Academic writing has become an issue that causes worry and confusion for students. A small scale survey shows that students' problems in writing are as follows: limited vocabulary 8%, difficulty in organizing ideas 16%, no ideas to write about 20%, no motivation to write 20%, and lack of confidence in grammar 36%. English for Academic Purposes: Essay Writing is a very practical book, giving solutions to these

problems. This book on academic writing is suitably used by students majoring in English, English course students, non-English students who want to write essays in English, those who want to take postgraduate courses abroad, and English language teachers. This book covers very valuable topics, such as basic principles in academic writing, meaningful reading for writing, writing an introduction, writing citations, data gathering, commenting on data, writing references, and revising and editing. English for Academic Purposes: Essay Writing is designed by experienced English lecturers in writing. In addition, these materials have been tried out in classes at

Maranatha Christian University and STP Bandung. This second edition is updated according to precise terminology and the conventions of the current MLA and APA styles of writing.

This book is based on a study of referees' reports and letters from journal editors on reasons why papers written by non-native researchers are

rejected due to problems with English grammar. It draws on English-related errors from around 5000 papers written by non-native authors, several hundred emails, 500 abstracts by PhD students, and over 1000 hours of teaching researchers how to write and present research papers. The exercises include the following areas: active vs passive, use of we articles (a/an, the, zero) and quantifiers (some, any, few etc) conditionals and modals countable and uncountable nouns genitive infinitive vs -ing form numbers, acronyms, abbreviations relative clauses and which vs that tenses (e.g. simple present, simple past, present perfect) word order Exercise types

are repeated for different contexts. For example, the difference between the simple present, present perfect and simple past is tested for use in papers, referees' reports, and emails of various types. Such repetition of similar types of exercises is perfect for revision purposes. English for Academic Research: Grammar Exercises is designed for self-study and there is a key to all exercises. Most exercises require no actual writing but simply choosing between various options, thus facilitating e-reading and rapid progress. The exercises can also be integrated into English for Academic Purposes (EAP) and English for Special

Purposes (ESP) courses at universities and research institutes. The book can be used in conjunction with the other exercise books in the series and is cross-referenced to: English for Research: Usage, Style, and Grammar English for Writing Research Papers English for Academic Correspondence and Socializing Adrian Wallwork is the author of around 30 ELT and EAP textbooks. Intro Springer Science & Business Media
 English for Academic Study: Pronunciation
 English for academic study: Pronunciation is for students who need to communicate clearly and effectively in an academic environment in the medium of English. The aim of the course is to help students develop their pronunciation in

English to a level that enables the listener to understand them with ease. The course provides students with structured patterns of English that will lead them step-by-step towards this goal. During the course, students will also learn the phonemic alphabet; this will remain a useful aid to accurate pronunciation throughout their studies. Care has been taken to ensure that the vocabulary focused on in this course is relevant to both academic study and the general needs of the student. The examples and exercises are based on words from the General Service List (GSL) and the Academic Word List (AWL). The 2009 edition of EAS Pronunciation has been

fully revised for ease of use. As well as a new format, the Study Book also comes with a book map, unit summaries and a comprehensive glossary of terms. A dedicated website, www.englishforacademicstudy.com, offers further teacher resources. This guide is based on a study of referees' reports and letters from journal editors on the reasons why papers written by non-native researchers are rejected due to problems with English usage, style and grammar. It draws on English-related errors from around 5000 papers written by non-native authors, 500 abstracts by PhD students, and over 1000 hours of teaching researchers how to write and present research papers. English for Research: Usage, Style, and Grammar covers those areas of English usage that typically cause researchers difficulty: articles (a/an, the), uncountable nouns,

tenses (e.g., simple present, simple past, present perfect), modal verbs, active vs. passive form, relative clauses, infinitive vs. -ing form, the genitive, noun strings, link words (e.g., moreover, in addition), quantifiers (e.g., each vs. every), word order, prepositions, acronyms, abbreviations, numbers and measurements, punctuation, and spelling. Due to its focus on the specific errors that repeatedly appear in papers written by non-native authors, this manual is an ideal study guide for use in universities and research institutes. The book is cross-referenced with the following titles: • English for Academic Research: Grammar Exercises • English for

Advanced English in a
Nutshell is a short,
detail free book that
sheds light on the
highlights and major
grammatical points in a
clear and effective
manner. Getting lost in
the endless variations
of grammatical rules
can be extremely
distracting and most of
the time disappointing.
For this purpose, the
book is not designed to
dig deep into the
limitless details of
grammatical rules
rather it is a kind of a
review to the most
necessary forms and

structures that
students need to use in
academic tests in order
to get high scores. In
all tests candidates'
performance is
assessed according to
the type of
grammatical structures
they are using while
they are speaking or
writing. The candidate
who sticks to present
simple and continuous
forms, for instance, is
not expected to get a
high score in terms of
structure because of
the use of simple
grammatical forms.
Thus, it does make
sense for candidates to
use a variety of
complex and simple
structures to give the
impression that they
have a good mastery
and command of the
language.

English for Academic Study: Listening This fully updated 2012 edition of English for Academic Study: Listening will help you develop the listening and note-taking skills you need to participate effectively in academic lectures and seminars. The units are organized as follows: Listening and lectures Introductions to lectures Identifying key ideas in lectures Note-taking Introducing new terminology What lecturers do in lectures Digressions Each unit includes video and audio recordings of authentic lectures from a range of academic fields, including banking, development economics, marketing, psychology and linguistics. These have been recorded in a genuine academic

environment and are a perfect way to prepare for English-Medium study. The Course Book includes unit summaries to give you a quick overview of what you have covered, and a comprehensive glossary of terms. Each unit also has weblinks offering additional information and activities, relating to both listening skills and the topics covered in the units. Critical Publishing
The Four Point series is designed for English language learners whose primary goal is to succeed in an academic setting. The series covers the four academic skills of reading, writing, listening, and speaking while providing reinforcement and systematic recycling of key vocabulary and further exposure to grammar issues. In order to participate in academic settings, ELLs need focused activities to develop and then maintain their use of vocabulary and grammar. Each book in the series focuses heavily on vocabulary in particular, highlighting between 125-150 key vocabulary items including individual words, compound

words, phrasal verbs, short phrases, idioms, metaphors, collocations, and longer set lexical phrases. Each unit in Reading-Writing Intro, includes two reading passages on the same topic within a field of academic study: Marketing, Architecture, Linguistics, Fine Arts, Legal Studies, and Literature. Each reading is accompanied by a before-reading and after-reading strategy, plus either a during-reading or vocabulary strategy, followed by practice activities. The goal is to provide students with a variety of strategies/tools to master whatever academic texts they may encounter. In addition, exercises have been designed to

develop vocabulary, paraphrasing, summarizing, and synthesizing skills. By addressing the breadth and depth of reading and writing tasks required in academic settings instead of only reading for pleasure or writing for research projects, this volume truly prepares students for the variety of reading texts and writing projects they will be assigned in colleges and universities.

English for Academic Study: Grammar for Writing English for Academic Study: Grammar for Writing English for Academic Study: Grammar for Writing is a graded self-study course that will help students improve their academic writing. It will

build their confidence in understanding and using grammar for written assignments, so they can write accurate English and communicate more effectively in academic contexts. EAS: Grammar for Writing starts at a relatively low level, recognizing that many students require continuing practice of common grammatical problems in academic writing (such as subject-verb agreement, or the use of present simple and present continuous). It gradually increases the level of challenge so that by the end of the book students can use appropriate grammatical structures to express more complex academic ideas. The nine units are based on the following topics:

present perfect)
