Would you like to know how conversational hypnosis works? Would you like to know what the real power of words is and how to use them to your advantage? And apply the most powerful conversational hypnosis patterns, in a totally unsuspected and rigorous way? The unconscious mind is responsible for everything we do on a daily basis. From walking, blinking, falling in love, driving, even talking. Almost all of our automatisms are governed by our subconscious programming. In fact, almost 97% of our decisions are made from our irrational or unconscious mind. We think we are in control of our lives, but the truth is that we only

control a small part of what we do. The subconscious, for better or worse, decides for us, even if we don't agree with it. It is not surprising that many people want to lose weight, stop smoking, have more economic abundance, but they are still addicted to food, cigarettes or poverty. Why is that? The answer is simple: it is our subconscious programming that creates our reality, even against our will. Now, what would happen if we were able to interfere in the subconscious processing of the people around us? What would happen if, from this moment on, you were able to install hidden commands in the mind of your interlocutor so that his behavior would change in a radical, automatic and powerful way? Conversational hypnosis is a highly powerful double-edged sword that can be used for good or ill. Conversational Hypnosis Oliver Gregg

The first few chapters of this book will focus on the "inner game." This is the foundation of effective persuasion and is by far the most important part of this book. The inner game is by far the most important part of this book! If you've struggled in the past with hypnosis or persuasion despite having perfect technique, you had better believe that it was lack of inner game foundations that

made the difference!! Covert Hypnosis Made Simple Is there's a difference between conversational hypnosis and covert hypnosis? Well, yes and no. Technically conversational hypnosis is any form of hypnotic influence that occurs during a conversation; that can be, but does not necessarily have to be, covert. Covert hypnosis, on the other hand, is any influence that occurs without

the conscious awareness of the person being influenced. That does not necessarily have to occur during a conversation. If that doesn't make sense, don't worry about it. For all intents and practicalities, the two are one and the same thing. Let's put all the superstition and exaggeration out of our minds for the time being,

and look at hypnosis as any influence that occurs at the subconscious level. Understand this as any change that occurs at the level of emotions, imagination and habits. Basically: Any real and powerful change that you create. So, in this book you're going to learn how to create real, powerful changes within ordinary conversations.
