He is the author and editor of many books, most recently

Globalization: An Introduction to the End of the Known World (Routledge, 2016). Charles Lemert is distinguished as a theorist in the US, most notably for introducing French theory to American sociology. His first book *Sociology and the Twilight of Man: Homocentrism and Discourse in Sociological Theory* (Southern Illinois University Press, 1979) drew from theoretical contributions of the likes of Michel Foucault and Jacques Derrida in order to critique humanism in sociological theory.

Charles Lemert - Wikipedia
 Edwin M. Lemert posited the notion of primary and secondary deviance in his 1951 text *Social Pathology*. The discussion of these distinct forms of deviance took only a few pages, but the effect on various theories of criminal behavior, particularly labeling theory, were rich and far-reaching. Lemert further delved into this dichotomy in his 1967 *Lemert, Edwin M.: Primary and Secondary Deviance*. This book provides an illuminating introduction to a collection of readings on social theory and provides an overview of the socio-historical context and delineation of key thinkers and texts. It includes a new section exploring social theory at the limits of the social.
