Football in Asia

Routledge Looking back through the prism of the severe economic crisis for filmmaking in the 1980s, The Film Industry in Brazil explores the unusual relationship

between the state-supported industry, which often produced politically radical films, and the authoritarian regime that had held sway for twenty years. To ground his analysis, Johnson covers the early years of the film industry, 1898-1930; attempts at industrialization during the 1930s and 1940s; film industry congresses and government film boards,

1950-1966; the National Film Institute, 1966-1975; and the expansion of the state's role from 1969 through 1980.

Well-conceived, carefully researched and documented, Johnson's study fills a major gap in film studies by tracing the development of this industry in Brazil, focusing specifically on its relationship to the state.

history,

culture, and business of football in Asia. Football has been a symbol of the modern invention, a catalyst of local, national and regional identities, all time favourite among kids and youths, and even a harbinger for cultural globalization and consumerism in Asia. The economic growth and the current proliferation of football culture in Asia make it imperative to examine the complex

relationship between the globalization of football and the local appropriation. The essays in the book deal with various topics on football in Asia from history of football in Asia, football and local, national and regional identities, to commercialization of football cultures, global mobility and athletes' migration, and then new Asianism and football. This book argues that football in Asia contributes to reconfiguring

both national and regional identities among football fans in the active interconnection with the global flows of football and cultural globalization without homogenizing Asian identities into a cosmopolitan one. This is the textbook to presents football's implication and influence on Asian populace and social changes while using football as a lens assessing the modern development

and current diversification of Asia. This book was published as a special issue of Soccer and Society.
