Tad Brennan explains how to live the Stoic life - and why we
might want to. Stoicism has been one of the main currents of
thought in Western civilization for two thousand years: Brennan
offers a fascinating guide through the ethical ideas of the original
Stoic philosophers, and shows how valuable these ideas remain
today, both intellectually and in practice. He writes in a lively
informal style which will bring Stoicism to life for readers who are
new to ancient philosophy. The Stoic Life will also be of great
interest to philosophers and classicists seeking a full
understanding of the intellectual legacy of the Stoics. Brennan
starts from scrupulous attention to the evidence (references are
provided to all of the standard collections of Stoic texts). He
provides translations of the original texts, with extensive
annotations that will allow readers to pursue further reading. No
knowledge of Greek is required. An introductory section provides
context by introducing the reader to the most important figures in
the Stoic school, the philosophical climate in which they worked,
and a brief summary of the leading tenets of the Stoic system.
After this context is established, the book is divided into three
sections. The first provides a thorough exploration of the Stoic
school's theories of psychology, focusing on their analyses of fear,
desire, and other emotions. The second develops the more
centrally ethical topics of value, obligation, and right action. The
third part explores the Stoic school's views on fate, determinism,
and moral responsibility. For anyone interested in the origins of
Western ethical thought, who wishes to understand the vast
influence that Stoic philosophy has had on philosophy and religion
up to our time, this book will be essential reading.

Survey of Accounting with Connect Plus McGraw-Hill Education
Managerial Accounting for Managers, 4th edition by
Noreen/Brewer/Garrison is based on the market-leading
managerial accounting solution, Managerial Accounting, by
Garrison, Noreen and Brewer. The Noreen solution presents
integrated and proven solutions designed to help attain course
goals of student readiness, comprehension of content, and
application of key concepts in the managerial accounting course,
while addressing the needs of instructors who do not wish to
teach the financial accounting-oriented content that is included in
the Garrison solution (no debits/credits). Of the three programs in
the Garrison franchise (the Brewer solution, the Garrison solution,
and the Noreen solution), the Noreen solution is the most pure
management accounting content. The other two programs
contain greater coverage of financial accounting topics.
Managerial Accounting for Managers 4e is geared towards
professors who love Garrison's market-leading managerial
accounting content but prefer to approach their course by
eliminating the debits and credits coverage. The Noreen solution
includes the managerial accounting topics such as Relevant Costs
for Decision Making, Capital Budgeting Decisions, and Segment
Reporting and Decentralization, however, the job-order costing
chapter has been extensively rewritten to remove all journal
entries. Furthermore, the chapters dealing with process costing,
the statement of cash flows, and financial statement analysis
have been dropped to enable professors to focus their attention
on the bedrocks of managerial accounting—planning, control, and
decision making. McGraw-Hill's Connect Accounting offers a
complete digital solution combines all the great features of
Connect Accounting including McGraw-Hill's SmartBook, powered
by LearnSmart, which is designed to help students learn faster
and more efficiently, and retain more knowledge for greater
success. In addition, Interactive Presentations deliver learning
objectives in an interactive environment, giving students access
to course-critical content anytime, anywhere. Guided Examples
provide students with narrated and animated, step-by-step
walkthroughs of algorithmic versions of assigned exercises. Auto-
Graded Excel Simulations, assignable within Connect Accounting,
allow students to practice their Excel skills—such as
basic formulas and formatting—within the context of accounting.
These questions feature animated, narrated Help and Show Me
tutorials (when enabled), as well as automatic feedback and

"Data Analytics is changing the business world—data simply
surrounds us! With so much data available about each of us (i.e.,
how we shop, what we read, what we buy, what music we listen
to, where we travel, whom we trust, where we invest our time and
money, etc.), arguably, there is the potential for analyzing those
data in a way that can answer fundamental business and
accounting questions and create value. According to the results of
18th Annual Global CEO Survey conducted by PwC, many CEOs
put a high value on Data Analytics, and 80 percent of them place
data mining and analysis as the second-most important strategic
technology for CEOs. In fact, per PwC's 6th Annual Digital IQ
survey of more than 1,400 leaders from digital businesses, the
area of investment that tops CEOs' list of priorities is business
analytics"--

"As our eyes are drawn upward to the skyline of great cities, it's
important to remember that these impressive constructions are
able to reach such heights only because their foundations are
strong. In much the same way, being successful in the business
world begins with fundamental courses like financial and
managerial accounting. It is only when students have a firm grasp
of concepts like the accounting cycle and managerial decision
making that they have a base on which to stand, a strong
foundation on which to grow. In this edition, as before, the
Williams team has revised the text with a keen eye toward the
principle of helping students establish the foundation they will
need for future success in business. However, through new
coverage of International Financial Reporting Standards and a
revised globalization chapter, the Williams book also introduces
students to larger themes and evolving concerns. This dual
emphasis allows students to keep their eyes trained upward even
as they become solidly grounded in accounting fundamentals"--
