2016 Study Manual and including analysis of 2015 exam papers. Includes questions on the Financial Management Ethics topic which became examinable from March 2014 onwards. Short form question bank providing over 350 practice questions for the Professional Level Financial Management exam. Designed to complement past paper practice by splitting topics and concepts into smaller and more manageable chunks which you can revise many times before the exam, helping the knowledge to sink in. Helps to build your confidence and avoid becoming overwhelmed by the large number of learning points in full exam standard questions. Instead, our Q&A tests one thing at once and therefore allows you to learn an issue properly before moving on. Questions

are organised into 10 chapters, covering all aspects of the syllabus. Analysis of distribution of past paper marks over the 2009 to 2015 period to help you focus your revision on key areas. Questions are split into Narrative and Numerical chapters, allowing you to drill the easy narrative areas on their own - narrative questions account for 30-35% of a typical Financial Management paper. The Q&A will therefore help you to avoid any overemphasis on studying numerical topics which is typical of many failing candidates. Detailed questions on investment appraisal, capital markets and WACC, hedging and other areas. Full explanation of hedging approaches and calculations. All questions are designed to split topics into smaller parts, allowing you to study one thing at once and

gradually build up knowledge. See www.acasimplified.com for more information on our technique and to download free PDF samples.

Public Administration Previous Question Papers NET JRF Academic Guru Publishing House
The Second Edition of the book encompasses two new chapters—Strategic Cost Management and Business Ethics—A Strategic

Financial Management Instrument. The book, being an augmented version of the previous edition, equips the young managers with the fundamentals and basics of strategic management and financial management in a cogent manner. The text now provides a better orientation to the students on the topics like corporate restructuring, divestitures, acquisitions, and mergers in the global context with the help of examples and caselets. The book has been revised keeping in view the requirements of postgraduate students of management and the students pursuing professional courses such as CA, MFC and CS. In addition, professionals working in the corporate sector may also find the book beneficial to integrate the financial management functions into business

strategy and financial operations.

Distinctive features • Model question papers have been appended at the end of the book. • Better justification of topics by merging the contents wherever required. • Theory supported with caselets inspired from global as well as Indian context.
