Advances in our understanding of the brain and rapid advances in the medical practice of neurology are creating questions and concerns from an ethical and legal perspective. Ethical and Legal Issues in Neurology provides a detailed review of various general aspects of neuroethics, and contains chapters dealing with a vast array of specific issues such as the role of religion, the ethics of invasive neuroscience research, and the impact of potential misconduct in neurologic practice. The book focuses particular attention on problems related to palliative care, euthanasia, dementia, and neurogenetic disorders, and concludes with examinations of consciousness, personal identity, and the definition of death. This volume focuses on practices not only in North America but also in Europe and the developing world. It is a useful resource for all neuroscience and neurology professionals, researchers, students, scholars, practicing clinical neurologists, mental health professionals, and psychiatrists. A comprehensive introduction and reference on neuroethics Includes coverage of how best to understand the ethics and legal aspects of dementia, palliative care, euthanasia and neurogenetic disorders Brings clarity to issues regarding ethics and legal responsibilities in the age of rapidly evolving brain science and related clinical practice

America seems presently fascinated by prison culture and the inner workings of what happens behind clinked doors. With TV shows creating binge-watchers of us all, and celebrities piquing public interest as they end up behind bars, Americans seem to enjoy a good gawk at prison life. Each year, more than 1.3 million visitors still trek out to Alcatraz Island, one of the most famous prisons in the world. And why shouldn't they be curious about prison?

We as a nation currently incarcerate more people per capita than any other country, and our prisons are notoriously rough, violent, and overcrowded. At the same time, we love our food, take pictures of it, post it socially, and discuss our foodie favorites. Rarely do we consider the food experiences of those for whom sustenance is more difficult to obtain, particularly those incarcerated, where choice and access is severely limited. Prison food is often everything to prisoners. It is the only marker of time throughout the day. Food becomes commerce in the microeconomies behind prison walls. It is often the only source of pleasure in a monotonous routine. It creates sites of community when prisoners ban together to create recipes, but also becomes a site of discord when issues surrounding fairness and equity arise in the chow hall. Prison Food in America offers a high-level snapshot of the fare offered behind bars, its general guidelines and regulations, fascinating stories about prisoners and food, and the remarkable and varied ways food plays a role in the fabric of prison culture.

A novel range of issues brings together two important contemporary themes in international business. The book includes thoughts from prominent academics on new directions for international business scholarship. **Top 10 Legal Issues for Accountants** Routledge

Are national legal cultures in Europe converging or diverging as a result of the pressures of European legal integration? Åse B. Grødeland and William L. Miller address this question by exploring the attitudes and perceptions of the general

public and law professionals in five European countries: England, Norway, Bulgaria, Poland and the Ukraine. Presenting new findings, they challenge the established view that ordinary citizens and people working professionally with the law have different legal cultures. Their research in fact reveals that the attitudes of citizens in Eastern and Western Europe towards 'law-in-principle' are remarkably similar, whereas perceptions of 'law-in-practice' differ by country and often correlate with GDP per capita and country ranking in rule of law indices. Grødeland and Miller's innovative methodological approach will appeal to both experts and non-experts with an interest in legal culture, European integration, or European elite and public opinion.

The Winning Legal Strategies for Doing Business in Illinois Seminar features nine speeches totaling approximately four hours of authoritative, insider's perspectives on the best practices of the world's top law firms. Featuring Illinois attorneys who have represented thousands of clients in every legal aspect of their business, this seminar provides a broad yet comprehensive overview of specific strategies that every attorney and business in Illinois needs to know about the best practices for success. Each speaker discusses their personal strategies for working with clients and providing direct value in both the audio CD and book of speeches. Also included is an interactive workbook with key questions and action points for creating successful legal strategies based on what is discussed in the seminar. The seminar features speeches by: 1. Cathy Austin, Partner: Gardner, Carton & Douglas, 'More Bang for the Buck?'; 2. John Baer, Partner: Sonnenschein Nath & Rosenthal LLP, 'Commercial Law?'; 3. Alan Becker, Managing Partner: Litchfield Cavo LLP, 'Understand the Client, Understand the Objectives?'; 4. George Bellas, Managing Partner: Bellas & Wachowski, 'Formula for Success?'; 5. John Peter Curielli, Managing Partner: Law Offices of John Peter Curielli, P.C., 'Incorporation Best Practices?'; 6. Joseph Ginsburg, Partner: Levin & Ginsburg, Ltd., 'Working with Businesses?'; 7. Kymn Harp, Partner: Arnstein & Lehr, LLP, 'Commercial Real Estate Law?'; 8. Bill Hubbard, Managing Partner: Hubbard Business Counsel, 'Serve Your Clients? Interest and Help Them Grow?'; 9. Joel Hurwitz, Partner: Arnstein & Lehr LLP, 'Success in a Medium-Sized Real Estate Law Firm?'. The seminar includes a CD (with the audio of the live speeches), book,

seminar padfolio and interactive workbook. In this seminar, you will learn answers to questions such as the following, and many more: 1. What are the biggest legal issues faced by companies in Illinois? 2. How is doing business in Illinois different than in other states, from a legal standpoint? 3. What are the different types or groups of clients that you work with and what makes each unique? 4. Walk me through the process of working with a client? 5. What are some of the financial implications of how you help your clients? 6. What are the biggest mistakes that clients often make that get them into trouble? 7. What are the areas of law in Illinois that most often get companies into trouble? 8. What are the main issues a company expanding into Illinois needs to be aware of? 9. How have the legal issues companies face when doing business in Illinois changed over the last 5-10 years and what are some of the major issues that have transpired? 10. What is the best piece of advice you have ever received with respect to the legal aspects of doing business in Illinois? 11. What dictates success in your role? 12. What are your three golden rules for companies doing business in Illinois, from a legal standpoint? 13. How would you articulate your negotiation strategy?

New forms of digitalization and digital media technologies are positively and negatively disrupting the free flow of information preservation. These new technologies are revolutionizing the way messages are transmitted and breaking the traditional monopolization of information by well-established institutions. Exploring the Relationship Between Media, Libraries, and Archives provides emerging research on new digital trends in information preservation, origination, and sharing. While highlighting the current shift in information sharing from institutional archives to digital platforms, readers will learn how media, librarians, and archivists reinvent their processes to meet the ever-progressing needs of users. This book is an ideal resource for librarians, archivists, information preservers, and media professionals aiming to find a balance among the use of media, new digital technologies, libraries, and archives in preserving and furthering information sharing.

Legal Issues in Special Education provides teachers and school administrators with a clearly written, well-organized, and understandable guide from the perspective of the practitioner without formal legal training. Even though over 50 percent of students with disabilities are now educated in general education

classes, most teachers are not required to complete coursework in special education law and can unwittingly expose themselves and their schools to liability for violating the rights of students with disabilities. This practitioner's guide explicitly addresses the major issues and legal complexities educators inevitably face when dealing with special education legal and policy issues. Using case-based learning to synthesize important legal concepts and principles from leading special education legal cases, this text guides educators, administrators, and parents alike toward a thorough understanding of, and the ability to navigate, many of the current and pressing legal concerns in special education.

#### **Principles, Policies, and Practices** WIPO

Frameworks for ICT Policy: Government, Social and Legal Issues is a reference on ICT policy framework and a guide to those who are involved in ICT policy formulation, implementation, adoption, monitoring, evaluation and application. This comprehensive publication provides background information for scholars and researchers who are interested in carrying out research on ICT policies and promotes the understanding of policies guiding technology.

In less than ten years touchscreen smartphones and their apps have created an unprecedented technological revolution. Yet they are rife with serious potential for breaches of privacy and security, and a lack of uniform rules makes navigation of the legal landscape extremely difficult. Addressing this unstable regulatory environment, this concise, practical guide for the first time provides a measure of legal certainty. It examines case law and legislation in Europe and the United States to highlight the rights and obligations of all actors involved in the marketing of mobile apps, bring to light essential principles and recommend some viable solutions. Nine experts, all versed in the latest developments in international and national laws and regulations affecting digital mobile technology, examine such key topics as the following: contract law as applied to the sale and use of smartphone apps; intellectual property rights in mobile apps; protection of users; data protection; European Union (EU) medical device legislation and its safety implications for app users; fitness or wellness apps; apps' collection of personal data; apps as hostile code and malware delivery mechanisms;

competition law issues; taxation of mobile apps; liability issues for app developers and distributors; and implications of the EU's new regulatory framework on online platforms. Because it is difficult for a basic user to understand how vulnerable everyday apps can be, and because every new information technology platform delivers new risks along with its benefits, legal practitioners working in a wide variety of fields will be increasingly called upon to engage with both personal and enterprise security and privacy breach cases arising from the use of mobile apps. This deeply informed practical analysis goes a long way toward ensuring appropriate handling of legal issues which arise in the mobile app context. Every practitioner, government official and software developer will welcome this much-needed volume.

Global Publishing Group  
Technical, Social and Legal Issues in Virtual Communities: Emerging Environments examines a variety of issues related to virtual communities and social networking, addressing issues related to team identification, leader-member issues, social networking for education, participation in social networks, and other issues directly related to this eclectic field of study. This publication provides comprehensive coverage and understanding of the social, cultural, organizational, human, and cognitive issues related to the virtual communities and social networking. Readers will find that this book encompasses an overall body of knowledge regarding participation of individuals, groups and organizations in virtual communities and networks, by providing an outlet for scholarly research in the area.
