The real-life trades and strategies of a successful cryptocurrency trader Glen Goodman's goal was to retire young and wealthy, escaping the daily grind. He taught himself how to trade

everything from shares to Bitcoin and made enough money to realise his dream and quit his day job while still in his 30s. In *The Crypto Trader*, Glen will show you exactly how he made huge profits trading Bitcoin, Ethereum, Ripple and more, so that you can do it too - without risking your shirt. Glen publicly called the top of the market in December 2017 and took his profits before the crash. But there are still tons of trading opportunities out there and Glen continues to trade crypto

successfully. Inside you'll see his multi-hundred-percent gains on a raft of cryptocurrencies and learn how he builds his profits and holds onto them. Glen reveals all his trading strategies, the proven methods and rules that make him one of the most followed traders in the world on social media. (He is also frequently interviewed by the BBC, Forbes and LBC, and is a contributing expert on cryptocurrency at the London School of Economics.) It took Glen years of study and trial

and error to become a consistent money maker. He learnt his trading lessons the hard way - so you don't have to. With *The Crypto Trader* by your side, you'll learn how to grab opportunities, make money - and keep it.

FOREX MUST-HAVES Beginner's Guide to Profitably Trading Currency Market

Do you want to learn how to trade in the Forex market? Do you want to understand the secrets and the strategies to become a successful Forex trader? If yes, then keep reading... The Forex market is a complex world, and everyone is trying to look for the goose that lays the golden egg. In this case, we are talking about that one

trade that will simply propel someone to new heights. People imagine that getting into the Forex market is easy, that pretty soon they will be diving into cash the way Scrooge McDuck takes a joyful dive into his pile of gold coins. That rarely happens. But the prospect of making some incredible profits still exists, provided you are ready to navigate the complexities of the Forex market. In fact, here is something you should know. This is a real market. It is the largest financial market in

the world, and you have to treat it as such. You can trade in this market part-time, or you can do it every day. In fact, you can make it your business-the business of trading. People have actually quit their day jobs to get into the world of Forex trading. However, that is something that you should not even consider if you are starting out. Do not make rash decisions in the hope that you are going to master the markets and strike rich in no time. Those are wonderful ambitions but

are not backed by experience. You see, trading can be learned, of course, but the experience can't be transmitted. It has to be constructed by every individual through a personal effort of understanding and hard work. Another thing that is important to understand is that you will never ever stop learning. Markets are changing every day, and the Forex is a living organism that evolves in the same way as all its traders. Always remember that although it

seems to be an unknown entity, at the end of the day, the market is merely made up of investors, large and small, from all corners of the world, each with his or her own emotions, psychology, and predictable behaviors and reactions. Do you ever walk up to a doctor and ask him or her if there is a shortcut to reaching where he or she has reached? Would you do that to an engineer or a renowned sportsperson? These people have developed their skills over time. They have honed

their abilities as much as possible before they could use them fluently. It is the same with trading in the Forex market. You need to put in effort to learn the tricks of the trade (no pun intended). Learn to move on after losses. Don't dwell on missed trades or lost revenue after you decide to close. There will be hundreds of opportunities in the future. Follow your plan, and follow your system. Practice every day, and experience will come with time, patience, and discipline. Don't look

outside for what's already inside. Leave your ego behind. Be humble and smart. You can't decide where the market will go, so learn to see where it wants to lead you, not the other way around. Exit bad trades, and hold on to good trades. Set yourself a goal and stop trading when you have reached it. This book covers the following topics:
Introduction to the Forex Market
Forex Terminology
Defining Forex Trading
Benefits of Forex Trading
The Principle Currencies Explained
The Rules and

The Players ...And much more
