Begin with letter order problems that only ask for letters that follow, first working on accuracy and then speed. Move on to letters that come between others, and finally letters that come before. By the time the student can

The challenge in this worksheet is to place a list

of words on the correct pages in a dictionary. A list of words from a tight range are given, along with several dictionary pages that already have the first and last words added. This task takes some concentration since the similarities of both the words and pages can easily lead to errors. To make things more complicated, you have the option of including words in the

list that fall outside or between pages.
