Seminole War refugees to modern school censuses. This book is a one-stop guide to the colonial, territorial, and state censuses, along with their supplements and substitutes. Covering original documents along with indexes, abstracts, translations, transcriptions, extracts, periodical articles, and digitized or microfilmed documents, the guide describes each source and evaluates its usefulness to modern genealogical researchers. *The World Book Encyclopedia ABC-CLIO* The census of 1790, the first official enumeration of all heads of household residing in the infant republic, is the most important source concerning ordinary citizens at following the ratification of the Constitution. The original 1790 enumerations which have withstood the passage of time cover the present states of Connecticut, Georgia, Maine, Maryland, Massachusetts, New Hampshire, New York, North Carolina, Pennsylvania, Rhode Island, South Carolina, and Vermont. In each of the published census volumes the schedules are arranged by county and in some cases by minor subdivisions of counties, thus enabling the

researcher to narrow his field of research to a particular judicial district. Each volume is separately indexed, so the researcher has only a single alphabet to consult for each state. Heads of families, arranged in alphabetical order under each county and district, are listed with the following information after each name: Number of free white males of sixteen years and upward; number of free white males under sixteen years; number of free white females; number of all other free persons; number of slaves. The 1790 federal census for North Carolina identifies a population of _____ persons. *American State, County & Town Sources* World Book With more than 1,300 cross-referenced entries covering every aspect of the American Revolution, this definitive scholarly reference covers the causes, course, and consequences of the war and the political, social, and military origins of the nation. • Contains more than 1,300 A-Z entries on various political, social, and military topics connected with the American Revolution • Features contributions from more than 120 distinguished

 More than fifty specialists have contributed to this new edition of volume 2 of The Cambridge Bibliography of English Literature. The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis, articulation and coordination that it has been retained

in all its essentials for the new edition. The task of the new contributors has been to revise and integrate the lists of 1940 and 1957, to add materials of the following decade, to correct and refine the bibliographical details already available, and to re-shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries.

This book introduces readers to the first publicly funded, two-way bilingual program in the United States, Coral Way Elementary School. It

details the historical, social and political origins of the school; reviews the various discussions and conceptualization of the bilingual education program as a 50:50 model; and describes the training of the teachers and their work in designing curriculum for the bilingual students. Finally, it reviews whether the program was a success and outlines what lessons can be learned from

the Coral Way Experiment for future bilingual programs. It is essential reading for all scholars of dual language education, for educational historians, for students of language policy and planning, and for teachers and educators who work in the context of dual language education in the US and worldwide. animals with secret-agent skills including eavesdropping baboons, spying convict cichlid fish, and the deceptive eastern gray squirrel. *Red Book* Xlibris Corporation Representing years of extensive research, this authoritative and comprehensive guide to the records generated in the Louisiana Territory during the French and Spanish colonial periods is a major

reference work. Henry Putney Beers has painstakingly traced all types of documents, including land, military, and ecclesiastical records; registers of births, marriages, and burials; and private papers. Far more than a mere bibliographical listing, the book provides a complete history and description of these records and their past as well as current locations. When

microfilms or other copies of particular bodies of documents exist, Beers describes the circumstances of reproduction and lists the locations of the copies. In the first part of the book, Beers presents a concise account of history and government in Louisiana, concentrating on the formation of a record-keeping bureaucracy. His detailed discussion includes information on

available archival reproductions, documentary publications, and the nature and size of holdings in pertinent manuscript collections. Beers's examination of parish, land, and ecclesiastical records will serve as a vital resource. In the remainder of the book, he provides a similarly comprehensive treatment of the records of what are now Mississippi, Alabama, Missouri, and

Arkansas. Beers traces repositories for these documents far beyond regional confines, locating some in Europe, Canada, and Cuba. For the early migrants to the region - the Acadians, for example -- he describes source materials at the migrants' points of origin. He also provides information on documents that have been lost or destroyed, an important service that will save

researchers much time. French and Spanish Records of Louisiana will prove to be of enormous value to a wide range of people: professional historians, local history buffs, genealogists, lawyers, archivists, and librarians.

California, The Treasures of the Yosemite, Our National Parks, Steep Trails, Travels in Alaska, A Thousand-mile Walk to the Gulf, Save the Redwoods, The Cruise of the Corwin and more Non-Federal Censuses of Florida, 1784-1945A Guide to Sources Bartolomé de Las Casas was the first and fiercest critic of Spanish colonialism in the New World. An early traveller to the Americas who sailed on one

of Columbus's voyages, Las Casas was so horrified by the wholesale massacre he witnessed that he dedicated his life to protecting the Indian community. He wrote *A Short Account of the Destruction of the Indies in 1542*, a shocking catalogue of mass slaughter, torture and slavery, which showed that the evangelizing vision of Columbus had descended under later conquistadors

into genocide. Dedicated to Philip II to alert the Castilian Crown to these atrocities and demand that the Indians be entitled to the basic rights of humankind, this passionate work of documentary vividness outraged Europe and contributed to the idea of the Spanish 'Black Legend' that would last for centuries. *Catalogue of the Miscellaneous Portion of the Barton Collection*

Lauren Groff's Florida, the hot sun shines, but a wild darkness lurks. Florida is a "superlative" book (Boston Globe), "gorgeously weird and limber" (New Yorker), "frequently funny" (San Francisco Chronicle), "brooding, inventive and often moving" (NPR Fresh Air) -- as Groff is recognized as "Florida's unofficial poet laureate, as Joan Didion was for California." (Washington Post) "Groff's

gifts as a writer just keep soaring higher and higher." - NPR's Fresh Air In her thrilling new book, Lauren Groff brings the reader into a physical world that is at once domestic and wild—a place where the hazards of the natural world lie waiting to pounce, yet the greatest threats and mysteries are still of an emotional, psychological nature. A family retreat can be derailed by a prowling

panther, or by a sexual secret. Among those navigating this place are a resourceful pair of abandoned sisters; a lonely boy, grown up; a restless, childless couple, a searching, homeless woman; and an unforgettable, recurring character—a steely and conflicted wife and mother. The stories in this collection span characters, towns, decades, even centuries, but

Florida—its landscape, climate, history, and state of mind—becomes its gravitational center: an energy, a mood, as much as a place of residence. Groff transports the reader, then jolts us alert with a crackle of wit, a wave of sadness, a flash of cruelty, as she writes about loneliness, rage, family, and the passage of time. With shocking accuracy and effect, she

pinpoints the moments and decisions and connections behind human pleasure and pain, hope and despair, love and fury—the moments that make us alive. Startling, precise, and affecting, Florida is a magnificent achievement.
