We can't escape them; aliens are everywhere. They sell us soft drinks and star in their own sitcoms. But to the many people who believe they have been abducted aboard strange crafts, aliens are a very serious reality. Stories of these encounters, taken from investigators' files, have been vividly depicted in television specials and motion pictures. Despite their predominance as a cultural phenomenon, experts offer drastically conflicting opinions: aliens are harmless creatures whose aim is to better understand humans; aliens are angel-like entities here to enhance our spiritual awareness; aliens are conspiring with the government in a plot to enslave humans; and aliens are genetically breeding with humans to create a new race of hybrids. But, what is really going on? Are aliens abducting thousands of unsuspecting people each year? Are they then inserted with tracking devices and monitored? Based on his own investigative files and almost twenty-five years of research, science writer Chris Rutkowski asks hard questions, looking critically, yet compassionately, at the stories of abductees. He is an astronomer, educator and published commentator within the area of study known as "ufology." Rutowski presents case histories of many abductees, showing both their diversity and similarities, and examines how our understanding is shaped by media, by science, and by society itself.

Hearings Before the Special Committee to Study and Survey Problems of Small Business Enterprises, United States Senate, Seventy-seventh Congress, First Session- Pursuant to S. The introduction and rapid spread of two Eurasian mussel species, *Dreissena polymorpha* (zebra mussel) and *Dreissena rostriformis bugensis* (quagga mussel), in waters of North America has caused great concern among industrial and recreational water users. These invasive species can create substantial problems for raw water users such as water treatment facilities and power plants, and they can have other negative impacts by altering aquatic environments. In the 20 years since the first edition of this book was published, zebra mussels have continued to spread, and quagga mussels have become the greater threat in the Great Lakes, in deep regions of large lakes, and in the southwestern Unites States. Quagga mussels have also expanded greatly in eastern and western Europe since the first book edition was published. *Quagga and Zebra Mussels: Biology, Impacts, and Control*, Second Edition provides a broad view of the zebra/quagga mussel issue, offering a historic perspective and up-to-date information on mussel research. Comprising 48 chapters, this second edition includes reviews of mussel morphology, physiology, and behavior. It details mussel distribution and spread in Europe and across North America, and examines policy and regulatory responses, management strategies, and mitigation efforts. In addition, this book provides extensive coverage of the impact of invasive mussel species on freshwater ecosystems, including effects on water clarity, phytoplankton, water quality, food web changes, and consequences to other aquatic fauna. It also reviews and offers new insights on how zebra and quagga mussels respond and adapt to varying environmental conditions. This new edition includes seven video clips that complement chapter text and, through visual documentation, provide a greater understanding of mussel behavior and distribution.

#1 NEW YORK TIMES BESTSELLER • Diana Gabaldon returns with the newest novel in the epic *Outlander* series. The past may seem the safest place to be . . . but it is the most dangerous time

to be alive. . . . Jamie Fraser and Claire Randall were torn apart by the Jacobite Rising in 1746, and it took them twenty years to find each other again. Now the American Revolution threatens to do the same. It is 1779 and Claire and Jamie are at last reunited with their daughter, Brianna, her husband, Roger, and their children on Fraser's Ridge. Having the family together is a dream the Frasers had thought impossible. Yet even in the North Carolina backcountry, the effects of war are being felt. Tensions in the Colonies are great and local feelings run hot enough to boil Hell's teakettle. Jamie knows loyalties among his tenants are split and it won't be long until the war is on his doorstep. Brianna and Roger have their own worry: that the dangers that provoked their escape from the twentieth century might catch up to them. Sometimes they question whether risking the perils of the 1700s—among them disease, starvation, and an impending war—was indeed the safer choice for their family. Not so far away, young William Ransom is still coming to terms with the discovery of his true father's identity—and thus his own—and Lord John Grey has reconciliations to make, and dangers to meet . . . on his son's behalf, and his own. Meanwhile, the Revolutionary War creeps ever closer to Fraser's Ridge. And with the family finally together, Jamie and Claire have more at stake than ever before.

Our Mutual Friend - explores the conflict between doing what society expects of a person and the idea of being true to oneself *The Pickwick Papers* - To extend his researches into the quaint and curious phenomena of life, Samuel Pickwick suggests that he and three other "Pickwickians" should make journeys to places remote from London and report on their findings to the other members. Oliver Twist is an orphan who starts his life in a workhouse and is then sold into apprenticeship with an undertaker. He escapes from there and travels to London, where he meets the Artful Dodger, a member of a gang of juvenile pickpockets led by the elderly criminal, Fagin... *A Christmas Carol* tells the story of a bitter old miser named Ebenezer Scrooge and his transformation after visitations by the ghost of his former business partner and the Ghosts of Christmas Past, Present and Yet to Come. *David Copperfield* is a fatherless boy who is sent to lodge with his housekeeper's family after his mother remarries, but when his mother dies he decides to run away... *Hard Times* is set in the fictional city of Coketown and it is centered around utilitarian and industrial influences on Victorian society. *A Tale of Two Cities* depicts the plight of the French peasantry demoralized by the French aristocracy in the years leading up to the revolution, and many unflattering social parallels with life in London during the same period. *Great Expectations* depicts the personal growth and development of an orphan nicknamed Pip in Kent and London in the early to mid-19th century. *Bleak House* - legal thriller based on true events. *Little Dorrit* - criticize the institution of debtors' prisons, the shortcomings of both government and society. *COLLECTED LETTERS THE LIFE OF CHARLES DICKENS* by John Forster

A guide to neurofeedback for better physical and mental health as well as greater emotional balance, cognitive agility, and creativity • Provides easy-to-understand explanations of different neurofeedback methods--from the LENS technique to Z-score training • Explains the benefits of this therapy for anxiety, depression, autism, ADHD, post-traumatic stress disorder, obsessive-compulsive disorder, brain injuries, stroke, Alzheimer's, and many other ailments • Explores how to combine neurofeedback with breathwork, mindfulness, meditation, and attention-control exercises such as Open Focus What is neurofeedback? How does it work? And how can it help me or my family? In this guide to neurofeedback, psychologist and neurofeedback clinician Stephen Larsen examines the countless benefits of neurofeedback for diagnosing and treating many of the most debilitating and now pervasive psychological and neurological ailments, including autism, ADHD, anxiety, depression, stroke, brain injury, obsessive-compulsive disorder, and post-traumatic stress

disorder. Surveying the work of neurofeedback pioneers, Larsen explains the techniques and advantages of different neurofeedback methods--from the LENS technique and HEG to Z-score training and Slow Cortical Potentials. He reveals evidence of neuroplasticity--the brain's ability to grow new neurons—and shows how neurofeedback can nourish the aging brain and help treat degenerative conditions such as Alzheimer's and strokes. Examining the different types of brain waves, he shows how to recognize our own dominant brainwave range and thus learn to exercise control over our mental states. He explains how to combine neurofeedback with breathwork, mindfulness, meditation, and attention-control exercises such as Open Focus. Sharing successful and almost miraculous case studies of neurofeedback patients from a broad range of backgrounds, including veterans and neglected children, this book shows how we can nurture our intimate relationship with the brain, improving emotional, cognitive, and creative flexibility as well as mental health.

The fourth volume of the *Collected Works* is devoted to Wigners contribution to physical chemistry, statistical mechanics and solid-state physics. One corner stone was his introduction of what is now called the Wigner function, while his paper on adiabatic perturbations foreshadowed later work on Berry phases. Although few in number, Wigners articles on solid-state physics laid the foundations for the modern theory of the electronic structure of metals.

Indian philosopher, poet, mystic and Yogi, Sri Aurobindo, argued that human society has evolved throughout history and is destined to move towards better organization of life. Applying his ideas to problems confronting the world today, this collection presents an in-depth exploration of Aurobindo's evolutionary philosophy and Integral Yoga. Written by an international team of scholars and practitioners, each chapter takes a theoretical aspect of Sri Aurobindo's philosophy, positions it alongside policy debates on the individual and the state and explains its practical and educational benefits. Contributors discuss his vision of unity in diversity, shed light on his poetry and offer a comprehensive view of his concept of ethics as well as his metaphysics of consciousness. They examine his contribution to the Indian response to post-Enlightenment modernity and reveal how his philosophy illuminates some of the fundamental problems of our times, offering possible solutions. By presenting the first sustained discourse between Sri Aurobindo and the contemporary world, this collection addresses the relevance of his philosophy for everyday life and highlights the lasting work of this important 20th-century Indian thinker. "Wow, just wow". Sat here at the top of the drive you can't see much thanks to the boundary lined oak trees and scattered horse chestnut, ash and beech trees.' The beginning of Jess' story is fantasy-like and even romantic. Her life is simple; no adventure or drama - but that's all set to change when she starts to work for Avon Manor; 'it is like a fairy tale with hints of grunge and history in places'. A mysterious man comes to the Manor to change everything -"your skin is so soft and I love your big blue eyes." - but never in her mind did she think it would result in this. 'Don't give up Jessica, don't give up'

Finalist for the Pulitzer Prize (Biography) A New York Times bestseller, this “epic and elegant” biography (*Wall Street Journal*) profoundly recasts our understanding of the Vietnam War. Praised as a “superb scholarly achievement” (*Foreign Policy*), *The Road Not Taken* confirms Max Boot’s

role as a “master chronicler” (Washington Times) of American military affairs. Through dozens of interviews and never-before-seen documents, Boot rescues Edward Lansdale (1908-1987) from historical ignominy to “restore a sense of proportion” to this “political Svengali, or ‘Lawrence of Asia’ ”(The New Yorker). Boot demonstrates how Lansdale, the man said to be the fictional model for Graham Greene’s The Quiet American, pioneered a “hearts and minds” diplomacy, first in the Philippines and then in Vietnam. Bringing a tragic complexity to Lansdale and a nuanced analysis to his visionary foreign policy, Boot suggests Vietnam could have been different had we only listened. With contemporary reverberations in Iraq, Afghanistan, and Syria, The Road Not Taken is a “judicious and absorbing” (New York Times Book Review) biography of lasting historical consequence.

The Dominican Republic is the most visited country in the Caribbean and, according to CNN, the second-happiest place on the planet. However, most of its workers make less than fifteen dollars a day, it has around two million stateless people, and 70 percent of its schools do not offer students safe drinking water. The island is certainly a fascinating place for students to research, so why not take a social justice trip there so they can see it for themselves? That was what Kevin LaMastra had in mind when he took his students to the DR for some snorkeling, horseback riding, and waterfall jumping, but also to check out a garbage dump, a sweatshop, and an HIV/AIDS orphanage. We learn the most when we step outside our comfort zones. That’s not exactly LaMastra’s sales pitch when he’s looking for students to sign up each year, but it becomes the leading philosophy of the trip when he takes them to bond with survivors of Haiti’s 2010 earthquake, to visit communities hidden deep inside sugarcane fields, and to witness an actual Vodou ceremony.

Henry O. Pollak Chairman of the International Program Committee Bell Laboratories Murray Hill, New Jersey, USA The Fourth International Congress on Mathematics Education was held in Berkeley, California, USA, August 10-16, 1980. Previous Congresses were held in Lyons in 1969, Exeter in 1972, and Karlsruhe in 1976. Attendance at Berkeley was about 1800 full and 500 associate members from about 90 countries; at least half of these come from outside of North America. About 450 persons participated in the program either as speakers or as presiders; approximately 40 percent of these came from the U.S. or Canada. There were four plenary addresses; they were delivered by Hans Freudenthal on major problems of mathematics education, Hermina Sinclair on the relationship between the learning of language and of mathematics, Seymour Papert on the computer as carrier of mathematical culture, and Hua Loo-Keng on popularising and applying mathematical methods. George Polya was the honorary president of the Congress; illness prevented his planned attendance but he sent a brief presentation entitled,

"Mathematics Improves the Mind". There was a full program of speakers, panelists, debates, miniconferences, and meetings of working and study groups. In addition, 18 major projects from around the world were invited to make presentations, and various groups representing special areas of concern had the opportunity to meet and to plan their future activities.

I lie in bed fearing the sound of footsteps on the stairs. Footsteps now in the hall. The door opens. The door closes quietly. Then the sound I fear the most, the click of the lock as the signal my nightmare is about to begin again... Adult survivors of abuse and molestation and those with mental illness are often told to remain silent, to discuss their lives in dark corners and in hushed tones. Shatter the Silence seeks to break that cycle as LD Smith candidly and eloquently tells the

story of her own journey—and it is not pretty. It is not a fairy tale, and unfortunately it is reality for so many. She invites you to join her and learn what being strong really entails. Know that it is possible to stand proud and speak loudly the story of survival.

These sixteen original essays, whose authors include some of the world's leading philosophers, examine themes from the work of the Cambridge philosopher G. E. Moore (1873-1958), and demonstrate his considerable continuing influence on philosophical debate. Part I bears on epistemological topics, such as scepticism about the external world, the significance of common sense, and theories of perception. Part II is devoted to themes in ethics, such as Moore's open question argument, his non-naturalism, utilitarianism, and his notion of organic unities.

Twelve-year-old Sarojini’s best friend, Amir, might not be her best friend any more. Ever since Amir moved out of the basti and started going to a posh private school, it seems like he and Sarojini have nothing in common. Then Sarojini finds out about the Right to Education, a law that might help her get a free seat at Amir’s school – or, better yet, convince him to come back to a new and improved version of the government school they went to together. As she struggles to keep her best friend, Sarojini gets help from some unexpected characters, including Deepti, a feisty classmate who lives at a construction site; Vimala Madam, a human rights lawyer who might also be an evil genius; and Mrs. Sarojini Naidu, a long-dead freedom fighter who becomes Sarojini’s secret pen pal. Told through letters to Mrs. Naidu, this is the story of how Sarojini learns to fight – for her friendship, her family, and her future. Published by Zubaan.

THE STORY OF AN EXTRAORDINARY JOURNEY BY CAMPER VAN THROUGH THE FORGOTTEN HEART OF SPAIN. Do I really know my own country? That's what I asked myself a year ago ... and the answer surprised me. Yes, I had been to many locations. I was very familiar with the outer edges of the peninsula, but the interior was a huge black hole pierced here and there by the lights of some city. So I set out to remedy it. I bought a van adapted as a home and I went to explore the interior of Spain. For eighty days I visited villages, castles, natural parks and archaeological sites, talked with people, researched a thousand stories and looked out into a world that was curiously familiar and, at the same time, completely unknown. The result is in your hands: an approach to the history, geography and present day realities of a country which is much larger, richer and more complex than we were ever told. A country that overflows with a rich heritage and an archaeological, historical and cultural wealth, full of amazing nooks and crannies, but also depopulated and lonely. A deeply beautiful country that is truly worth the effort of exploring in depth, getting lost in its innermost recesses and diving into its extraordinary past. Will you come with me on a voyage through this forgotten Spain?
