INSTANT NEW YORK TIMES BESTSELLER In this “magical trip worth taking” (Associated Press), the New York Times bestselling author of *In Five Years* returns with a powerful novel about the transformational love between mothers and daughters set on the breathtaking Amalfi Coast. When Katy’s mother dies, she is left reeling. Carol wasn’t just Katy’s mom, but her best friend and first phone call. She had all the answers and now, when Katy needs her the most, she is gone. To make matters worse, their planned mother-daughter trip of a lifetime looms: to Positano, the magical town where Carol spent the summer right before she met Katy’s father. Katy has been waiting years for Carol to take her, and now she is faced with embarking on the adventure alone. But as soon as she steps foot on the Amalfi Coast, Katy begins to feel her mother’s spirit. Buoyed by the stunning waters, beautiful cliffsides, delightful residents, and, of course, delectable food, Katy feels herself coming back to life. And then Carol appears—in the flesh, healthy, sun-tanned, and thirty years old. Katy doesn’t understand what is happening, or how—all she can focus on is that she has somehow, impossibly, gotten her mother back. Over the course of one Italian summer, Katy gets to know Carol, not as her mother, but as the young woman before her. She is not exactly who Katy imagined she might be, however, and soon Katy must reconcile the mother who knew everything with the young woman who does not yet have a clue. “Rebecca Serle is known for her powerful stories that tug at the heartstrings—and her latest is just as unforgettable” (Woman’s World) as it effortlessly shows us how to move on after loss, and how the people we love never truly leave us.

WINNER OF THE COSTA FIRST NOVEL AWARD A NATIONAL BOOK FOUNDATION 5 UNDER 35 WINNER OF THE BRITISH BOOK AWARD FOR DEBUT FICTION “Open Water is tender poetry, a love song to Black art and thought, an exploration of intimacy and vulnerability between two young artists learning to be soft with each other in a world that hardens against Black people.”—Yaa Gyasi, author of *Homegoing* In a crowded London pub, two young people meet. Both are Black British, both won scholarships to private schools where they struggled to belong, both are now artists—he a photographer, she a dancer—and both are trying to make their mark in a world that by turns celebrates and rejects them. Tentatively, tenderly, they fall in love. But two people who seem destined to be together can still be torn apart by fear and violence, and over the course of a year they find their relationship tested by forces beyond their control. Narrated with deep intimacy, *Open Water* is at once an achingly beautiful love story and a potent insight into race and masculinity that asks what it means to be a person in a world that sees you only as a Black body; to be vulnerable when you are only respected for strength; to find safety in love, only to lose it. With gorgeous, soulful intensity, and blistering emotional intelligence, Caleb Azumah Nelson gives a profoundly sensitive portrait of romantic

love in all its feverish waves and comforting beauty. This is one of the most essential debut novels of recent years, heralding the arrival of a stellar and prodigious young talent.

Anne Fedele provides a detailed ethnography of alternative pilgrimages to Catholic shrines in contemporary France that are dedicated to Saint Mary Magdalene or house black Madonna statues. Based on more than three years of fieldwork it describes the way in which pilgrims with a Christian background from Italy, Spain, Britain and the United States interpret Catholic figures, symbols and sites according to spiritual theories and practices derived from the transnational Neopagan movement.

Drug Trafficking, Corruption and States is cutting edge research. Garay Salamanca and Salcedo-Albarán, along with their contributing authors help document the transition from economic to political imperatives within transnational drug cartels. The break from the Zetas by La Familia Michoacana is one example contained in their empirical survey. Social Network Analysis is their tool for illuminating the varying dynamics of cartel-state inter-penetration and reconfiguration. In doing so they clearly discern between State Capture (StC) and Co-opted State Reconfiguration (CStR). As the drug wars and criminal insurgencies rage in the Americas and beyond, this seminal framework will facilitate efforts by scholars, law enforcement officials, intelligence analysts and policymakers to understand shifts in sovereignty, and to illuminate the mechanisms of transnational illicit networks and their interaction with the state. *Drug Trafficking, Corruption and States* Hardie Grant Publishing In the mid-1960s an unknown Italian film director named Sergio Leone was given \$200,000 and some leftover film stock, and he went to make a Western. With an American TV actor named Clint Eastwood and a script based on a samurai epic, Leone wound up creating “A Fistful of Dollars”, the first in a trilogy of films (with “For a Few Dollars More” and “The Good, the Bad, and the Ugly”) that was violent, cynical, and visually stunning. Along with his later masterpiece, “Once Upon a Time in the West”, these films came to define the Spaghetti Western

4 starred reviews! Orange Is the New Black meets Walter Dean Myer's *Monster* in this gritty, twisty, and haunting debut by Tiffany D. Jackson about a girl convicted of murder seeking the truth while surviving life in a group home. Mary B. Addison killed a baby. Allegedly. She didn't say much in that first interview with detectives, and the media filled in the only blanks that mattered: a white baby had died while under the care of a churchgoing black woman and her nine-year-old daughter. The public convicted Mary and the jury made it official. But did she do it? There wasn't a point to setting the record straight before, but now she's got Ted—and their unborn child—to think about. When the state threatens to take her baby, Mary's fate now lies in the hands of the one person she distrusts the most: her Momma. No one knows the real Momma. But does anyone know the real Mary?

From Robert E. Howard's fertile imagination sprang some of fiction's greatest heroes, including Conan the Cimmerian, King Kull, and Solomon Kane. But of all Howard's characters, none embodied his creator's brooding temperament more than Bran Mak Morn, the last king of a doomed race. In ages past, the Picts ruled all of Europe. But the descendants of those proud conquerors have sunk into barbarism . . . all save one, Bran Mak Morn, whose bloodline remains unbroken. Threatened by the Celts and the Romans, the Pictish tribes rally under his banner to fight for their very survival, while Bran fights to restore the glory of his race. Lavishly illustrated by award-winning artist Gary Gianni, this collection gathers together all of Howard's published stories and poems featuring Bran Mak Morn—including the eerie masterpiece "Worms of the Earth" and "Kings of the Night," in which sorcery summons Kull the conqueror from out of the depths of time to stand with Bran against the Roman invaders. Also included are previously unpublished stories and fragments, reproductions of manuscripts bearing Howard's handwritten revisions, and much, much more. Special Bonus: a newly discovered adventure by Howard, presented here for the very first time.

Bees provide a critical link in the maintenance of ecosystems, pollination. They play a major role in maintaining biodiversity, ensuring the survival of many plants, enhancing forest regeneration, providing sustainability and adaptation to climate change and improving the quality and quantity of agricultural production systems. In fact, close to 75 percent of the world's crops that produce fruits and seeds for human consumption depend, at least in part, on pollinators for sustained production, yield and quality. Beekeeping, also called apiculture, refers to all activities concerned with the practical management of social bee species. These guidelines aim to provide useful information and suggestions for a sustainable management of bees around the world, which can then be applied to project development and implementation.

Marcus Tullius Cicero (106 BC-43 BC) was a Roman statesman, lawyer, political theorist, philosopher, and Roman constitutionalist. He is widely considered one of Rome's greatest orators and prose stylists. He is generally perceived to be one of the most versatile minds of ancient Rome. He introduced the Romans to the chief schools of Greek philosophy and created a Latin philosophical vocabulary, distinguishing himself as a linguist, translator, and philosopher. An impressive orator and successful lawyer, he probably thought his political career his most important achievement. Today, he is appreciated primarily for his humanism and philosophical and political writings. Although a great master of Latin rhetoric and composition, Cicero was not Roman in the traditional sense, and was quite self-conscious of this for his entire life. He was declared a "righteous pagan" by the early Catholic Church, and therefore many of his works were deemed worthy of preservation. Saint Augustine and others quoted liberally from his works *On the Republic* and *On the Laws*, and it is due to this that we are able to recreate much of the work from the surviving fragments.

The study of Goethe's life is a task that each generation must undertake anew. Thus writes Richard Friedenthal, author of this rich biography. Spanning eight momentous decades of war, revolution, and social upheaval, Goethe's life reveals itself as one of conflict and dynamic development, of inner contradiction and unceasing creativity. As novelist, dramatist, and poet, Goethe produced epochal works of fiery romanticism, only later to dedicate himself to a classical ideal of purity and measure. His superb love lyrics immortalize a succession of ardent relationships; yet, in him too, was a strain of frigid egotism mingled with an Olympian detachment. The new introduction serves to place in perspective this outstanding work on the German master. He was capable of tirelessly exploring the external world as physiologist, geologist, and botanist. He was equally capable of plunging to the depths of profound subjective analysis. A minister of state, a model of distinguished probity, Goethe nonetheless lived a life of passionate seeking, eternally questioning official values. Nothing perhaps better sums up this vast complexity than his lifelong work, *Faust*, the supreme dramatization of man's quest on earth.
