People must be led. When there is a leader, he is followed. The spiritual leader is the one who has made the most progress in knowing God and is serving Him. Such a person has authority with God which no one can take away from him. No one can remove him from leadership. No one can put him into leadership. His intimate knowledge of God, his close walk with Him, his sacrificial service for the Lord and His people, put him apart from the others, and those who want true spiritual leadership turn to him. This is my understanding of spiritual leadership. Since people must be led, they will of necessity be led somewhere. If the leader is going nowhere, the people will follow him - to nowhere. If he is going where God wants him to go, people will follow him and by so doing, they will get to the place where God wants them to be. It is therefore important that the leader sees very clearly where God wants him and the people to go. After he has seen, he must be desperate to get there, not alone but with the people. He must finally move from being desperate to desperate action. The act of seeing is vision. The weight to see that which is seen become reality is burden. The right vision will lead to a burden which must be discharged by action. In "Vision, Burden and Action," we set forth what we believe is a message for the Body of Christ now. We believe that this message is for every believer, and not just for some members of the Body. It is for all current leaders and for all would-be leaders. It is for those who lead millions of people, and also for you who is perhaps still leading only one person - yourself. These messages were first preached in the church over two week-ends in 1984. Believers gathered from about ten localities and the Lord spoke and taught them and taught me. We send them out with prayer that the Lord would use them to bless you very abundantly. Amen. "Vision, Burden, and Action" is Book one in a series "Making Spiritual progress." The other books in that series are: Vision, Burden, Action The Ministers And The Ministry of The New Covenant The Cross In The Life And Ministry Of The Believer Knowing The God Of Unparalleled Goodness Brokenness: The Secret Of Spiritual Overflow The Secret Of Spiritual Rest Making Spiritual Progress, Volume 1 Making Spiritual Progress, Volume 2 Making Spiritual Progress, Volume 3 Making Spiritual Progress, Volume 4 My prayer is that the Lord will bless you so mightily and use you for His glory, and that you will find in Him and in His service, perfect fulfilment.

This text explains why values-based spiritual leadership that coalesces employees into a harmonious group is the only way to successfully manage increasingly diverse workers in the 21st century. A person's values are the most powerful factor defining his or her actions; everyone has a value system or a spiritual component that triggers their behavior. Our personal values are a more powerful force upon individual action than corporate policy, procedures, tradition or peer pressure. Since the work environment is where the typical worker will spend the most time—more than at home with family, with friends, or at church—it is reasonable that workers will have spiritual demands as well as economic needs from their work lives. Unfortunately, this is a task managers are not prepared to meet. *Real Leadership: How Spiritual Values Give Leadership Meaning* argues that values-based—i.e., spiritual—leadership is the only way to do leadership in today's globalized, multi-differentiated world. The author traces the development of real leadership through five generations of theory, then builds a strong case for the values leadership strategy because of its ability to unify workers... and because it allows them to find personal meaning in the workplace task at hand.

"The only way to create great relationships and results is through servant leadership. It's all about putting other people first." - from the foreword by John Maxwell We've all seen the negative impact of self-serving leaders in every sector of our society. Not infrequently, they end up bringing down their entire organization. But there is another way: servant leadership. Servant leaders lead by serving their people, not by exalting themselves. This collection features forty-four renowned servant leadership experts and practitioners—prominent business executives, bestselling authors, and respected spiritual leaders—who offer advice and tools for implementing this proven, but for some still radical, leadership model. Edited by legendary business author and lifelong servant leader Ken Blanchard and his longtime editor Renee Broadwell, this is the most comprehensive and wide-ranging guide ever published for what is, in every sense, a better way to lead.

hand. Indeed, we do not easily move out of one mind-set into another. What we believe to be true given our particular experience often seems to be the only truth. Often we need some outside force to trigger reevaluation and rethinking. That triggering force to intellectual growth may be a new idea, a new situation, a new value, a new boss, or some other significant emotional event – maybe, even, a new book. The Resear ch F oundation This book is founded on two pillars: one, a model of five leadership mind-sets c- mon in the last 100 years first presented in Gilbert W. Fairholm 's (1998a, 1998b) book, *Perspectives on Leadership: From the Science of Management to its Spiritual Heart* ; and two, Matthew R. Fairholm's (2002) dissertation, *Conceiving Leadership: Exploring Five Perspectives of Leadership by Investigating the Conceptions and Experiences of Selected Metropolitan Washington Area Municipal Managers* , which analyzed and validated the perspectives model (see the Appendix for more details). The data collected confirm there are five distinct perspectives of leadership evident in the 100-year history of leadership study and practice. The resulting model defines the five perspectives in terms of descriptions of leadership in action, leadership tools and behaviors, and the way leaders approach their relationship to followers. The five perspectives are related hierarchically so that they progressively encompass a unique perspective of the leadership phenomenon.

J. Oswald Sanders probes Scripture to elicit principles and factors that inspired the dynamic spiritual leadership of Paul and the other apostles in the halcyon days of the church. Paul's letters reveal a frail, fallible man--one who fell and rose again--someone who can speak to our need. Because spiritual principles are timeless, we can learn to apply them to our own situations.

*Spiritual Leadership in Action: The CEL Story* is designed for thoughtful leaders working in the complexity and messiness of their daily organizational lives. It is a book first and foremost about people, about the ways they find purpose, creativity and meaning in their professional work; how they thrive in community and fulfill their deep desire to be of service to others against seemingly impossible odds and limitations. A study of how full human potential and creativity is released, how the spirit within, and without, can be experienced and manifested. It is also story of ordinary people achieving extraordinary results, individually and collectively; of people becoming more than they thought was possible; and having fun along the way. This is a practical book with reflections, legacy and "lessons learnt" to support and guide busy leaders who are looking for wisdom and to learn from the experiences and mistakes of others. *Spiritual Leadership in Action: The CEL Story* is the result of serious and rigorous academic research. It is a case study containing features, dilemmas and opportunities facing all leaders today. A leadership narrative of a professional community who learned to live and work together with respect and harmony. It is also the story of a CEO leader and the integration of her spiritual yearning and fulfillment manifested through her professional vocation and calling. In particular it explores how: • To create effective collaborative partnerships • To deliver outstanding value for money on limited resources in complex contexts • To develop excellent commercial practices within a public sector organization • To nurture the spirit, high energy and performance of everyone involved to ensure outstanding success on the triple bottom line This book challenges the reader to be bold, creative, reflective, trusting, even more allowing of their own spirit and leadership path, and to rise to even greater achievements; but most of all to fulfill their own deepest yearnings and potential and to become the very best of what they are meant to be, both as a leader and as a human being. An important feature in this

book is that spirituality and religion are distinct, and that organizational spiritual leadership can be inclusive or exclusive of religious theory and practice. The Centre for Excellence in Leadership (CEL) serves as a role model for maximizing the triple bottom line through both personal and organizational spiritual leadership. CEL is a stellar example of an organization that embraced organizational spiritual leadership, the values of altruistic love, employee well-being, and sustainability while maintaining high levels of financial performance. *Spiritual Leadership in Action: The CEL Story* chronicles how, as CEO, Lynne Sedgmore led CEL through its spiritual journey, including several "Dark Nights of the Soul," to a place of pre-eminence in the United Kingdom's Learning and Skills sector.

*Spiritual Activism* Harvest House Publishers

Over the past half century the issues facing activists have changed, as has our understanding and awareness of spirituality. For activists, spiritual philosophy is rising up the agenda because it offers distinct, tried and tested approaches to deep questions: Where did it all go wrong? What does it mean to be human? What is the place of leadership? What is the nature of power? The book begins by defining spirituality for a modern audience of all faiths and beliefs, and goes on to consider the problems and necessities of true leadership. Drawing on a rich history of spirituality and activism, from The Bhagavad Gita, to the Hebrew prophets, to Carl Jung, it is both guide and inspiration for people involved in activism for social or environmental justice. The text is enriched with tales from the authors' own experiences. It contains case studies of inspirational spiritual activists (including Mama Efua, Desmond Tutu, Gerrard Winstanley, Sojourner Truth and Julia Butterfly Hill), which demonstrate the transformative power of spiritual principles in action.

[The Complete Works of Zacharias Taneer Fomum on Leadership \(Volume 2\)](#) Our Daily Bread Publishing

This book seeks to promote a new spiritual approach to organizational leadership that goes beyond

visionary management to a new focus on the spiritual for both leader and led. Reflecting on the current crisis of meaning in America, this book takes up the search for significance in peoples' worklives—in the products they produce and in the services they offer. Recognizing that the new corporation has become the dominant community for many— commanding most of our waking hours by providing a focus for life, a measure of personal success, and a network of personal relationships—Fairholm calls on business leaders to focus their attention on the processes of community among their stakeholders: wholeness, integrity, stewardship, and morality. Spiritual leadership is seen here as a dynamic, interactive process. Successful leadership in the new American workplace, therefore, is dependent on a recognition that leadership is a relationship, not a skill or a personal attribute. Leaders are leaders only as far as they develop relationships with their followers, relationships that help all concerned to achieve their spiritual, as well as economic and social, fulfillment.

Dozens of books about spirituality and management have demonstrated the yearning for spirituality in the workplace that exists in people like Kerry Hamilton. No longer content to abide the widening chasm between their deeply-held values and the all-too-common business practices they encounter, these readers long for congruence between their values and their work. They wonder whether the days of the giants of corporate character like Johnson & Johnson, businesses who believed that integrity and profitability could co-exist, are gone for good. Are we living in a state of business and organizational entropy? Are we doomed to endless repetition of the Enron, Worldcom, and Global Crossing scandals? Must integrity and profitability now be opposed? What has happened to American business, healthcare, and non-profits in the last forty years? *Soul at Work: Spiritual Leadership in Organizations* demonstrates vividly that another way is possible, based on the contemporary restoration of the partnership between integrity and profitability. It translates the core of what companies like Johnson and Johnson stood for forty years ago into contemporary forms. Through compelling stories of contemporary businesses, healthcare organizations, and nonprofits, *Soul at Work* shows how integrity, profitability, and personal and organizational transformation are all of a piece.
