The winner of the Man Booker Prize, this "expertly written, perfectly constructed" bestseller (The Guardian) is now a Starz miniseries. It is 1866, and Walter Moody has come to stake his claim in New Zealand's booming gold rush. On the stormy night of his arrival, he stumbles across a tense gathering of 12 local men who have met in secret to discuss a series of unexplained events: a wealthy man has vanished, a prostitute has tried to end her life, and an enormous cache of gold has been discovered in the home of a luckless drunk. Moody is soon drawn into a network of fates and fortunes that is as complex and exquisitely ornate as the night sky. Richly evoking a mid-nineteenth-century world of shipping, banking, and gold rush boom and bust, The Luminaries is at once a fiendishly clever ghost story, a gripping page-turner, and a thrilling novelistic achievement. It richly confirms that Eleanor Catton is one of the brightest stars in the international literary firmament.

The hospitality sector is facing increasing competition and complexity over recent decades in its development towards a global industry. The strategic response to this is still that hospitality companies try to grow outside their traditional territories and domestic markets, while the expansion patterns and M&A activities of international hotel and restaurant chains reflect this phenomenon. Yet, interestingly, the strategies, concepts, and methods of internationalization as well as the managerial and organizational challenges and impacts of globalizing the hospitality

business are under-researched in this industry. While the mainstream research on international management offers an abundance of information and knowledge on topics, players, trends, concepts, frameworks, or methodologies, its ability to produce viable insights for the hospitality industry is limited, as the mainstream research is taking place outside of the service sector. Specific research directions and related cases like the international dimensions of strategy, organization, marketing, sales, staffing, control, culture, and others to the hospitality industry are rarely identifiable so far. The core rationale of this book is therefore to present newest insights from research and industry in the field of international hospitality, drawing together recent scientific knowledge and state-of-the-art expertise to suggest directions for future work. It is designed to raise awareness on the international factors influencing the strategy and performance of hospitality organizations, while analyzing and discussing the present and future challenges for hospitality firms going or being international. This book will provide a comprehensive overview and deeper understanding of trends and issues to researchers, practitioners, and students by showing how to master current and future challenges when entering and competing in the global hospitality industry.
