The "how-to-get-it-right" book for today's Christian man in marriage, family, work, friendships, with God in all of life. Men are hungry for authenticity and for sound and bold biblical teaching on true masculinity. Every day men ask themselves questions about how to be better fathers, husbands, friends, and men, but it's difficult to find satisfying answers. Rise of the Servant Kings explains that true masculinity is found in absolute surrender to God, which always results in humble character and is expressed in courage and generosity. When a man truly understands God's desires, he will naturally express godly masculinity, Ken Harrison weaves together his experiences as a police officer in one of the deadliest areas of the country, with many years as a business executive and ministry leader, to share deep truths for men direct from God's Word.

Through personal stories this book demonstrates that generations 50 years apart in their college experiences share a commitment to address the world's troubles as their own and to make a difference in the lives of others. The stories are written by members of the Dartmouth Classes of 1964 and 2014 and reflect diverse ways of giving back to their communities. The classmate stories are complemented by special stories by the current President of Dartmouth, the only other living President of Dartmouth and the Dean of the College when members of the class of 1964 were students.

A New York Times Bestseller For Lady Gaga, kindness is the driving force behind everything she says and does. The quiet power of kindness can change the way we view one another, our communities,

and even ourselves. She embodies this mission, and through her work, brings more kindness into our world every single day. Lady Gaga has always believed in the importance of being yourself, being kind to yourself, and being kind to others, no matter who they are or where they come from. With that sentiment in mind, she and her mother, Cynthia Germanotta, founded Born This Way Foundation, a nonprofit organization dedicated to making the world a kinder and braver place. Through the years, they've collected stories of kindness, bravery and resilience from young people all over the world, proving that kindness truly is the universal language. And now, we invite you to read these stories and follow along as each and every young author finds their voice just as Lady Gaga has found hers. Within these pages, you'll meet young changemakers who found their inner strength, who prevailed in the face of bullies, who started their own social movements, who decided to break through the mental health stigma and share how they felt, who created safe spaces for LGBTQ+ youth, and who have embraced kindness with every fiber of their being by helping others without the expectation of anything in return. In one story, you'll read about a young person with an autoimmune disease, who after being bullied at school, learned how to practice self-love and started an organization with the mission of educating others about the importance of self-love, too; and in another story, you'll meet a young person who decided to start a movement to help eliminate the stigma surrounding mental health and encouraged others to talk about their feelings openly and honestly, a reminder that kindness and mental wellness go hand in hand. Not only were we moved by these individual acts of kindness, but we were also touched by the many stories of organizations, neighborhoods, and entire communities that fully dedicated themselves to helping those in need and found new, innovative ways to make our world a kinder and braver place. Individually and collectively, these stories prove that kindness not only saves lives but builds community. Kindness is inclusion, it is pride, it is empathy, it is compassion, it is self-respect and it is the guiding light to love. Kindness is always transformational, and its never-ending ripples result in even more kind acts that can change our lives, our communities, and our world.

Radicals, Plutocrats, Progressives, and New York's Year of Anarchy

Walt Rakowich brings a real-world perspective to leadership that's based on experience, not just theory. Walt was CEO of Prologis, the world's largest owner of industrial warehouses and a critical partner to companies distributing products throughout the global supply chain. The company was near bankruptcy when Walt took over at the height of the Great Recession. While leading Prologis back to prominence, and in the years since, Walt realized leaders today must lean into timeless values and principles, but with a fresh perspective on the new realities of our leadership climates. The modern leadership environment exists at the convergence of three distinct and dynamic climates: the climates of access, diversity, and acceleration. On their own or in the aggregate, these climates produce significant opportunities and tensions that will challenge leaders for generations. With a fundamental understanding of these climates, leaders develop a selfless approach that withstands the toughest storms. Transfluence shows leaders how they can have transformative influence by overcoming their fears and pride, building transparency into their leadership, developing a strong core of authentic values, and passionately pursuing a meaningful purpose. When leaders do this, they seize opportunities, embrace challenges, and make their organizations and communities greater than ever.
