Six months after its American introduction in 1985, the Yugo was a punch line; within a year, it was a staple of late-night comedy. By 2000, NPR's Car Talk declared it "the worst car of the millennium." And for most Americans that's where the story begins and ends. Hardly. The short, unhappy life of the car, the men who built it, the men who imported it, and the decade that embraced and discarded it is rollicking and astounding, and one of the greatest untold business-cum-morality tales of the 1980s. Mix one rabid entrepreneur, several thousand "good" communists, a willing U.S. State Department, the shortsighted Detroit auto industry, and improvident bankers, shake vigorously, and you've got *The Yugo: The Rise and Fall of the Worst Car in History*. Brilliantly re-creating the amazing confluence of events that produced the Yugo, Yugoslav expert Jason Vuic uproariously tells the story of the car that became an international joke: The American CEO who happens upon a Yugo right when his company needs to find a new import or go under. A State Department eager to aid Yugoslavia's nonaligned communist

government. Zastava Automobiles, which overhauls its factory to produce an American-ready Yugo in six months. And a hole left by Detroit in the cheap subcompact market that creates a race to the bottom that leaves the Yugo . . . at the bottom.

Cashing in on Today's Lucrative Collectibles Market Haynes Publishing UK p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 11.0px Arial} In 1951 Chrysler produced its first ever V8 engine – and what an engine it was! Technically advanced and featuring hemispherical combustion chambers, the new “Hemi-Head” engine produced much more power in relation to its capacity than any of its competitors could manage. In 1955 the new Chrysler C-300 was launched. The new model combined muscle (300 horse-power), style (by Virgil Exner) and superb handling for what was a large car. In its first year of production the new C-300 would win both major American stock car racing series: NASCAR and AAA. So began the legend and for each of the next ten years a new 300 model, identified by a different letter of the alphabet, would appear. Here, from C-300 to 300L, is the full story of Chrysler's famous 300 Letter series - “America's Most Powerful Car.”

"Patrick Foster's American Motors Corporation: The Rise and Fall of

America's Last Independent Automaker is the definitive history of the AMC corporation. Featured vehicles include the Rambler, Javelin, and more, as Foster walks the reader through not only the history of an American classic, but a history of the automotive industry itself as it evolved through emissions restrictions and the gas guzzlers of the 80s and 90s"-Provided by publisher.

Schroeder's Antiques Price Guide

Chilton's Total Service

The Turnaround Experience is a study of 16 attempted business turnarounds, each studied for twenty years. Nine were successful and seven unsuccessful, the differences owing to the strategies employed, the managerial skills, and character traits on the part of the people involved. The proposition advanced here is that the successful turnarounds focuses involved conscientious, carefully orchestrated efforts aimed at improving the firm's effectiveness as an efficient low-cost producer of increasingly differentiated quality products simultaneously. This study also revealed that successful turnarounds involve leaders who focus on operations, possess strong ethical values, have good personal reputations, and follow the principles of fair play in dealing with employees, creditors, suppliers, and customers. The 16 cases were drawn from actual documented histories occurrences spanning more than 80 years from 1902 to 1988 in the automobile and agricultural equipment industries where much material is available on the events and the characteristics of the people involved.

The Rise and Fall of America's Last Independent Automaker

Enthusiast Books

The independent automakers who had survived the depression of the 1930s

had flexibility and enough capital from the war to be the first to launch all-new models for a car starved nation. So lucrative was the American post-war car market that new automobile companies were also formed to cash in on the pent-up demand for new cars. This is their story told through text and the use of contemporary brochures, period literature, factory photos, road test info and over 90 new, unpublished color photos of restored examples to relate the importance of these historic vehicles.

An Illustrated History

Hill and Wang
Expertly rendered illustrations of fast, flashy, and powerful sports cars, among them the 1962 Ford Thunderbird, 1964 Corvette Stingray, 1968 Chevy Impala SS427, 1969 Camaro Z-28, 1970 Ford Torino Fastback, 1971 Mustang Boss 351, 1974 Firebird Trans-Am, and 37 others. For coloring book enthusiasts and "muscle car" fans.

Standard Guide to American Muscle Cars

Motorbooks International

While building big horsepower has become easier, putting that power down to the pavement is still quite a challenge. Getting great "bite" involves a lot more than sticky tires and a smoky burnout. The suspension system is being put to work in a way it was never designed to operate. A better understanding of exactly what is happening to the suspension when the car launches from a standing start will assist you in maximizing your car's effectiveness on the street or at the track. In *How to Hook and Launch: Traction Mods for the Street & Strip*, author Dick Miller explains the physics behind what gets a car moving from a standing start, and how to best harness the various powers at work. Getting the rear tires to really bite and gain maximum traction is divided into several

small steps, and Miller walks you through each phase of the launch. Today's enthusiasts face a wide range of potential traction improvements, from softer tires and basic bolt-ons to complete or partial chassis replacements. Most opt for something in-between, where some well-engineered components are chosen to replace the factory equipment and offer a greater capability and range of adjustment. It is this range of upgrades where Miller spends most of his time, explaining what the parts and pieces do, and how to use them to their highest potential.

The C Class 350cc and 500cc Twins

Courier Corporation

There was a time when AMC performance was more of an afterthought to the muscle car era. Sure, the Javelins and AMX cars were cool, as were the really limited cars such as the Scrambler and the Rebel Machine, but with production numbers a distant fourth place in the American manufacturer muscle car scene, well, you could be forgiven for not remembering much about them through the years. Fast forward to today, and AMC muscle cars are among the fastest appreciating performance vehicles in the market. Low production numbers combined with capable performance and cool and unique styling have increased coverage in magazines and at auctions, making these cars more valuable than ever before. Concours-restored AMC muscle cars routinely bring \$30,000 to \$65,000 in the collector car world, making a comprehensive restoration guide a must-have for any American Motors enthusiast. AMC Javelin, AMX, and Muscle Car Restoration 1968-1974 provides in-depth coverage of the decoding and documentation process of an AMC muscle car, primarily the

popular Javelin and AMX models. Author and expert AMC restorer Scott Campbell gives you a detailed account of important aspects of restoration including rust repair; panel and sheet-metal replacement; interior and trim restoration; undercarriage chassis, suspension, and driveline rehabilitation; as well as every other major component group. Also included are multiple "How-To" sequences that, no matter what your skill level, will assist you in restoring your AMC muscle car. This restoration guide chronicles the entire process of AMC ownership from selecting a vehicle to disassembly to final re-assembly. You will find coverage of all steps throughout: from turning your first bolt to tumbling the key in the ignition following completion of your restoration. Whether you own an AMC muscle car, especially a Javelin or an AMX, this restoration guide will be your go-to source for restoring glory to your unique AMC muscle car.

Cars & Parts CarTech Inc

Covers all Jeep models, from MB up, including Grand Cherokee, Wrangler, Cherokee, all CJ models, Scrambler, Wagoneer, Pickups, Jeepster, and J-trucks. For Jeep fans, Jeep owners, and even those just contemplating the purchase of a Jeep, there is no substitute for this incredibly popular, versatile vehicle--over 3.5 million Jeeps have been sold since 1945. And for everything you need to get the most out of Jeep ownership, there is no substitute for Jeep Owner's Bible(TM) by Moses Ludel, recognized as the most comprehensive, authoritative guide to the Jeep ever published. In the words of Jeep Owner's Bible(TM) author Ludel, "For those who never intend to work on their Jeep themselves, the Jeep Owner's Bible(TM) provides basic orientation, explains

mechanical features of Jeep 4WD trucks, offers valuable troubleshooting tips and makes it easier to discuss repair or modification work with a professional mechanic. For the do-it-yourselfer, Jeep Owner's Bible(TM) serves as a technical guide, model review, and data source....Equipped with this book and a genuine Jeep factory service manual for your model, you can accomplish quality repairs or a complete mechanical restoration."

Mighty Mopars, 1960-1974 Createspace Independent Pub

The Triumph 350cc and 500cc unit-construction twins were called the 'C' Series, and were made between 1957 and 1974. The range started with the 350cc 'Twenty-one' - a sedate touring bike with full enclosure in the form of the famous Triumph 'Bathtub' - went through such famous names as the Speed Twin, Tiger 100 and Trophy, and ended with the rip-roaring Daytona and the off-road Adventurer. This book deals with the whole range, giving the history of all the models, and also describes the restoration of a 1969 Trophy T100C.

American Motors Corporation

Motorbooks

Offers profiles of the most popular muscle cars from the 1960s and 1970s through the mid-1990s.

Real World Lessons in Revitalizing Corporations and Organizations CarTech Inc

A must for every restoration and / or maintenance project saving money and research time! A manual transmission interchange guide covering almost all makes and models of US built cars and light trucks from 1960 thru 1972 with some going back into the 1950's and a few as new as 1974. This includes thousands of parts interchanges and for many of the GM, FOMOCO, MOPAR and AMERICAN MOTORS parts it includes the factory part numbers. Many parts interchange between different years, makes and models. For example a part from a 68 Ford 289 may be the same as for a 68 Ford 302 or a part from a 64 Buick may be the same as a part for 65 Chevy Impala. The makes are listed below:- AMC - Buick- Cadillac - Chevrolet Car & Truck- Chrysler - Dodge Car & Truck- Ford Car & Truck - GMC- International Harvester - Lincoln- Mercury - Oldsmobile- Plymouth - Pontiac- Rambler This guide can not only save you money but can be a great

resource for any restoration project. It is designed to assist in the purchase and identification of original equipment parts. It should save you many hours of time locating needed parts. With this guide you will know exactly what parts from which vehicles are identical. There may be no need to pay a high price for a supposedly rare part when it may be identical to many other vehicles parts.

The Turnaround Experience Veloce Publishing Ltd

"This history examines AMC's cars from the company's formation in 1954 through 1987. Features include some 225 photographs; a listing of AMC/Rambler clubs, organizations and business entities, with contact details; tables of specifications and performance data; data on technical devices, trim packages and all model variations; an account of AMC/Rambler appearances in film, television and cartoons"--Provided by publisher.

The Hudson Motorcar Company rose above the fray to establish itself as one of America's greatest automobile companies. Its legendary Super Six was one of the most coveted autos of its era. It was an important defense supplier during World War II. Then came its radical Step-Down models. Company engineers also developed the powerful and highly-refined Twin-H Power engine, and from 1951-1954 Hudson automobiles completely dominated NASCAR. Hudson is remembered as one of the truly great classics of America's automotive heritage.
