaks candidly about his slightly embarrassing strategy for putting interviewees at ease. And Abel reveals how mad—really mad—Ira Glass becomes when he receives tough edits from his colleagues. Informative and inventive, Out on the Wire shows us the magic that makes these shows great and

why we can't stop listening to them. People Over Profit Cambridge University Press
Theological conversations about violence typically frame the conversation in terms of victim and perpetrator. Comprehensive theological responses to violence must also address the role of collective passivity of bystanders of violence. Beyond Apathy examines the theological significance of bystander participation in patterns of violence and violation within contemporary Western culture, giving particular attention to the social issues of bullying, white racism, and sexual violence. In doing so, it constructs a theology of

redeeming grace for
bystanders to violence
that foregrounds the

significance of social
action in bringing
