"Nineteen Eighty-Four: A Novel", often published as "1984", is a dystopian social science fiction novel by English novelist George Orwell. It was published on 8 June 1949 by Secker & Warburg as Orwell's ninth and final book completed in his lifetime. Thematically, "Nineteen Eighty-Four" centres on the consequences of totalitarianism, mass surveillance, and repressive regimentation of persons and behaviours within society. Orwell, himself a democratic socialist, modelled the authoritarian government in the novel after Stalinist Russia. More broadly, the novel examines the role of truth and facts within politics and the ways in which they are manipulated. The story takes place in an imagined future, the year 1984, when much of the world has fallen victim to perpetual war, omnipresent government surveillance, historical negationism, and propaganda. Great Britain, known as Airstrip One, has become a province of a totalitarian superstate named Oceania that is ruled by the Party who employ the Thought Police to persecute individuality and independent thinking. Big Brother, the leader of the Party, enjoys an intense cult of personality despite the fact that he may not even exist. The protagonist, Winston Smith, is a diligent and skillful rank-and-file worker and Outer Party member who secretly hates the Party and dreams of rebellion. He enters into a forbidden relationship with a colleague, Julia, and starts to remember what life was like before the Party came to power.

"Tomás Saraceno's installations shatter traditional concepts relating to place, time, gravity and traditional ideas as to what constitutes architecture.

His works are utopian and invite the viewer to play a part in their impact on a particular space, as they reach up to the sky and down to the ground.

The artist creates gardens that hang in the air and allow visitors to float in space, fulfilling a dream shared by all humankind. Saraceno draws inspiration from soap bubbles and the incredible strength and flexibility of spider webs."--from Hamburger Bahnhof, Museum für Gegenwart, Berlin's website.

A deeply textured dual biography and fascinating intellectual history that examines two of the greatest minds of European history—Desiderius Erasmus and Martin Luther—whose heated rivalry gave rise to two enduring, fundamental, and often colliding traditions of philosophical and religious thought. Erasmus of Rotterdam was the leading figure of the Northern Renaissance. At a time when Leonardo, Michelangelo, and Raphael were revolutionizing Western art and culture, Erasmus was helping to transform Europe’s intellectual and religious life, developing a new design for living for a continent rebelling against the hierarchical constraints of the Roman Church. When in 1516 he came out with a revised edition of the New Testament based on the original Greek, he was hailed as the prophet of a new enlightened age. Today, however, Erasmus is largely forgotten, and the reason can be summed up in two words: Martin Luther. As a young friar in remote Wittenberg, Luther was initially a great admirer of Erasmus and his critique of the Catholic Church, but while Erasmus sought to reform that institution from within, Luther wanted a more radical transformation. Eventually, the differences between them flared into a bitter rivalry, with each trying to win over Europe to his vision. In Fatal Discord, Michael Massing seeks to restore Erasmus to his proper place in the Western tradition. The conflict between him and Luther, he argues, forms a fault line in Western thinking—the moment when two enduring schools of thought, Christian humanism and evangelical Christianity, took shape. A seasoned journalist who has reported from many countries, Massing here travels back to the early sixteenth century to recover a long-neglected chapter of Western intellectual life, in which the introduction of new ways of reading the Bible set loose social and cultural forces that helped shatter the millennial unity of Christendom and whose echoes can still be heard today. Massing concludes that Europe has adopted a form of Erasmian humanism while America has been shaped by Luther-inspired individualism.

'One of the greatest football novels ever written and a comic masterpiece' DJ Taylor 'But is this story believable? Ah, it all depends upon whether you want it to believe it.' J.L. Carr In their new all-buttercup-yellow-stripe, Steeple Sinderby Wanderers, who usually feel lucky when their pitch is above water-level, are England's most obscure team. This uncategorizable, surreal and extremely funny novel is the story of how they start the season by ravaging the Fenland League and end it by going all the way to Wembley. Told through unreliable recollection, florid local newspaper coverage and bizarre committee minutes, How Steeple Sinderby Wanderers Won the F.A. Cup is both entertaining and moving. There will never be players again like Alex Slingsby, Sid 'the Shooting Star' Swift and the immortal milkman-turned-goalkeeper, Monkey Tonks.

Art historian James Hyman takes a fresh look at the crucial years after the Second World War when attempts were made to revive European culture and debates about the future of art were fierce. The author proposes that realism in Europe during the early Cold War years occupied a radical

vanguard position and stood in opposition to the competing claims made for American Abstract Expressionism. He examines two distinct visions of realism - social realism and Modernist realism - and explores their political implications and ideological significance. Hyman argues that this Battle for Realism shaped and internationalised British art and addresses a range of artists, from Modernist realists such as Auerbach, Bacon, Freud, Kossoff, Moore and Sutherland to social realists Hogarth, de Francia and the 'kitchen-sink painters'. He also illuminates the impact of foreign and emigre artists on British culture, addressing artists such as Giacometti, Guttuso and Picasso, and examining the claims made for London as an art centre to rival the Ecole de Paris and the New York School. Hyman draws on contemporary critical writing to give fresh insights into the art debates of the period and gives new prom

When we look at a painting hanging on an art gallery wall, we see only what the artist has chosen to disclose--the finished work of art. What remains mysterious is the process of creation itself--the making of the work of art. Everyone who has looked at paintings has wondered about this, and numerous efforts have been made to discover and depict the creative method of important artists. A Giacometti Portrait is a picture of one of the century's greatest artists at work. James Lord sat for eighteen days while his friend Alberto Giamcometti did his portrait in oil. The artist painted, and the model recorded the sittings and took photographs of the work in its various stages. What emerged was an illumination of what it is to be an artist and what it was to be Giacometti--a portrait in prose of the man and his art. A work of great literary distinction, A Giacometti Portrait is, above all, a subtle and important evocation of a great artist.
