Essential Idioms in English CTA

A memoir of Cassie's life leading up to, and during her Expedition around the world. At

age twenty-seven, Cassie De Pecol accomplished something remarkable. She became the first woman on record to travel to every country on Earth, and did it faster than anyone in history, male or female. She was inspired by her experiences on the Discovery Channel's *Naked and Afraid* both the three weeks she spent in the Panamanian wilderness and the cyberbullying she endured after the show. And it opened her eyes to the need for women to make a difference in the world. In *Expedition 196*, Cassie shares the secrets behind her personal triumphs and miraculous achievements. It's the story of a dreamer and a doer who went from

restless college dropout to fearless adventurer to philanthropist and humanitarian activist dedicated to female empowerment and global sustainability. Thrilling, inspiring, and unforgettable, *Expedition 196* views the world through the eyes of one extraordinary young woman whose heart took her farther than most people can even imagine.

Obi Okonkwo is an idealistic young man who, thanks to the privileges of an education in Britain, has now returned to Nigeria for a job in the civil service. However in his new role he finds that the way of

government seems to be backhanders and corruption. Obi manages to resist the bribes that are offered to him, but when he falls in love with an unsuitable girl - to the disapproval of his parents - he sinks further into emotional and financial turmoil. The lure of easy money becomes harder to refuse, and Obi becomes caught in a trap he cannot escape. Showing a man lost in cultural limbo, and a Nigeria entering a new age of disillusionment, *No Longer at Ease* concludes Achebe's remarkable trilogy charting three generations of an African community under the impact of colonialism, the first two volumes of which are *Things Fall Apart* and *Arrow of God*.

 Song of Lawino and Song of Ocol are among the most successful African literary works. Song of Lawino is an African womans lamentation over the cultural death of her western educated husband - Ocol. In Song of Ocel the husband tries to justify his cultural apostasy. These songs were translated from Acholi by the author. They evince a fascinating flavour of the African rhythmical

idiom.

 ELT Integrated Science: Science without Borders" is the first volume of the INTEGRATED SCIENCE Book series, aiming to publish the results of the most updated ideas and reviews in transdisciplinary fields and to highlight the integration of discrete disciplines, including formal sciences, physical-chemical sciences and

engineering, biological sciences, medical sciences, and social sciences. This volume primarily focuses on the research involving the integration of two or more academic fields offering an innovative, borderless view, which is one of the main focuses of the Universal Scientific Education and Research Network (USERN). The whole world is suffering from complex problems; these are borderless problems; thus, a borderless solution could merely solve such complex issues. Transdisciplinarity is a domain, that researchers work jointly, using a shared conceptual framework, drawing together disciplinary-specific theories, concepts, and approaches to address

common problems. Lack of confidence, lack of expertise, complexities of healthcare, the confusing nature of healthcare environments, and lack of organization and standardization are the obstacles of successful scientific communication. Consequently, this book provides an overview of the essential elements of transdisciplinary studies and integrated science. The unique aspect of this book - privileging it from other books- is covering all aspects of science as harmonies of a single symphony. *Cambridge IGCSE Maths Revision Guide* Carson-Dellosa Publishing
The Rise of English is a masterful account of

the spread of English as the dominant lingua franca worldwide, its intimate connections with globalization and neoliberalism, and its effects on linguistic justice, opportunity, and identity. Deeply researched and wide-ranging in scope, this book shows how English has privileged some and disadvantaged others, but ultimately offers the promise of transcending cultural and linguistic borders in a multilingual world.

This new, fully revised edition aims to serve as a guide for agricultural research scientists and other practitioners in writing papers for publication. It also looks to provide a resource manual for

training courses in scientific writing. There are three new chapters on reporting statistical results, communicating science to non-scientific audiences and electronic publishing. In addition, the original chapters have all been rewritten to reflect current developments and to make the content more complete and easily comprehensible.

A brave account of the social and political forces that threaten a woman's right to choose, this emotionally affecting memoir from a doctor on the front lines of the abortion debate reveals what's really at stake in the Supreme Court In America the reproductive justice debate is reaching a new pitch, with the Supreme Court weighted against women's choice and state legislatures passing bills to essentially outlaw the practice of abortion. With *This Common Secret*, Dr. Susan Wicklund chronicles her twenty-year career in the vanguard of the abortion war. Growing up in working-class rural Wisconsin, Susan made the painful decision to have an

abortion at a young age. It was not until she became a doctor that she realized how many women shared her ordeal of an unwanted pregnancy...and how hidden this common experience remains. Now, in this raw and riveting true story, Susan and the patients she's treated share the complex, anguished, and empowering emotions that drove their own choices. Hers is a calling that means sleeping on planes and commuting between clinics in different states--and that requires her to wear a bulletproof vest and to carry a .38 caliber revolver. This Common Secret reveals the truth about the reproductive health clinics that anti-abortion activists

mischaracterize as damaging and unsafe. This intimate memoir explains how social stigma and restrictive legislation can isolate women who are facing difficult personal choices--and how we as a nation can, and must, support them.
