Astonishingly original and detailed lookalike scenes - the more you look the more you find In the land of lookalikes, the more you look, the more you see Artist Joan Steiner has used everything from acorns and broccoli to zips and tubes of paint to create extraordinarily detailed three-dimensional worlds. Stop in at the sweet shop and sit down on a chair built out of pretzels and biscuits, or stroll through the park, where pennies are cobblestones and a shoe-horn is a slide (Lookalikes). Take a ride on a train made out of a flashlight, film and flowers (Lookalikes Junior). Each book has over 700 lookalikes to find, and will have puzzles of all ages poring over the pages for hours on end.

Will these two siblings help solve a family mystery? Find out in one of the earliest Newberry Honor Award winners! Brother and sister, Oliver and Janet, are excited to spend their summer with their cousin Jasper, who has always been cheerful and fun to be around. However, when the children arrive at his home, Jasper is despondent and distracted—nothing like the cousin they know. Eventually, the children discover that their cousin has been having trouble with a neighbor but is doing nothing to fix the problem! The siblings want to help . . . but how? Enter in The Beeman, a neighbor who regales Oliver and Janet with enchanting stories of local history. The two siblings visit the friendly neighbor more and more to hear his amazing stories but continue to wonder how they can help their cousin. As it turns out, The Beeman's tales of their family history just so happen to contain the secret to helping Jasper with his villainous neighbor! With original illustrations and beautiful, descriptive prose, this classic award-winner is perfect for young readers eager for a good, wholesome mystery. Whether you read it alone or as a family, get ready to be swept away by The Windy Hill!

**Budgeting: Planning for Success** Galileo Press

By definition, winning means that you competed and you came out ahead. Human nature requires us to compete in order to survive. Therefore, winning and survival have the element of success in common. To ascend to a winning position, you need a goal, a desire to achieve it, and the qualities of discipline, perseverance and action to attain it. Having your goal and setting yourself up to achieve your goal is the first step in the process. You adjust your mindset and begin to plan diligently. Goals may be as different as DNA, but methodologies have much in common. Furthermore, your plans and expectations will need adjustments as you go along. That is why the knowledge shared by the CelebrityExperts(r) in this book will be of importance to you. The advice and suggestions of these CelebrityExperts(r) are based on their experiences - both their accomplishments and their shipwrecks. The knowledge they share will allow you to make plans that can propel you in the right direction. That is the function of a mentor - to guide you where you are going and to advise what to avoid. If you wish to develop The Winning Way to your goals, read on... You will never win if you never begin. Helen Row

Korean: A Comprehensive Grammar is a reference to Korean grammar, and presents a thorough overview of the language, concentrating on the real patterns of use in modern Korean. The book moves from the alphabet and pronunciation through morphology and word classes to a detailed analysis of sentence structures and semantic features such as aspect, tense, speech styles and negation. Updated and revised, this new edition includes lively descriptions of Korean grammar, taking into account the latest research in Korean linguistics. More lower-frequency grammar patterns have been added, and extra examples have been included throughout the text. The unrivalled depth and range of this updated edition of Korean: A Comprehensive Grammar makes it an essential reference source on the Korean language.

This book, first appearing in German in 2004 under the title Spezielle Relativit[ts]theorie f[ur] Studienanf[ang]er, offers access to the special theory of relativity for readers with a background in mathematics and physics comparable to a high school honors degree. All mathematical and

physical competence required beyond that level is gradually developed through the book, as more advanced topics are introduced. The full tensor formalism, however, is dispensed with as it would only be a burden for the problems to be dealt with. Eventually, a substantial and comprehensive treatise on special relativity emerges which, with its gray-shaded formulary, is an invaluable reference manual for students and scientists alike. Some crucial results are derived more than once with different approaches: the Lorentz transformation in one spatial direction three times, the Doppler formula four times, the Lorentz transformation in two directions twice; also twice the unification of electric and magnetic forces, the velocity addition formula, as well as the aberration formula. Beginners will be grateful to find several routes to the goal; moreover, for a theory like relativity, it is of fundamental importance to demonstrate that it is self-contained and without contradictions. There's a jiiiiisaaaaaw, waiting in this box / It'd like for you to solve it / but it thinks it'll blow your mind! Not unlike the lyrical genius of David Bowie, jigsaw puzzles are at times mystifying yet

always satisfying. Not only is the Where's Bowie? Jigsaw Puzzle a fun 500-piece detail-focused puzzle, it's also a find-Bowie interactive adventure. On the finished eight-by-eight-inch puzzle, hidden in multiple places across the detailed image, Bowie--in his various chameleonic guises--is patiently waiting to be spotted by a well-trained eye. It's like Where's Waldo? but, well, better, because it's about Bowie! This jigsaw is jam-packed with Bowie references that might even teach the most hardened Bowie aficionado a thing or two. In case you missed it--jigsaws are back, baby! Give yourself a much-needed digital detox, turn off your phone/tablet/laptop screen, grab a stiff drink, and put on your puzzle hat. This 500-piece jig saw puzzle is going to take some good old-fashioned puzzling. Maybe whack on Aladdin Sane, The Rise and Fall of Ziggy Stardust, or whichever Bowie record you adore the most, for the ideal backing track to your puzzle-solving adventure.

" An enraged elephant flips a car onto its roof. A lioness prises open the door of a terrified couple. A leopard helps itself to a family's picnic breakfast. A fleeing impala leaps through an open car

window. A lion charges around inside a busy rest camp. A hyaena snatches a baby from a tent. A tourist takes a bath in a croc-infested dam...These are just a few of the 101 jaw-dropping sightings, scrapes and encounters in this collection of extraordinary true stories from the roads, camps, picnic sites and walking trails of South Africa's Kruger National Park, as told by the very people who experienced them. There are no game ranger tales here - each and every story happened to an ordinary Kruger visitor doing what over a million tourists do in this spectacular reserve each year." -- Back cover.
