*Illuminated History Books  
in the Anglo-Norman  
World, 1066-1272* Sutton  
Pub Limited

A fantastic collection of history poems that conjure up the sights, sounds and smells of the past - both the great events and battles, and ordinary day-to-day activities. Ties in with the history curriculum for Key Stage 1 and Key Stage 2. There are poems about prehistoric times, mammoths, the Stone Age, the Bronze Age, ancient Greece, Rome and Egypt, Vikings, Anglo-Saxons, Alfred the Great, Normans, King Harold, William the Conqueror and the Battle of Hastings.

Things, 5 Bad Kings and 2  
Genuine Dates  
The real story behind the  
best-known—and least-  
understood—battle in  
British history. If ever  
there was a year of  
destiny for the British  
Isles, 1066 must have a  
strong claim. King Harold  
faced invasion not just  
from William and the  
Normans across the  
English Channel, but from  
King Harald Hardrada of  
Norway. Before he fought  
the Normans at Hastings  
in October, he had fought  
at York and neighboring

Stamford Bridge in  
September. It was a year  
of dramatic changes of  
fortune, heroic marches,  
assaults by land and sea.  
This concise history, with  
maps included, tells the  
full story.

### **The Decline and Fall of Practically Everybody** Europe Comics

History is always a  
popular subject and  
British history has created  
some of the most lively  
and fascinating stories  
there are! Britain as we  
know it today has been  
shaped by centuries of  
political turmoil between  
state and church, as well  
as international conflicts,  
making its history a  
fascinating insight into  
how modern Britain has  
emerged. For this special,  
hardback edition of British  
History For Dummies,  
we've added over 100  
black and white and  
colour photos for an even  
more explosive  
experience of British

history. British History For Dummies Illustrated Edition: British history is still a major topic of interest, emphasised by the continual TV coverage and documentaries Inside you'll find rip-roaring stories of power-mad kings, executions, invasions, high treason, global empire-building and forbidden love- not bad for a nation of stiff upper lips! Reproduction of the original: *The History of England from the Norman Conquest of the Death of John (1066-1216)* by George Burton Adams

National Myths Amberley Publishing Limited

Barry Jackson, in association with José G. Levy presents 1066 and

all that, a comic history with music in three acts. Book and lyrics by Reginald Arkell; music by Alfred Reynolds; based on the memorable history of the same name by W.C. Sellar and R.J. Yeatman.

**1066 and All that** CUP Archive

The Bayeux Tapestry is the world's most famous textile—an exquisite 230-foot-long embroidered panorama depicting the events surrounding the Norman Conquest of 1066. It is also one of history's most mysterious and compelling works of art. This haunting stitched account of the battle that redrew the map of medieval Europe has inspired dreams of theft, waves of nationalism, visions of limitless power, and esthetic rapture. In his fascinating new book, Yale professor R. Howard Bloch reveals the history, the hidden meaning, the deep beauty, and the enduring allure of this astonishing piece of cloth. Bloch opens with a gripping account of the event that inspired the Tapestry: the swift, bloody Battle of Hastings, in which the Norman bastard William defeated the Anglo-Saxon king, Harold, and laid claim to England under his new title, William the Conqueror.

But to truly understand the connection between battle and embroidery, one must retrace the web of international intrigue and scandal that climaxed at Hastings. Bloch demonstrates how, with astonishing intimacy and immediacy, the artisans who fashioned this work of textile art brought to life a moment that changed the course of British culture and history. Every age has cherished the Tapestry for different reasons and read new meaning into its enigmatic words and images. French nationalists in the mid-nineteenth century, fired by Tapestry's evocation of military glory, unearthed the lost French epic "The Song of Roland," which Norman troops sang as they marched to victory in 1066. As the Nazis tightened their grip on Europe, Hitler sent a team to France to study the Tapestry, decode its Nordic elements, and, at the end of the war, with Paris under siege, bring the precious cloth to Berlin. The richest horde of buried Anglo-Saxon treasure, the matchless beauty of Byzantine silk, Aesop's strange fable "The Swallow and the Linseed," the colony that Anglo-Saxon nobles

founded in the Middle East following their defeat at Hastings—all are brilliantly woven into Bloch's riveting narrative. Seamlessly integrating Norman, Anglo-Saxon, Viking, and Byzantine elements, the Bayeux Tapestry ranks with Chartres and the Tower of London as a crowning achievement of medieval Europe. And yet, more than a work of art, the Tapestry served as the suture that bound up the wounds of 1066.

Enhanced by a stunning full-color insert that includes reproductions of the complete Tapestry, *A Needle in the Right Hand of God* will stand with *The Professor* and *How the Madman and How the Irish Saved Civilization* as a triumph of popular history.

### **1066 and All that**

Graywolf Press

A comical look at English history since the beginning of time -- no one, no event is spared. A strong knowledge of English history is not needed to enjoy this fun read.

*The Wake* John Wiley & Sons

This is an updated and expanded edition of a classic introduction to medieval England from the reign of William the

Conqueror to Edward I. Includes a new chapter on family and gender roles, revisions throughout to enhance the narrative flow, and further reading sections containing the most up-to-date sources. Offers engaging and clear discussion of the key political, economic, social, and cultural issues of the period, by an esteemed scholar and writer. Illustrates themes with lively, pertinent examples and important primary sources. Assesses the reigns of key Norman, Angevin, and Plantagenet monarchs, as well as the British dimension of English history, the creation of wealth, the rise of the aristocracy, and more.

### **The Norman Conquest**

The Experiment

A rousing historical narrative of the best-known and arguably most significant battle in English history. The effects of the Battle of Hastings were deeply felt at the time, causing a lasting shift in British cultural identity and national pride. Jim Bradbury explores the full military background of the battle and investigates both what actually happened on that fateful day in 1066 and the role that the battle plays in

the British national myth. The Battle of Hastings starts by looking at the Normans—who they were, where they came from—and the career of William the Conqueror before 1066. Next, the narrative turns to the Saxons in England, and to Harold Godwinson, successor to Edward the Confessor, and his attempts to create unity in the divided kingdom. This provides the background to an examination of the military development of the two sides up to 1066, detailing differences in tactics, arms, and armor. The core of the book is a move-by-move reconstruction of the battle itself, including the advance planning, the site, the composition of the two armies, and the use of archers, feigned retreats, and the death of Harold Godwinson. In looking at the consequences of the battle, Jim Bradbury deals with the conquest of England and the ongoing resistance to the Normans. The effects of the conquest are also seen in the creation of castles and developments in feudalism, and in links with Normandy that revealed themselves particularly in church

appointments. This is the first time a military historian has attempted to make accessible to the general reader all that is known about the Battle of Hastings and to present as detailed a reconstruction as is possible. Furthermore, the author places the battle in the military context of eleventh-century Europe, painting a vivid picture of the combatants themselves—soldiers, cavalry, and their horses—as they struggled for victory. This is a book that any reader interested in England's history will find indispensable.

#### The Battle of Hastings

Simon and Schuster King Edward of England is dead. Edward's son Harold, one of the potential successors, renounces his oath to yield the throne to William of Normandy. From that day forth, William will have no peace until his rightful claim to the throne is acknowledged. As the famous Halley comet soars across the heavens, giving rise to much speculation among the scholars of the time, William, Duke of Normandy, launches into the arrangements for the conquest that will change the face of England -- one of the most formidable

military expeditions History has ever seen.

This is a tale of ambition, broken oaths, battles, love, death and glory.

BoD - Books on Demand Winner of the Pulitzer Prize, the 1999 National Book Award for Nonfiction, finalist for the Lionel Gelber Prize and the Kiriya Pacific Rim Book Prize, *Embracing Defeat* is John W. Dower's brilliant examination of Japan in the immediate, shattering aftermath of World War II. Drawing on a vast range of Japanese sources and illustrated with dozens of astonishing documentary photographs, *Embracing Defeat* is the fullest and most important history of the more than six years of American occupation, which affected every level of Japanese society, often in ways neither side could anticipate. Dower, whom Stephen E. Ambrose has called "America's foremost historian of the Second World War in the Pacific," gives us the rich and turbulent interplay between West and East, the victor and the

vanquished, in a way never before attempted, from top-level manipulations concerning the fate of Emperor Hirohito to the hopes and fears of men and women in every walk of life.

Already regarded as the benchmark in its field, *Embracing Defeat* is a work of colossal scholarship and history of the very first order. John W. Dower is the Elting E. Morison Professor of History at the Massachusetts Institute of Technology. He is a winner of the National Book Critics Circle Award for *War Without Mercy*.

#### England and its Rulers

David R. Godine Publisher National myths are now seriously questioned in a number of societies. In the West, for instance, a number of factors have combined to destabilise the symbolic foundation of nations and collective identities. As a result, the diagnosis of a deep cultural crisis has become commonplace. Indeed, who today has not heard about the erosion of common values or the undermining of social cohesion? But to efficiently address this issue, do we know enough about the nature and role of myths in modern and postmodern societies?

Against this background, *National Myths: Constructed Pasts, Contested Presents* relies on a sample of nations from around the world and seeks to highlight the functioning of national myths, both as representations that make sense of a collectivity, and as socially grounded tools used in a web of power relations. The collection draws together contributions from international experts to examine the present state of national myths, and their fate in today's rapidly-changing society. Can – or must – nations do without the sort of overarching symbolic configurations that national myths provide? If so, how to rethink the fabrics and the future of our societies? This book will appeal to students and scholars interested in sociology, national, identity and memory studies, myths, shared beliefs, or collective imaginaries.

*The Fall of the Anglo-Saxons and the Rise of the Normans* Grub Street Publishers

For more than 900 years the Bayeux Tapestry has preserved one of history's greatest dramas: the Norman Conquest of England, culminating in

the death of King Harold at the Battle of Hastings in 1066. Historians have held for centuries that the majestic tapestry trumpets the glory of William the Conqueror and the victorious Normans. But is this true? In 1066, a brilliant piece of historical detective work, Andrew Bridgeford reveals a very different story that reinterprets and recasts the most decisive year in English history. Reading the tapestry as if it were a written text, Bridgeford discovers a wealth of new information subversively and ingeniously encoded in the threads, which appears to undermine the Norman point of view while presenting a secret tale undetected for centuries—an account of the final years of Anglo-Saxon England quite different from the Norman version. Bridgeford brings alive the turbulent 11th century in western Europe, a world of ambitious warrior bishops, court dwarfs, ruthless knights, and powerful women. 1066 offers readers a rare surprise—a book that reconsiders a long-accepted masterpiece, and sheds new light on a pivotal chapter of English history. National Geographic

Books

England is in crisis. King Edward has no heir and promises never to produce one. There are no obvious successors available to replace him, but quite a few claimants are eager to take the crown. While power struggles break out between the various factions at court, enemies abroad plot to make England their own.

*The Shortest History of England* Troubador Publishing Ltd

Originally published: New York: Holt, 1950.

**Embracing Defeat: Japan in the Wake of World War II** Routledge

Here at last is a history of England that is designed to entertain as well as inform and that will delight the armchair traveler, the tourist or just about anyone interested in history. No people have engendered quite so much acclaim or earned so much censure as the English: extolled as the Athenians of modern times, yet hammered for their self-satisfaction and hypocrisy. But their history has been a

spectacular one. The guiding principle of this book's heretical approach is that "history is not everything that happened, but what is worth remembering about the past. . .". Thus, its chapters deal mainly with "Memorable History" in blocks of time over the centuries. The final chapter "The Royal Soap Opera," recounts the achievements, personalities and idiocies of the royal family since the arrival of William the Conqueror in 1066. Spiced with dozens of hilarious cartoons from Punch and other publications, English History will be a welcome and amusing tour of a land that has always fascinated Anglophiles and Anglophobes alike.

### **And Now All this**

Random House  
Gimson's Kings and Queens is the most entertaining and instructive book on the English monarchy you will ever read. For lovers of history, the experienced and the novice, the serious and the silly. Gimson's Kings and Queens whirls us through the lives of our monarchs - from 1066 and William the Conqueror right up to Queen Elizabeth II and the present-day - to tell a tale of bastardy, courage,

conquest, brutality, vanity, vulgarity, corruption, anarchy, absenteeism, piety, nobility, divorce, execution, civil war, madness, magnificence, profligacy, frugality, philately, abdication, dutifulness, family breakdown and family recovery. Written in Andrew Gimson's inimitable style, and illustrated by Martin Rowson, Gimson's Kings and Queens is both a primer and a refresher for anyone who can't quite remember which were the good and bad Edwards or Henrys, or why so-and-so succeeded to the throne rather than his second cousin.

[A Memorable History of England, Comprising All the Parts You Can Remember ...](#) Open Road Media

A riveting account of the most consequential year in English history, marked by bloody conflict with invaders on all sides. 1066 is the most famous date in history, and with good reason, since no battle in medieval history had such a devastating effect on its losers as the Battle of Hastings, which altered the entire course of English history. The French-speaking Normans were the pre-eminent

warriors of the 11th century and based their entire society around conflict. They were led by William 'the Bastard' a formidable, ruthless warrior, who was convinced that his half-Norman cousin, Edward the Confessor, had promised him the throne of England. However, when Edward died in January 1066, Harold Godwinson, the richest earl in the land and the son of a pirate, took the throne . . . . this left William no choice but to forcibly claim what he believed to be his right. What ensued was one of the bloodiest periods of English history, with a body count that might make even George RR Martin balk. Pitched at newcomers to the subject, this book will explain how the disastrous battle changed England—and the English—forever, introducing the medieval world of chivalry, castles and horse-bound knights. It is the first part in the new A Very, Very Short History of England series, which aims to capture the major moments of English history with humor and bite.
