Oxford University Press

This casebook is designed as a concise first course in business associations for both law students and management school students. It covers the fundamentals of agency, partnership, the limited liability company, corporations, fiduciary duty of officers and directors, insider trading, derivative lawsuits, Sarbanes/Oxley, and tender offers and takeovers. Additionally, it offers a review

of relevant fundamental concepts from the law of property, contracts, and torts, and provides some consideration of intellectual property, employment law, and antitrust, all of which are relevant for managers and their lawyers. The casebook can be taught in a single quarter or a single semester. Law students will be well-prepared for further study of mergers and acquisitions, securities regulation, and corporate finance; and future managers will be prepared to anticipate the legal problems that they will face throughout their careers.

3 things to know about the focus of Dynamic Business Law, 2e: Emphasis on ETHICAL DECISION-MAKING. In chapter 2, the authors introduce a framework for making ethical business decisions that students can use on a regular basis. Following each case there are questions designed to train students to apply this approach. Then repeatedly throughout the chapters, questions about business ethics are raised in the text. This framework is designed to help improve the learning process of students and to give a sense of relevancy to the ethical decision making process. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasises the tie of legal issues back to the core business curriculum. This will help both students and faculty. Students need to understand how the concepts they learn in this course tie into their business careers. Instructors can easily show that the study of business law is best seen as a foundational component of the larger study of business administration. Dynamic Business Law now includes Connect Business Law as a packaging option. Connect includes Interactive Applications for each chapter of the textbook and helps students apply legal concepts to business, stimulates critical thinking, and reinforces key topics. Overview: Dynamic Business Law, 2e is appropriate for the two-term business law course. Emphasis on the BUSINESS in business law. Dynamic Business Law emphasizes the tie of legal issues back to the core business curriculum. This will help both students and faculty. Faculty need to know how this is integrated as they are constantly "defending" the inclusion of this course in the business curriculum. And students need to understand how the concepts tie to their future business careers. Emphasis on TEACHING. Many professors teaching this course are attorneys first and academics second. They do not have a lot of time to prepare or think about how to apply this information effectively for their business students. Dynamic Business Law contains a helpful instructor's manual, particularly for the many adjuncts teaching this course. Emphasis on CRITICAL THINKING. Neil Browne, one of the co-authors of this text, has written a successful text on

critical thinking. His framework is included in Dynamic Business Law as well - to help students learn how to frame and reframe a question/issue. Critical thinking questions are also included at the end of each case, to further tie in this component.

Instructor's Supplements: The Online Learning Center contains the complete IM, Test Bank, PowerPoint, image library, and video clips. Instructor's Manual: The Instructor's Manual provides a clear outline of how to begin using this text and is especially helpful to adjuncts who teach Business Law. Sample syllabi are included, as well as detailed lecture outlines incorporating PowerPoints and other materials professors can bring into their lectures. Exciting and new examples from outside the text are also included, and can be discussed in class to help generate excitement and involvement in the course from students. Test Bank: The Test Bank, developed by Vonda Laughlin of Carson-Newman College, contains a variety of true/false, multiple choice, and essay questions - as well as "scenario-based" questions, which are application-based, and use a situation described in a narrative, with 3 - 5 multiple-choice test questions based on the situation described in the narrative. We've aligned our Test Bank with the new AACSB guidelines, tagging each question according to its knowledge and skills areas. Categories include Global, Ethics and Social Responsibility, legal and other External Environment, communication, Diversity, Group Dynamics, Individual Dynamics, Production and IT. Designations aligning questions with Learning Objectives, features, and case, exist as well. PowerPoint Presentation slides: Developed by Jeff Penley at Catawba Valley Community College, we offer two different sets of slides for professors. The "Basic" set consists of an outline of each chapter. The "Premium" set expands on this outline to include hypotheticals and ethical dilemmas, allowing the instructor to incorporate application into the lecture. Instructor Video DVD (ISBN: 0077339118, 13-digit: 9780077339111): The Instructor Video DVD contains video clips from CBS that highlight current legal issues. Instructor Notes, located on the OLC, give insight into how to incorporate segments into the classroom and offer questions to stimulate discussion. Most of these videos are also part of Premium content - a big plus for instructors teaching online/hybrid courses.

A brilliant scholar imparts the lessons bequeathed by the Black community and

its remarkable artists and thinkers. Farah Jasmine Griffin has taken to her heart the phrase "read until you understand," a line her father, who died when she was nine, wrote in a note to her. She has made it central to this book about love of the majestic power of words and love of the magnificence of Black life. Griffin has spent years rooted in the culture of Black genius and the legacy of books that her father left her. A beloved professor, she has devoted herself to passing these works and their wisdom on to generations of students. Here, she shares a lifetime of discoveries: the ideas that inspired the stunning oratory of Frederick Douglass and Malcolm X, the soulful music of Marvin Gaye and Stevie Wonder, the daring literature of Phillis Wheatley and Toni Morrison, the inventive artistry of Romare Bearden, and many more. Exploring these works through such themes as justice, rage, self-determination, beauty, joy, and mercy allows her to move from her aunt's love of yellow roses to Gil Scott-Heron's "Winter in America." Griffin entwines memoir, history, and art while she keeps her finger on the pulse of the present, asking us to grapple with the continuing struggle for Black freedom and the ongoing project that is American democracy. She challenges us to reckon with our commitment to all the nation's inhabitants and our responsibilities to all humanity.

This book will focus on an introduction to business law for entrepreneurs. This book is a great very high level introduction to the law topics that are most important to entrepreneurs, including how to register a company, how to protect my family, patents, term sheets, dealing with investors and much more; the course assumes that the reader has no

background in law! Most business books are significantly outdated. There are some incredibly engaging and entertaining video links in the book to YouTube and other sources; edutainment rocks! I tried to visualize the content of this book as much as possible as this is a more impactful and enjoyable way to learn (think Pinterest versus the tiny words in the Economist)! The contents of this book are all based on my work experience at several firms, including Goldman Sachs, the consulting industry at Accenture, a few companies I have started, the hedge fund industry where I worked at Citadel and most recently based on my experience at a prominent San Francisco based venture capital firm. I will also include helpful practical business concepts I learned while I did an MBA at Columbia University and a Bachelor of Commerce degree at McGill University. Think of this book as a "greatest hits" accounting summary from my MBA, undergraduate business degree, work experience in consulting, equities, hedge funds, venture capital and starting my own companies. I have also included two bonus chapters on incredibly important business best practices and recent trends that many people often overlook in business. As the title of this book suggests, this is a great introduction to business law for entrepreneurs. I have minimized "boring theoretical concepts" in this book in order to keep it as close to reality as possible. I hope you enjoy it! In addition to teaching at 4 universities in the Bay Area, you can find other courses that I teach online at :www.tiny.cc/chris11 hope you enjoy this book! I am a firm believer that 'edutainment' works best! Thanks a lot, Chris Haroun :)

How Innovation Shapes Corporate Activity South-Western Pub

Natural disasters and cholera outbreaks. Ebola, SARS, and concerns over pandemic flu. HIV and AIDS. E. coli outbreaks from contaminated produce and fast foods. Threats of bioterrorism. Contamination of compounded drugs. Vaccination refusals and outbreaks of preventable diseases. These are just some of the headlines from the last 30-plus years highlighting the essential roles and responsibilities of public health, all of which come with ethical issues and the responsibilities they create. Public health has achieved extraordinary successes. And yet these successes also bring with them ethical tension. Not all public health successes are equally distributed in the population; extraordinary health disparities between rich and poor still exist. The most successful public health programs sometimes rely on policies that, while improving public health conditions, also limit individual rights. Public health practitioners and policymakers face these and other questions of ethics routinely in their work, and they must navigate their sometimes competing responsibilities to the health of the public with other important societal values such as privacy, autonomy, and prevailing cultural norms. This Oxford Handbook provides a sweeping and comprehensive review of the current state of public health ethics,

addressing these and numerous other questions. Taking account of the wide range of topics under the umbrella of public health and the ethical issues raised by them, this volume is organized into fifteen sections. It begins with two sections that discuss the conceptual foundations, ethical tensions, and ethical frameworks of and for public health and how public health does its work. The thirteen sections that follow examine the application of public health ethics considerations and approaches across a broad range of public health topics. While chapters are organized into topical sections, each chapter is designed to serve as a standalone contribution. The book includes 73 chapters covering many topics from varying perspectives, a recognition of the diversity of the issues that define public health ethics in the U.S. and globally. This Handbook is an authoritative and indispensable guide to the state of public health ethics today.

This book discusses the principles and rules of general contract law in England & Wales. It examines the key points and rules of contract law, starting with the formation of the contract and ending with the remedies for breach of contract. In this it follows the structure most used in contract law modules at universities. Please also note that this book takes into account developments of the law up until July 2021. Contract law is a core module in legal higher education in the UK. Contract law is also an important basis for many other law modules including maritime law, company law, commercial law, and arbitration law. This book gives a clear oversight of the main issues of key contract law topics. It summarises the issues in a concise and precise manner and uses practical examples throughout to clarify how the law is applied. Key cases are used to explain and illustrate the principles of the law. This book is an ideal companion guide for exam revisions. The chapters follow a question-and-answer model that makes it easy to find information on a specific issue. The chapters end with a problem-solving scenario on key issues of the topic and a list with key cases which will be helpful in preparing for examinations. At the end of the book, you find a further reading list and a set of sample multiple-choice questions which can be used to help prepare for the first stage of the SQE examination that will be introduced in September 2021. "Contract Law is generally taught as a first-year subject which could be a daunting subject. This

book helps students to revise this subject effectively as it brings together all key areas of contract law that a student should be familiar with when preparing for examinations, drafting coursework, and preparing for seminars. It examines the key points and rules of contract law, starting with the formation of the contract and ending with the remedies for breach of contract. The book is written in plain language in the form of questions and answers. It is detailed without being too long, succinct but covers all key cases and developments in the area. The multiple-choice questions at the end of the book are very beneficial for students preparing for the SQE and exams that follow a similar format. I would recommend this book wholeheartedly." - Dr Aysem Diker Vanberg, Lecturer in Law, Goldsmiths, University of London
