A unique guide, like none other on the market-

packed with medical information, practical tips, psychological insight, and coping strategies--to help men help the women they love through this trying time.

When Marc Silver became a breast cancer husband three years ago, he learned firsthand how frightened and helpless the breast cancer husband feels.

He searched in vain for a book that would give him the information and advice he

so desperately sought. Now this award-winning journalist has compiled just the kind of emotionally supportive and useful resource that he wished he had been able to consult-to give men the tools they need to help their wives, their families, and themselves through this scary, uncertain time. In his years as a consumer journalist and veteran of the News You Can Use staff at U.S. News &

World Report, Marc Silver learned what kind of information and advice on medical crises readers found most valuable. He draws on that experience as he covers in depth all the issues couples coping with breast cancer will have to face during diagnosis, treatment, and beyond. Highlights include: - The shared experiences of other breast cancer husbands - Guidance from top cancer doctors in the country - Advice on when, how, and what to tell your young children - Tips on coping with radiation and chemotherapy - A candid discussion of sex and intimacy following breast cancer surgery More than 200,000 women are diagnosed with cancer each year in the United States. At last, with this book, the men who love them have a road map to help them through a difficult and unprecedented journey.

This is a most touching and emotional true story. of the author's battle with cancer. It is a detailed and personal account of how a very strong believer and family-oriented woman beat ovarian cancer. Although that type of cancer historically develops rapidly and has devastating

effects, this true story shows how faith, family and love are a powerful force to reckon with. A must read for anyone with or without an illness! Eight years hence she is Cancer Free. Amy Chan
Zhou's searing memoir about growing up in rural Communist China features descriptions of pastoral beauty and tales of the simple joys of raising farm animals or catching fish in a local river. However, her childhood is scarred by the

primitive conditions, her family's everyday struggle to obtain food, and the horror of witnessing relatives being tortured on a stage during "public denouncing" meetings. As the Communists take control of China in 1949, we follow the harrowing experiences of Chan Zhou's great-grandparents, grandparents, father, and mother during the 1950s, '60s, and '70s when landlords, business

owners, artists, and scholars were branded as "bad elements" and "class enemies." As a teenager in the 1970s, while selling vegetables on the black market, Chan Zhou is accused of being a "little capitalist trader." The death of Mao ultimately saves Chan Zhou from being sent to a detention center, and her family's destiny is forever altered by Deng Xiaoping's

reform that allows her family to reunite in Hong Kong, and subsequently emigrate to the United States. A blend of *Wild Swans* and *The Red Scarf Girl*, *Flowing with the Pearl River* is a vividly accurate portrayal of one family's painful experiences during Communism and the Cultural Revolution in China, and their eventual escape to freedom. teaching of the sacred texts of Jewish tradition and the philosophy of Emil Fackenheim and Emmanuel Levinas. That memory, he argues, serves three purposes for Jews struggling to recover after the Holocaust. First, a recovery of tradition: Not only was the body of Israel targeted for destruction, but also its very soul, as that soul was defined by God, Torah, and sacred history.

Second, a recovery from an illness: These Jews suffer from the illness of indifference that plagued heaven and earth throughout the event. Third, these memoirs reveal the open-ended nature of recovery as a process that has no resolution: The survivors emerge from the camps, but the camps stay with the survivors and cast their shadow over the world. Readers are transformed

into witnesses who face a never-ending process of remembrance, for the sacred, in spite of indifference. Forgotten Tomorrows Crazy Today's Santa Monica Press
Author Robert Wood Darby was born and raised in Georgia. This memoir is about the anti-racism advocate growing up in the fifties and sixties and coming of age in the segregated South during the Civil Rights Movement.

Darby became an antiwar activist during the Vietnam War. He studied at Emory University, then at Tufts and Harvard in the late sixties - a time of upheaval for the entire country. He also chronicles his affliction with mental illness and manic depression, which has gone into remission.

A Memoir of Faith LSU Press

When a ventilator prevented her from speaking during her

final hours, Jennifer started writing. After her death, her husband turns to those pages to tell her story of courage and faith. James had just walked through the door after a day's work when Jennifer told him the news that changed everything: it was cancer. In the following two years they would lose their sense of normalcy and their dreams for the future. But along the way, they would gain

something even greater than their loss. Told through the eyes of a grieving husband is this true story of a young woman's fight for her life. Jennifer's final words, penned by hand when a ventilator prevented her from speaking, provide a powerful backdrop to this journey of faith and hope. A memoir that also offers a practical pathway for those struggling with loss, The

Last Seven Pages is a testimony of a God who is present in our darkest moments, and who turned a devastating illness into a life-changing promise.

This book is a memoir, written in the spirit of Julia Sweeney's & God Said Ha. It chronicles how one week after September 11, 2001, while the rest of the nation struggled with the attacks on

our country, I realized during a phone conversation that my 63 year old father was suffering from Alzheimer's disease. In the midst of a midlife crisis I tried to balance my life as a wife, mother and struggling stand up comedian. That phone call added caregiver of my father and his 89 year old mother, to my already over loaded plate. (This book also contains moderate violence, porn

talk with a parent and the fact that I perfected the art of going nutty-buckets and shaving my head long before Britney made it chic.) This book will make you laugh, cry, and possibly join Leslie in her short trip on the crazy train. 50% of all royalties will be going to charities. 20% to Alzheimer's, 20% to Parkinson's, & 10% to breast cancer. and Provocative Curiosities about the Writing, Selling, and Reading of Books Rowman & Littlefield Everyone knows which books people buy; they can just look at the best-seller lists. But who knows which books people steal? Who, for that matter, knows that authors ruin the book market by writing too much? Or why book critics are not critical? Or why librarians need to throw

out more books? Who, indeed, knows the answer to that all-important question in our democracy: should presidents and presidential candidates write books? (The answer is no.) In this irreverent analysis of the book industry, John Maxwell Hamilton -- a longtime journalist and public radio commentator -- answers these questions and many more, proving that the best way

to study books is not to take them too seriously. He provides a rich history of the book -- from the days when monks laboriously hand-copied texts to the tidal wave of Titanic tie-ins - - and gives a succinct overview of the state of the industry today, including writing, marketing, promoting, reviewing, ghostwriting, and collecting. Throughout, Hamilton peppers his prose with spicy tidbits of

information that will fascinate bibliophiles everywhere. For instance, did you know that Walt Whitman was fired from a government job because his boss found Leaves of Grass, and its author, immoral? Or that the most stolen book in the United States is the Bible, followed by The Joy of Sex? How about that Dan Quayle's 1989 Christmas card read, "May our nation continue to be

a beakon of hope to the world"? Or that Casanova was an ardent lover of books as well as women? Hamilton offers an inside look at the history and business of book reviewing, explaining why, more often than not, reviewers resemble "counselors at a self-esteem camp" and examining the enormous impact of the "Oprah effect" on the market. As the self-appointed Emily Post of the book

world, he advises publishers, authors, and readers on proper etiquette for everything from book parties ("Feel free to build a party around a theme in a book, no matter how tacky") and jacket photos ("You should not show off your new baby unless [your] book [is] about raising kids"), to book signings ("Just because an author has given you an autograph does not mean they want to

become your pen pal") and promotion by friends and relatives ("They should carry the book at all times on public transportation with the cover showing"). Both edifying and enjoyable, *Casanova Was a Book Lover* fills a Grand Canyon--sized void in the literature on literature. It is indispensable for book enthusiasts who want to know the naked truth about reading, writing, and publishing.
