Solutions for All
Geography Routledge

This book focuses on how current and prospective teachers worldwide are prepared for the significant task of teaching geography, given the important role of teachers. It eschews a traditional career-centric

framework (pre-service, in-service teaching) in favor of a topical approach toward issues that all teachers face. The book updates thinking on geography education subfields such as GI education and fieldwork and traces important contemporary discourses such as digitalization and sustainability. The book further explains the broad variety of institutionalization of geography teacher education in various political systems. In short, this book collects strategies for geography teacher educators worldwide to provide insight into the challenges, conditions, and solutions present at the classroom and institutional level. As such, this book is a

must-have for teacher educators and geography teachers worldwide.

Geography Teacher Education and Professionalization

The advent of the National Primary Strategy has produced a welcome reminder to teachers of the importance of geography within the primary curriculum.

This book aims to encourage this renewed awareness and to support teachers in teaching primary geography in different and exciting ways. It will show that

children have an entitlement to learn about geography and this can be achieved in a lively, creative fashion uplifting for both teachers and children. It covers: planning for and assessing progression in learning inclusion ICT and drama indoors, outdoors and beyond. Written in association with the Geographical Association, this book will help both trainee and experienced teachers to integrate geography as an essential part of the primary curriculum.
