CANDIDATES † Write your name, centre number and candidate number in the boxes above. Friday 11 January 2013 – Morning - Maths Resource Website Today is a Friday the 13th, a day that a lot of people think is unlucky. Is it really worse than any other day? Actually, there are very few really bad Fridays the 13th in history...we have a few of them every year, so if they were always unlucky, we would know by now. For centuries people have thought the number 13 itself was unlucky, meaning it would make bad things happen. Friday the 13th—Bedtime Math—Daily Math There were three Friday 13th s in 1998, this is the greatest number that can occur in any one year, and there must be at least one each year. Here is the solution from the Strabane Grammar School Key Stage
