Un serial killer che uccide bibliotecari. Un enigma custodito per cinque secoli tra i misteri del Teatro Farnese. Malaffare e corruzione, amori e conventicole locali si rubano la scena mentre un giornalista indaga spinto più dall’istinto che dal mestiere. Ma non siamo in una città qualunque: sullo sfondo c’è Parma. C’è la memoria di un passato glorioso spinto dalle gesta del suo più grande generale: Alessandro Farnese. Corrado Grisendi, giornalista di Videoparma, dovrà ricostruire l’epoca delle guerre di Filippo II di Spagna e della sua Invincibile Armada. Ma che segreto custodiva il Farnese?

General Butler in New Orleans Donzelli Editore

In the almost 15 years since *Our Enduring Values* was published, there has been a sea change in the way much of the world thinks about and uses libraries. Young librarians and seasoned LIS professionals alike are experiencing increasing pressure to adjust to new economic, societal, and technological demands amidst the often-dire rhetoric currently surrounding the future of our institutions. In this stirring manifesto, public intellectual, librarian, and philosopher Gorman addresses head on the “existential panic” among library professionals caused by the radical shift in how libraries are viewed. He reconnects readers with the core values that continue to inspire generations of library professionals and scholars—while making the case that these values are doubly crucial to hold on to in the brave new shifting world of librarianship. Destined to become another classic of library literature, this book explores such contemporary issues as The growing emphasis of the library as a cultural institution, placing libraries within their cultural context as gathering places for learning, access to information, and communityThe impact of technological innovations on core values such as access and stewardshipLibrary places and spaces of the futureHow the mass digitization of books, archives, and other materials affects the purpose and function of librariesIntellectual freedom and privacy in the era of the PATRIOT Act, Wikileaks, and Edward SnowdenThe role of libraries as both champions and facilitators of social justiceInspirational yet clear-sighted, Gorman emphatically reaffirms the importance of libraries and librarians while proposing a path for future survival and growth.

The Anarchist Cookbook will shock, it will disturb, it will provoke. It places in historical perspective an era when "Turn on, Burn down, Blow up" are revolutionary slogans of the day. Says the author" "This book... is not written for the members of fringe political groups, such as the Weatherman, or The Minutemen. Those radical groups don't need this book. They already know everything that's in here. If the real people of America, the silent majority, are going to survive, they must educate themselves. That is the purpose of this book." In what the author considers a survival guide, there is explicit information on the uses and effects of drugs, ranging from pot to heroin to peanuts. There i detailed advice concerning electronics, sabotage, and surveillance, with data on everything from bugs to scramblers. There is a comprehensive chapter on natural, non-lethal, and lethal weapons, running the gamut from cattle prods to sub-machine guns to bows and arrows.

In the Cambodian hinterlands, a lone Western prisoner suffers through a hot, muddy, interminable sentence. Wasted by repeated torture, lack of

sleep, malnutrition, and psychotropic drugs, he has been abandoned. His years of exemplary service to his government mean nothing. No one is coming for him. This is Agent Kasper, a man with a staggering résumé: commercial airline pilot, firearms expert, highly accomplished practitioner of several of the martial arts, a secret agent par excellence. It is this incredible competence that will be his undoing. While investigating Mafia money laundering in Phnom Penh, Kasper is approached by the CIA to track down the source of the so-called supernotes—illegal U.S. banknotes counterfeited so perfectly that they are undetectable, even by sophisticated machines—that are flooding Southeast Asia. With patience, skill, and courage, Kasper uncovers the explosive secret behind them and is badly burned by the truth. Meanwhile, back in Rome, a sharp, scrappy lawyer named Barbara Belli has been hired by Kasper’s family to work for his release. She has contacts in the foreign ministry, and while officials make sweeping claims about moving heaven and earth, nothing happens. It’s more than just creaking bureaucracy. Kasper has really pissed off the wrong people. Based on true events in the life of a former spy, Kasper’s journey makes for a shocking and spellbinding page-turner of petty corruption, high-level betrayal, and state secrets so powerful that governments will protect them by any means.

This is the first multi-volume collection of major writings on cultural anthropology, the sub-field of anthropology which is concerned with how people in different places live and understand the world around them. It covers key methodologies (participant observation, ethnography) and topics (kinship, ritual, values) and maps the development of the field from its beginnings in the mid-nineteenth century through to recent and current debates on the 'critique of anthropology' and the rise of new methodologies such as multi-sited research. The four volumes are arranged thematically and each is separately introduced. Drawing upon essays from anthropology and related disciplines, the volumes together chart the origins of the field, explore its core theories and methods, and trace the proliferation of sub-fields that it has generated, including anthropology of art, urban anthropology, medical anthropology and the anthropology of gender and sexuality. With key texts from James George Frazer, Lewis Henry Morgan, Bronislaw Malinowski, Franz Boas, Ruth Benedict, Margaret Mead, Lucy Mair, Claude Levi Strauss, Melford Spiro, Marshall Sahlins, Laura Nader, Maurice Godelier, David Graeber, Suad Joseph and many more, this set is an essential resource for scholars and students of the subject.

Jacopo Fernandez è un uomo politicamente (e non solo) molto scorretto. Redattore di un piccolo quotidiano, l'unico motivo per cui si alza (tardi) ogni mattina è quello di mettere insieme qualche spicciolo per delle insane bevute mentre si gode le sacrosante partite di calcio in tv. Un giallo nuovo e frizzante, pieno di invenzioni irresistibili, da bere - pardon - da leggere tutto d'un fiato, proprio come una “tequila boom boom”.

The new US National Cyber Strategy points to Russia, China, North Korea and Iran as the main international actors responsible for launching malicious cyber and information warfare campaigns against Western interests and democratic processes. Washington made clear its intention of scaling the response to the magnitude of the threat, while actively pursuing the goal of an open, secure and global Internet. The first Report of the ISPI Center on

In English for the first time, a guide to the true secret structure of the Illuminati and their invisible network made of various power structures, author Leo Lyon Zagami uses their internal documents and reveals confidential and top-secret events. His book contends that the presence of numerous Illuminati brotherhoods and secret societies—just as those inside the most prestigious U.S. universities such as Yale or Harvard—have always been guides to the occult. From the Ordo Templi Orientis (OTO)'s infiltration of Freemasonry to the real Priory of Sion, this book exposes not only the hidden structure of the New World Order and the occult practices but also their connections to the intelligence community and the infamous Ur-Lodges.
