Strategic Marketing John Wiley & Sons
The Oxford Handbook of Strategic Sales and Sales Management is an unrivalled overview by leading academics in the field of sales and marketing management. Sales theory is experiencing a renaissance driven by a number of factors, including building profitable relationships, creating/delivering brand value, strategic customer management, sales and marketing relationships, global selling, and the change from transactional to customer relationship marketing. Escalating sales and selling costs require organisations to be more

focused on results and highlight the shifting of resources from marketing to sales. Further the growth in customer power now requires a strategic sales response, and not just a tactical one. The positioning of sales within the organisation, the sales function and sales management are all discussed. The Handbook is not a general sales management text about managing a sales force, but will fill a gap in the existing literature through consolidating the current academic research in the sales area. The Handbook is structured around four key topics. The first section explores the strategic positioning of the sales function within the modern organisation. The second considers sales management and recent developments. The third section examines the sales

relationship with the customer and highlights how sales is responding to the modern environment. Finally, the fourth section reviews the internal composition of sales within the organisation. The Handbook will provide a comprehensive introduction to the latest research in sales management, and is suitable for academics, professionals, and those taking professional qualifications in sales and marketing.

Outlines and Highlights for Strategic Marketing Management

Cases by Cravens Asia Higher Education Business & Economics Marketing

This text and casebook discusses the concepts and processes for gaining the competitive advantage in the marketplace. The authors examine many

components of a market-driven strategy, including technology, customer service, customer relationships, pricing and the global economy.

Achieving a Strategic Sales Focus Routledge

The main aim of this book is to consider how the sales function informs business strategy. Although there are a number of books available that address how to manage the sales team tactically, this text addresses how sales can help organizations to become more customer oriented. Many organizations are facing escalating costs and a growth in customer power, which makes it necessary to allocate resources more strategically. The sales function can provide critical customer and market knowledge to help inform both

innovation and marketing. Sales are responsible for building customer knowledge, networking both internally and externally to help create additional customer value, as well as the more traditional role of managing customer relationships and selling. The text considers how sales organizations are responding to increasing competition, more demanding customers and a more complex selling environment. We identify many of the challenges facing organisations today and offers discussions of some of the possible solutions. This book considers the changing nature of sales and how activities can be aligned within the organization, as well as marketing sensing, creating customer focus and the role of sales leadership. The text will

include illustrations (short case studies) provided by a range of successful organizations operating in a number of industries. Sales and senior management play an important role in ensuring that the sales teams' activities are aligned to business strategy and in creating an environment to allow salespeople to be more successful in developing new business opportunities and building long-term profitable business relationships. One of the objectives of this book is to consider how conventional thinking has changed in the last five years and integrate it with examples from sales practice to provide a more complete picture of the role of sales within the modern organization.

Market-Led Strategic Change OUP
Oxford

This book is a unique collection of comprehensive cases that explore concepts and issues surrounding strategic marketing. Chapters explain what strategic marketing is, and then discuss strategic segmentation, competitive positioning, and strategies for growth, corporate branding, internal brand management, and corporate reputation management. With case studies from a broad range of global contexts and industries, including Burger King, FedEx, and Twitter, readers will gain a working knowledge of developing and applying market-driven strategy. Through case analysis, students will learn to: examine the role of corporate, business, and marketing strategy in strategic marketing; recognize the implications of markets on competitive

space with an emphasis on competitive positioning and growth; interpret the various elements of marketing strategy and apply them to a particular real-world situation; apply sound decision-making strategies and analytical frameworks to specific strategic marketing problems and issues; apply ethical frameworks to strategic marketing situations. Marketing Management and Strategy

Irwin Professional Publishing

The third edition of this established book brings the reader up to date with the latest repercussions of new technology upon marketing planning and implementation, and launches a new strategy model (SCORPIO) at the core of the book. As in previous editions, 'Marketing Strategy' strips away the confusion and jargon that surround what ought to be one of the most straightforward areas of modern business. Retaining a clear focus on the relationships between people as the basis of marketing, the book offers analysis of the pivotal role of marketing in the business strategy process. It shows how to: * develop a business

strategy * devise a marketing strategy *

implement a marketing strategy

Providing a good balance between sound theory and practical know-how in an increasingly competitive environment, the book is indispensable for marketing practitioners, general managers and students alike.

Marketing Strategy, by Walker, Boyd, new co-author Mullins, and Larreche, is a flexible, short, paper-back text which can be used on its own or packaged with a case book (Strategic Marketing Management Cases, by Cravens) or with a custom published case book. It covers the concepts and theories of creating and implementing a marketing strategy and offers a focus on the strategic planning process and marketing's cross/interfunctional relationships. This book helps the student integrate what they have learned about analytical tools and the 4Ps of marketing within a broader framework of competitive strategy.
Examining Marketing Strategy from a

Contingency Perspective McGraw-Hill

The business world is changing rapidly, requiring organizations to be more competitive and customer-centric. Applied technologies have provided opportunities for nascent startups to disrupt established business models that hadn't fundamentally changed for decades. Technologies now enable work to be separated from time and space. Technologies have also made certain occupations obsolete while creating new ones. In this changing landscape marked by hyper-competition, firms are looking for new ways to operate and manage their strategies in order to remain extremely agile, nimble, and customer-centric. Inherently, strategic marketing fuses theoretical rigor with relevance to the real world. Marketing strategies

informed through insights based on quality academic research help firms develop relevant organization-wide initiatives for both enhanced value creation and subsequent value capture thereby providing bottom-line impact. The goal of 'Future-Focused Strategic Marketing' is to bring together academic and practitioner audiences in order to highlight key strategic choices for firms operating in the changed landscape. So the focus is not only on the specific marketing activities performed by the firm utilizing their capabilities, but also relevant organizational adjustments and shifts that need to be performed in order to ensure success of firm strategies in a wide variety of contexts. 'Future-Focused Strategic Marketing' is positioned as an introductory use-inspired primer in

Strategic Marketing for a variety of audiences. We intend this book to stimulate novel ideas in marketing strategy scholars including doctoral students to help create cutting-edge research agendas that help shape both firm strategies and public policies. Marketing practitioners will find the relevance of the book appealing as it helps firms to both execute and sustain value in the longer-term. This focus on rigorous and relevant research has inspired the themes for the various book chapters including (i) transforming the organization, (ii) examining structure, culture, and identity issues, and (iii) specifying the relationship between capabilities and performance.
