 "This inaugural volume
 in the Library of
 Congress Crime
 Classics series,
 featuring the first

woman sleuth in a series, is a must for genre buffs."

—Publishers Weekly (Starred Review) The first book in an exciting new classic mystery series created in partnership with the Library of Congress, *That Affair Next Door* follows Miss Amelia Butterworth, an inquisitive single woman who becomes involved in a murder investigation after the woman next door turns up dead. Miss Amelia Butterworth prides herself on being an observer of human nature, especially of the people she sees every day from her usual spot at her front window—that is, until she witnesses the prelude to a ghastly murder. Late at night, two people enter her neighbor's home, but

only one leaves. The next morning a young woman is found dead, crushed beyond recognition beneath a cabinet. But her death was no accident—it soon comes to light that she was stabbed by a seemingly innocuous item: a hat pin. Rife with social tension and mistaken identity, the messy case is assigned to veteran Detective Ebenezer Gryce. He expects Miss Butterworth to demurely return home, but she was there at the beginning of this case and she intends to see it through to the end. Miss Butterworth is determined to solve the mystery before the detective, but what begins as a battle of the sexes soon turns into a fight for the ever-elusive truth.

Anna Katharine Green is credited as the "mother of the detective novel," and the classic *That Affair Next Door* proves that the intrigue of a well-crafted mystery is timeless.

The Beardude Story

Lulu Press, Inc
It's been called one of B.C.'s most bizarre drug cases in recent memory. A story with a cast of characters including an oddball hippy, a pot-bellied pig, an overly friendly raccoon and twenty-four black bears. Oh, and a thousand pot plants, apparently guarded by the bears. The bust took place in August of 2010 near the Village of Christina Lake, British Columbia and the story travelled to all parts of the world, including the United States,

Denmark, England, India and Russia, where a news anchor lady could not stop laughing as she read the story. The New York Post declared, "Don't Smokey near this bear." Today, Allen Piche, aka 'The Beardude', announced the release of his book, *The Beardude Story*, which chronicles his side of this strange tale.

ÈIf my present reader happens to be a Boy Scout or a scout-master who wants the scouts to build a tower for exhibition purposes, he can do so by following the directions here given, but if there is real necessity for haste in the erection of this tower, of course we cannot build one as tall as we might where we have more time. With a small tower all the joints may be quickly lashed together with strong, heavy twine, rope, or even wire; and in the wilderness it will probably be necessary to bind the joints with pliable roots, or cordage made of bark or withes; but as this is not a book on woodcraft we will suppose that the reader has secured the proper material for

fastening the joints of the frame of this signal-tower and he must now shoulder his axe and go to the woods in order to secure the necessary timber. First let him cut eight straight poles—that is, as straight as he can find them. These poles should be about four and one half inches in diameter at their base and sixteen and one half feet long. After all the branches are trimmed off the poles, cut four more sticks each nine feet long and two and a half or three inches in diameter at the base; when these are trimmed into shape one will need twenty six or seven more stout sticks each four and one half feet long for braces and for flooring for the platform.

Business DailyForty Centuries of Wage and Price ControlsHow Not to Fight Inflation Madeline's dual professions as event coordinator and private investigator cross paths during the most lavish affair of her career-a weekend-long fortieth birthday extravaganza for the wife of a famous film director. As the party draws near, a simple background check after the disappearance of precious family jewels quickly turns into a murder investigation, and before Madeline and Mike can put the pieces together, another body turns up. Adding to Madeline's already overflowing plate, the D.A. informs her that Rick Yeoman, one of the men who had abducted her three years earlier, has been

prematurely released from prison after cutting a deal with the Feds. Besides fearing reprisals from the man she helped to convict, his parole also triggers the reappearance of soulless Lionel Usherwood, lured out of his hideaway by the call of revenge. When Yeoman's body surfaces in Lake Cachuma, Usherwood moves on to the next target: Madeline. A High Price to Pay is the second novel in the Madeline Dawkins series.

The Mises Institute is thrilled to bring back this popular guide to ridiculous economic policy from the ancient world to modern times. This outstanding history illustrates the utter futility of fighting the market process through legislation. It always uses despotic measures to yield socially catastrophic results. It covers the ancient world, the Roman Republic and

Empire, Medieval Europe, the first centuries of the U.S. and Canada, the French Revolution, the 19th century, World Wars I and II, the Nazis, the Soviets, postwar rent control, and the 1970s. It also includes a very helpful conclusion spelling out the theory of wage and price controls. This book is a treasure, and super entertaining! Shelters, Shacks and Shanties Joel Comiskey

The Empath. The word has found its way into our consciousness accompanied by ideas of healing, sharing emotion and pain. Empaths are sensitive, caring, responsive people who have at the core of their nature an innate ability to receive energy, information and awareness from others with a depth

and intensity that is beyond our customary understanding of empathy. Yet, this very receptivity and permeability brings its own challenges. It is vital for empaths to recognize themselves as such and to consciously explore, understand and address this energetic flow in their life. Self-inquiry is the essential tool to understanding all that motivates and colors your experience of the world. The book explores in depth this receptivity, as well as tools, concepts and approaches to support understanding and how to flourish with this heightened sensitivity. This book is a shared journey, edited from years of workshops and sessions with Elisabeth Fitzhugh and the Orion group.

This title addresses the creation of God, the New World, and what's referred to as the "metaphysical" side of Elijah Muhammad's teaching. It eloquently delves into the subject of form and spirit in the simplest terms. The relationship of Jesus, Joseph and Mary is given a critical analysis as it relates to blacks

Perhaps as early as 1787, Austen began to write poems, stories, and plays for her own and her family's amusement. Austen later compiled "fair copies" of these early works into three bound notebooks, now referred to as the "Juvenilia," containing pieces originally written between 1787 and 1793.
