Entrepreneurship Springer Nature

"The Profitable Artist's chapters address a spectrum of practical topics for working artists." —Artsy.net The Indispensable Roadmap Artists Need to Navigate Their Careers While all art is unique, the challenges artists face are shared regardless of background, experience, and artistic medium. With decades of experience training and helping artists worldwide, the expert staff of the New York Foundation for the Arts—in conjunction with outside professionals—have compiled a "best practices" approach to planning and organizing an art career. In *The Profitable Artist*, Second Edition, NYFA has identified common problems, examined specialized areas of strategic planning, finance, marketing, law, and fundraising, and distilled these topics in such a way that readers can digest them and apply them to their own experience and practice. This newly revised edition has made considerable updates to reflect changes in the legal and financial landscapes, the vast shift in the tools and culture of both social media and fundraising, and proven planning methodologies from the startup community. All of this continues to be presented in an accessible manner, which encourages artists to apply the information and techniques in a way that is true to their personal and artistic integrity. This invaluable guide appeals to artists in all disciplines of the literary, media, performing, and visual arts—from recent art school graduates to established artists undertaking new arts businesses to artists seeking more from their careers at any stage.

Sweatshop Warriors HarperCollins Children's Books

This open access book focuses on explaining differences amongst organizations regarding various attributes, forms, and outcomes. By focusing on the "how" of new venture creation and management to produce well-established organizations, the authors aim to increase our understanding of the antecedents of most management research assumptions. New ventures are the source of most newly created jobs generated in an economy, new industries and markets, innovative products and services, and new solutions to economic, social, and environmental problems. However, most management research assumes a well-established organization as the starting point of their theorizing. Building on the notion of guided attention, it details how entrepreneurs can allocate their transient attention to identify potential opportunities from environmental change and how entrepreneurs allocate their sustained attention to form beliefs about radical and incremental opportunities requiring entrepreneurial action. The authors explain how entrepreneurs build such communities and engage community members over time to co-construct potential opportunities for new venture progress. Using the lean startup framework, they connect the dots between the theorizing on identifying and co-constructing potential opportunities and the startup of new ventures. This leads to a new overarching

framework based on are (1) co-creating a startup, (2) organizing a startup, and (3) performing a startup to bring together the many disparate threads of research on new ventures. The authors then theorize on the importance of knowledge in organizational scaling. Based on cutting-edge research from the leading entrepreneurship journals, this book expands knowledge on the cognitive aspect of the new venture creation process.

Immigrant Women Workers Take on the Global Factory

Entrepreneurship Entrepreneurship, by Robert Hisrich, Michael Peters and Dean Shepherd has been designed to clearly instruct students on the process of formulating, planning, and implementing a new venture. Students are exposed to detailed descriptions of 'how to' embark on a new venture in a logical manner. Comprehensive cases at the end of the text have been hand-picked by the authors to go hand-in-hand with chapter concepts. The superb author team of Hisrich, Peters, and Shepherd draw from their distinct backgrounds to create a book that addresses the dynamics of today's entrepreneurial challenges. From Bob Hisrich's expertise in global entrepreneurship to Mike Peter's background as a both a real-life entrepreneur and academic to Dean Shepherd's current research on cognition and entrepreneurial mindset, this book balances the crucial line between modern theory and practice. Entrepreneurship Entrepreneurship Entrepreneurial Strategy Starting, Managing, and Scaling New Ventures In this up-close and personal look at the heroines who make family, community, and society tick, Miriam Ching Yoon Louie showcases immigrant women workers speaking out for themselves, in their own words. While public outrage over sweatshops builds in intensity, this book shows us who these workers really are and how they are leading campaigns to fight for their rights. In-depth, accessible analyses of the immigration, labor, and trade policies, which together have forced these women into the most dangerous, poorly paid jobs, dovetail with vivid portraits of the women themselves. Louie, a longtime writer/activist and well-known figure in feminist, immigrant, and labor circles, is uniquely poised to make her case: that the labor of immigrant women worker-activists not only sustains families and communities, but the vibrant social activism that undergirds democracy itself. With chapters on successful campaigns against Levi-Strauss, Donna Karan, and restaurants in Los Angeles; Koreatown, among others. Miriam Ching Yoon Louie is a longtime writer/activist in campaigns to organize women of color. She is national campaign media director of Fuerza Unida, a board member of the Women of Color Resource Center, and former media director of Asian Immigrant Women Advocates. Her essays and articles on immigrant women and labor issues have been widely anthologized, including in the 1997 collection *Dragon Ladies: Asian American Feminists Breathe Fire* (South End Press) and she speaks at public events internationally. She is the co-author, with Linda Burnham, of *Women's Education in the Global Economy* (Women of Color Resource Center, 2000). *Starting, Managing, and Scaling New Ventures* Macmillan Higher Education

The U.S. War with Mexico South End Press

Join Bing on a toilet training adventure in this interactive sound book - perfect for encouraging young children to use the toilet with confidence. Bing doesn't use his potty anymore - he uses the big toilet, and you can too! It can be scary at first, but with a little practise you'll be catching the Toilet Train in no time. Bingsters will love pressing the sound button and joining in the fun. Choo! Choo! Catching the toilet train. . . it's a Bing thing!

Entrepreneurial Strategy

The U.S. war with Mexico was a pivotal event in American history, it set crucial wartime precedents and served as a precursor for the impending Civil War. With a powerful introduction and rich collection of documents, Ernesto Chvez makes a convincing case that as an expansionist war, the U.S.-Mexico conflict set a new standard for the acquisition of foreign territory through war. Equally important, the war racialized the enemy, and in so doing accentuated the nature of whiteness and white male citizenship in the U.S., especially as it related to conquered Mexicans, Indians, slaves, and even women. The war, along with ongoing westward expansion, heightened public debates in the North and South about slavery and its place in newly-acquired territories. In addition, Chvez shows how the political, economic and social development of each nation played a critical role in the path to war and its ultimate outcome. Both official and popular documents offer the events leading up to the war, the politics surrounding it, popular sentiment in both countries about it, and the war's long-term impact on the future development and direction of these two nations. Headnotes, a chronology, maps and a selected bibliography enrich student understanding of this important historical moment.
