Throughout Indian history, many authors and performers have produced, and many patrons have supported, diverse tellings of the story of the exiled prince Rama, who rescues his abducted wife by battling the demon king who has imprisoned her. The contributors to this volume focus on these "many" Ramayanas. While most scholars continue to rely on Valmiki's Sanskrit Ramayana as the authoritative version of the tale, the contributors to this volume do not. Their essays demonstrate the multivocal nature of the Ramayana by highlighting its variations according to historical period, political context, regional literary tradition, religious affiliation, intended audience, and genre.

Socially marginal groups in Indian society—Telugu women, for example, or Untouchables from Madhya Pradesh—have recast the Rama story to reflect their own views of the world, while in other hands the epic has become the basis for teachings about spiritual liberation or the demand for political separatism.

Historians of religion, scholars of South Asia, folklorists, cultural anthropologists—all will find here refreshing perspectives on this tale.

This in-depth study of the classical Hindi tradition brings the world of Mughal-era poetry and court culture alive for an English readership. Allison Busch draws on the perspectives of literary, social, and intellectual history to elucidate one of premodern India's most significant textual traditions, documenting the dramatic rise of a new type of professional Hindi writer while providing critical insight into the motives that animated this literary community and its patrons. Busch examines how riti literature served as an important aesthetic and political resource in the richly multicultural world of Mughal India, and provides, for the first time in a Western language, a detailed study of the fascinating oeuvre of Keshavdas, whose seminal *Rasikpriya* (Handbook for poetry connoisseurs, 1591) was the catalyst for a new Hindi classicism that attracted a spectacular following in the leading courts of early modern India. The circulation of Hindi literature among diverse communities during this period is testament to a remarkable pluralism that cannot be understood in terms of the nationalist logic that has constrained modern Hindi and Urdu to be "Hindu" and "Muslim" languages since the nineteenth century. With the cultural reforms ushered in by colonialism, north Indians repudiated the classical traditions of the courtly past, a complex process given extended treatment in the final chapter. Busch provides valuable insight into more than two centuries of Hindi courtly culture. Poetry of Kings also showcases the importance of bringing precolonial archives into dialogue with current debates of postcolonial theory.

This book provides a remarkable range of information on the history, religion, and folklore of the Nāth Yogis. A Hindu lineage prominent in North India since the eleventh century, Nāths are well-known as adepts of Hatha yoga and alchemical practices said to increase longevity. Long a heterogeneous group, some Nāths are ascetics and some are householders; some are dedicated to personified forms of Shiva, others to a formless god, still others to Vishnu. The essays in the first part of the book deal with the history and historiography of the Nāths, their literature, and their relationships with other religious movements in India. Essays in the second part discuss the legends and folklore of the Nāths and provide an exploration of their religious ideas. Contributors to the volume depict a variety of local areas where this lineage is prominent and highlight how the Nāths have been a link between religious, metaphysical, and even medical traditions in India.

Welcome to the carnival of nonsense where hankies turn into mischievous cats, a messiah is born with her feet in her mouth, you can fave hun by socking on the ree-raw and your favourite corn cakes are made of . . . are you sure you want to know? For the last eighteen hundred years Indian arts have been seen in terms of strictly classified emotional effects known as the nine rasas. The Tenth Rasa: An Anthology of Indian Nonsense celebrates, for the very first time, what Sukumar Ray called the spirit of whimsy, or the tenth rasa, through the topsy-turvy,

irreverent, melodic genre of nonsense literature. This fabulous selection of poetry and prose, brilliantly translated from seventeen Indian languages across India, includes works by Rabindranath Tagore, Sukumar Ray, Vinda Karandikar, Gulzar, Dash Benhur, Manoj Das, Navakanta Barua, Mangesh Padgavkar, Sri Sri, Vaikom Mohammad Basheer, Kunjunni and other known, lesser-known and previously unpublished authors. In forms as varied as stories and songs for children and adults, lullabies, folk tales, Bollywood song lyrics and medieval court verse, the writers open doors to wildly imaginative worlds populated by peculiar characters and fantastical creatures, where only nonsense makes perfect sense. Crackling with wit, wordplay and riotous rhymes, and frequently revelling in pure gibberish, this immensely entertaining collection will delight you from start to finish.

For two hundred years the pessimists have dominated public discourse, insisting that things will soon be getting much worse. But in fact, life is getting better—and at an accelerating rate. Food availability, income, and life span are up; disease, child mortality, and violence are down all across the globe. Africa is following Asia out of poverty; the Internet, the mobile phone, and container shipping are enriching people's lives as never before. In his bold and bracing exploration into how human culture evolves positively through exchange and specialization, bestselling author Matt Ridley does more than describe how things are getting better. He explains why. An astute, refreshing, and revelatory work that covers the entire sweep of human history—from the Stone Age to the Internet—*The Rational Optimist* will change your way of thinking about the world for the better.

Kabir was an extraordinary oral poet whose works have been sung and recited by millions throughout North India for half a millennium. He may have been illiterate and he preached an abrasive, sometimes shocking, always uncompromising message that exhorted his audience to shed their delusions, pretensions, and empty orthodoxies in favor of an intense, direct, and personal confrontation with the truth. Thousands of poems are popularly attributed to Kabir, but only a few written collections have survived over the centuries. The *Bijak* is one of the most important, and is the sacred book of those who follow Kabir.

Who Invented Hinduism? presents ten masterly essays on the history of religious movements and ideologies in India by the eminent scholar of religious studies, David N. Lorenzen. Stretching from a discussion on the role of religion, skin colour and language in distinguishing between the Aryas and the Dasas, to a study of the ways in which contact between Hindus, on the one hand, and Muslims and Christians, on the other, changed the nature of the Hindu religion, the volume asks two principal questions: how did the religion of the Hindus affect the course of Indian history and what sort of an impact did the events of Indian

history have on the Hindu religion. The essays cast a critical eye on scholarly Arguments which are based as much on current fashion or on conventional wisdom as on evidence available in historical documents. Taking issue with renowned scholars such as Louis Dumont, Romila Thapar, Thomas Trautmann and Dipesh Chakrabarty on some central conceptions of the religious history of India, Lorenzen establishes alternative positions on the same through a thorough and compelling look at a vast array of literary sources. Touching upon some controversial arguments, this well-timed and insightful volume draws attention to the unavoidably influential role of religion in the history of India, and in doing so, it creates a wider space for further discussion focusing on this central issue.

The Life of a Text offers a vivid portrait of one community's interaction with its favorite text—the epic *Ramcaritmanas*—and the way in which performances of the epic function as a flexible and evolving medium for cultural expression. Anthropologists, historians of religion, and readers interested in the culture of North India and the performance arts will find breadth of subject, careful scholarship, and engaging presentation in this unique and beautifully illustrated examination of Hindi culture. The most popular and influential text of Hindi-speaking North India, the epic *Ramcaritmanas* is a sixteenth century retelling of the *Ramayana* story by the poet Tulsidas. This masterpiece of pre-modern Hindi literature has always reached its largely illiterate audiences primarily through oral performance including ceremonial recitation, folksinging, oral exegesis, and theatrical representation. Drawing on fieldwork in Banaras, Lutgendorf breaks new ground by capturing the range of performance techniques in vivid detail and tracing the impact of the epic in its contemporary cultural context.

Kabir Says Indianapolis : Bobbs-Merrill

Kabir was a 15th century Indian spiritual master who left a legacy of extraordinary poems which continue to capture the imagination of a diverse audience today. The poems downplay the importance of ritual and austerity, and teach that God is not confined to centers of worship or places of pilgrimage but found everywhere in creation. Most importantly, God is within us and this is where we must meet him. Kabir elevates us into the realm of the spirit - a world of beauty, majesty, even romance, where the relationship between lovers is a recurring metaphor for our relationship to the divine. For the last century, Rabindranath Tagore's classic translation, "Songs of Kabir," has been the standard, but over the years it has suffered the ravages of time. In "Kabir Says," David Masterman has reworked Tagore's translation and breathed new life into it for the 21st century reader. But this edition goes beyond merely updating language and style; it considerably enhances the poetic form and flow of the English translation, and a new introduction and appendix have also been added to add depth to the reader's understanding.

Reveals the real, whole name of God and its place within each of us • Explains how none of the God-names commonly used in the Bible is God's real name • Shows how the real name of God unites all religions from both West and East • Includes spiritual techniques, prayers, poems, and meditative chants to bring each of us into deep, personal, intimate, living relationship with God Of the many names of God commonly used in the Bible and other sacred literature, none is God's real name. Every God-name, including YHWH, reflects only one of God's many aspects, such as the loving creator, the militaristic authoritarian, or the all-knowing judge. None embodies the wholeness, the totality, the full Essence of God. Who then are we to speak to when we seek God? If you can't truly know something until you know its name, how can we truly know God? The culmination of years of translation research and etymological investigation, Rabbi Wayne

Dosick's work digs through many layers of presumption and deeply ingrained beliefs to reveal the real name of God hiding in plain sight in the Bible: Anochi. He shows how this sacred name unites all religions--both of the West and the East. The name Anochi enables us to finally meet the whole, complete, real God--both the grand God of the vast universe and the God of breath, soul, and heart who dwells within each of us. This in-depth exploration of God's name includes spiritual techniques, poems, guided prayers, and meditative chants to bring each of us into personal, intimate, and purposeful relationship with God. By knowing the real name of God, we can affirm the connection to the Divine at the core of our being. We can touch the face of God that resides deep within us all.

Madhu Natisar Nath is a Rajasthani farmer with no formal schooling. He is also a singer, a musician, and a storyteller. At the center of A Carnival of Parting are Madhu Nath's oral performances of two linked tales about the legendary Indian kings, Bharthari of Ujjain and Gopi Chand of Bengal. Both characters, while still in their prime, leave thrones and families to be initiated as yogis—a process rich in adventure and melodrama, one that offers unique insights into popular Hinduism's view of world renunciation. Ann Grodzins Gold presents these living oral epic traditions as flowing narratives, transmitting to Western readers the pleasures, moods, and interactive dimensions of a village bard's performance. Three introductory chapters and an interpretive afterword, together with an appendix on the bard's language by linguist David Magier, supply A Carnival of Parting with a full range of ethnographic, historical, and cultural backgrounds. Gold gives a frank and engaging portrayal of the bard Madhu Nath and her work with him. The tales are most profoundly concerned, Gold argues, with human rather than divine realities. In a compelling afterword, she highlights their thematic emphases on politics, love, and death. Madhu Nath's vital colloquial telling of Gopi Chand and Bharthari's stories depicts renunciation as inevitable and interpersonal attachments as doomed, yet celebrates human existence as a "carnival of parting."
