What links the popular songs "You'll Never Walk Alone", "Send in the Clowns", "Memory" and "I Am What I Am"? They all originated in Broadway musicals. Song of the Season is for those who believe that the score is at the heart of a musical and is the essential building block on which the rest of a show is built. Through a systematic historical survey from 1891 to 2023 it argues that the best musicals survive because of their songs, from early 20th century classics such as Show Boat and Oklahoma! through to the contemporary sound of Dear Evan Hansen and Hamilton. Looking at outstanding songs from each Broadway season, the development and history of the musical is illustrated with a fresh perspective. As song styles and popular music tastes changed throughout the decades this structure charts the progress of American showtunes alongside popular music forms as songs evolved from the waltz and ragtime to jazz, rock, rap and hip-hop. Factual analysis and historical context combine to offer a rich picture of the American songbook from Irving Berlin to Elton John. Song of the Season paints a fresh picture for musical theatre students and fans alike, illustrating significant changes in the form through the music. Analyzed in an accessible and engaging way that doesn't rely on music theory knowledge, and including a link to playlist where all the 'songs of the seasons' can be listened to, it is a must-have for those looking to expand their knowledge of the form and trace the social history of the American showtune.
