Hi, I'm Sarah. Until recently, I was a bored housewife. Then, John discovered my attraction to his friend. As a compromise, we participated in a partner swap. His friend turned out to be horrible in bed, but his girlfriend was a wild beast. When Simone and I hooked up after

that, my first lesbian experience, she took me down a dark, twisted path of pain and humiliation... And I loved it.

Hardly is a figure more maligned in British history than Robert Stewart, Viscount Castlereagh. One of the central figures of the Napoleonic Era and the man primarily responsible for fashioning Britain's strategy at the Congress of Vienna, Castlereagh was widely respected by the great powers of Europe and

America, yet despised by his countrymen and those he sought to serve. A shrewd diplomat, he is credited with being one of the first great practitioners of Realpolitik and its cold-eyed and calculating view of the relations between nations. Over the course of his career, he crushed an Irish rebellion and abolished the Irish parliament, imprisoned his former friends, created the largest British army in history, and redrew the map of Europe. Today, Castlereagh is largely

forgotten except as a tyrant who denied the freedoms won by the French and American revolutions. John Bew's fascinating biography restores the statesman to his place in history, offering a nuanced picture of a shy, often inarticulate figure whose mind captured the complexity of the European Enlightenment unlike any other. Bew tells a gripping story, beginning with the Year of the French, when Napoleon sent troops in support of a revolution in Ireland, and traces

Castlereagh's evolution across the Napoleonic Wars, the diplomatic power struggles of 1814-15, and eventually the mental breakdown that ended his life. Skillfully balancing the dimensions of Castlereagh's intellectual life with his Irish heritage, Bew's definitive work brings Castlereagh alive in all his complexity, variety, and depth.

[A Magazine of Literature, Art and Politics](#) Oxford University Press

In the second edition of this highly-praised anthology, the authors have focused on those books with white supremacist content that have received special commendation and that can therefore be expected

to have a major influence on children's educational environment. Among the contributors are Haki Madhubuti, Rudine Sims, Julius Lester, Eloise Greenfield, Walter Dean Myers, and Beryle Banfield. *The New York Times Saturday Review of Books and Art* Prentice Hall This is a wide-ranging, incisive study of contemporary poetry, its predicament and its rich traditions. While it focusses on Australian cultural conditions, it sees them in terms of the

English-language ecumene, for example setting an Irish poet beside an Australian, and ranging from Keats, as our strong forebear, to the modern Polish poet Zagajewsky. In this book, Wallace-Crabbe examines the role of poetic discourse in the face of both popular and high cultures. He also asks what remains for us of the sacred, that wizened category of attention. Among his Australian protagonists are A.D. Hope, the Mallarméan John Forbes, and the

painter, Sidney Nolan, whose images of the bushranger Ned Kelly have become powerfully iconic. These critical essays are coloured both by the abiding traditions of a formative landscape and by the postmodern city, with its dwindled, acerbic gaze. They should seize the attention of anyone concerned with the fate of poetry in a PlayStation age. *A Mother's List of Books for Children* Simon and Schuster In her heartfelt and humorous novel, Bauer

(Hope Was Here) leaves teenage girl protagonists in favor of a middle-grade boy as she did also in *Sticks* (1996). But her fans won't be disappointed. At first, 12-year-old Tree, "six feet, three and a half inches and growing," only literally "stands tall." At school, Coach Glummer expects him to lead the basketball team (though he's not very athletic) and teachers expect him to act older than his age. On the home front which shifts weekly due to his parents' recent divorce and joint custody

arrangement Tree is the glue of his family. He helps care for his Vietnam vet grandfather (who recently had a leg amputated) while worrying about his aging dog, Bradley, his two college-student brothers and his parents. Bolstered by his budding friendship with the outspoken new girl at school, Sophie, and by Grandpa, Tree finds an inner strength that helps him deal with just about anything including a natural disaster. Bauer once again creates a clan of believable characters

scrambling to make the best of their particular brand of dysfunction. Her swiftly paced story artfully blends poignant and outright funny moments, resulting in a triumphant tale that will resonate with many young readers. Ages 10-up.

In 1936, as television networks CBS, DuMont, and NBC experimented with new ways to provide entertainment, NBC

deviated from the traditional method of single experimental programs to broadcast the first multi-part program, *Love Nest*, over a three-episode arc. This would come to be known as a miniseries. Although the term was not coined until 1954, several other such miniseries were broadcast, including *Jack and the Beanstalk* and *Women in Wartime*. In the mid-1960s the concept was developed into a genre that still exists. While the major broadcast networks pioneered the

idea, it quickly became popular with cable and streaming services. This encyclopedic source contains a detailed history of 878 TV miniseries broadcast from 1936 to 2020, complete with casts, networks, credits, episode count and detailed plot information. *The Book Buyer's Guide Encyclopedia of Television Miniseries, 1936-2020*
The remarkable, little-known story of William Still, known as the Father of the Underground Railroad from award-winning author-illustrator

Don Tate William Still's parents escaped slavery but had to leave two of their children behind, a tragedy that haunted the family. As a young man, William went to work for the Pennsylvania Anti-Slavery Society, where he raised money, planned rescues, and helped freedom seekers who had traveled north. And then one day, a strangely familiar man came into William's office, searching for information about his long-lost family. Could it be? Motivated by his own family's experience,

William began collecting the stories of thousands of other freedom seekers. As a result, he was able to reunite other families and build a remarkable source of information, including encounters with Harriet Tubman, Henry "Box" Brown, and William and Ellen Craft. Don Tate brings to life the incredible true story of William Still's life and work as a record keeper of enslaved people who had fled to freedom. Tate's powerful words and artwork are sure to inspire readers in this first-ever

picture book biography of the Father of the Underground Railroad. *AN INDEX TO POETRY AND RECITATIONS* Peachtree Publishers Includes, beginning Sept. 15, 1954 (and on the 15th of each month, Sept.-May) a special section: School library journal, ISSN 0000-0035, (called Junior libraries, 1954-May 1961). Levitt, coauthor of *Freakonomics* "Bursting with insights." —The New York Times Book Review A pioneering urban

economist presents a myth-shattering look at the majesty and greatness of cities. America is an urban nation, yet cities get a bad rap: they're dirty, poor, unhealthy, environmentally unfriendly . . . or are they? In this revelatory book, Edward Glaeser, a leading urban economist, declares that cities are actually the healthiest, greenest, and richest (in both cultural and economic terms) places to live. He travels through history and around the globe to reveal

the hidden workings of cities and how they bring out the best in humankind. Using intrepid reportage, keen analysis, and cogent argument, Glaeser makes an urgent, eloquent case for the city's importance and splendor, offering inspiring proof that the

city is humanity's greatest creation and our best hope for the future.
