Pinocchio The Adventures of a Little Wooden Boy Univ of California Press

Carlo Collodi [pseudonym of Carlo Lorenzini] (1826-1890), Italian journalist and author wrote *The Adventures of Pinocchio*, first serialised in *Il giornale per i bambini* (The Children's Magazine) as *Le avventure di Pinocchio* (1881-1883). After several months of the series' well received publication, Pinocchio was left for dead hanging from the branch of an oak tree by two robbers. There was such an outpouring of grief and demand for a continuation that Collodi acquiesced. The novel *Pinocchio* became a best-seller, the adventures of the now iconic puppet-boy appealing universally to children from all over North America, Europe, and numerous other countries. He inspired many movie producers to adapt him to the big screen including Walt Disney. Created by his poor woodcarver father Geppetto, Pinocchio is a mischievous boy who's nose grows if he tells a lie. At times dark and comical, with allegory to the socio-political times in Italy, Jiminy Cricket and The Blue Fairy accompany him as he redeems himself to become a "real" boy whilst learning the moral of the story. "Collodi" was the name chosen by Lorenzini for his pseudonym after the hillside village in Tuscany, birthplace of his mother. It now boasts the Park of Pinocchio, setting for many tourists and local admirers alike. Carlo Collodi was born in Florence, Italy on 24 November 1826. His writing career started with the publication of reviews submitted to various journals including *L'Italia Musicale*. He served time during the Wars of Independence with the Tuscan army, and he then founded *Il Lampione*, a satirical newspaper. He then went on to work as a dramatist and short story writer. His books for children were used as school texts including *L'Abaco di Giannettino* (Johnny's Arithmetic Primer), *La Grammatica di Giannettino* (Johnny's Grammar Book), and *Il Viaggio per l'Italia di Giannettino* (Johnny's Journey Through Italy). Collodi died in Florence on 26 October 1890 and lies buried in Cimitero Monumentale Delle Porte Sante, Firenze, Toscana, Italy. The National "Carlo Collodi" Foundation was established to promote education and the works of Carlo Lorenzini, and the Park of Pinocchio attracts many visitors each year.

The Story of Pinocchio New York Review of Books

The Adventures of Pinocchio is a novel for children by Italian author Carlo Collodi, written in Pescia. The first half was originally a serial in 1881 and 1882, and then later completed as a book for children in February 1883. It is about the mischievous adventures of an animated marionette named Pinocchio and his father, a poor woodcarver named Geppetto. It is considered a canonical piece of children's literature and has inspired hundreds of new editions, stage plays, merchandising and movies, such as Walt Disney's iconic animated version and commonplace ideas such as

a liar's long nose. According to extensive research done by the Fondazione Nazionale Carlo Collodi in late 1990s and based on UNESCO sources, it has been adapted in over 240 languages worldwide. That makes it among the most translated and widely read books ever written. *The Adventures of Pinocchio* is a story about an animated puppet, boys who turn into donkeys and other fairy tale devices. The setting of the story is the Tuscan area of Italy. It was a unique literary marriage of genres for its time. The story's Italian language is peppered with Florentine dialect features, such as the protagonist's Florentine name. In the 1850s, Collodi began to have a variety of both fiction and non-fiction books published. Once, he translated some French fairy-tales so well that he was asked whether he would like to write some of his own. In 1881, he sent a short episode in the life of a wooden puppet to a friend who edited a newspaper in Rome, wondering whether the editor would be interested in publishing this "bit of foolishness" in his children's section. The editor did, and the children loved it. *The Adventures of Pinocchio* were serialized in the paper in 1881-2, and then published in 1883 with huge success. In the original, serialized version, Pinocchio dies a gruesome death: hanged for his innumerable faults, at the end of Chapter 15. At the request of his editor, Collodi added chapters 16-36, in which the Fairy with Turquoise Hair (or "Blue Fairy," as the Disney version names her) rescues Pinocchio and eventually transforms him into a real boy, when he acquires a deeper understanding of himself, making the story more suitable for children. In the second half of the book, the maternal figure of the Blue-haired Fairy is the dominant character, versus the paternal figure of Geppetto in the first part. Children's literature was a new idea in Collodi's time, an innovation in the 19th century. Thus in content and style it was new and modern, opening the way to many writers of the following century.

Though one of the best-known books in the world, *Pinocchio* at

the same time remains unknown—linked in many minds to the Walt Disney movie that bears little relation to Carlo Collodi's splendid original. That story is of course about a puppet who, after many trials, succeeds in becoming a "real boy." Yet it is hardly a sentimental or morally improving tale. To the contrary, Pinocchio is one of the great subversives of the written page, a madcap genius hurtled along at the pleasure and mercy of his desires, a renegade who in many ways resembles his near contemporary Huck Finn. Pinocchio the novel, no less than Pinocchio the character, is one of the great inventions of modern literature. A sublime anomaly, the book merges the traditions of the picaresque, of street theater, and of folk and fairy tales into a work that is at once adventure, satire, and a powerful enchantment that anticipates surrealism and magical realism. Thronged with memorable characters and composed with the fluid but inevitable logic of a dream, Pinocchio is an endlessly fascinating work that is essential equipment for life. Geoffrey Brock's acclaimed new translation is reissued in an edition for children with over fifty full-page watercolors by Fulvio Testa.

Pipi isn't like his four brothers or the other young monkeys living in the forest of Hullabaloo: he has bright-pink fur, a mischievous character and a rebellious streak that lands him into all sorts of

scrapes. In this story, an expanded version of Collodi's original tale, we see him lose his tail to an ancient crocodile, end up as a valet to a young master, fall into the hands of flying bandits and become emperor of a tribe of apes, before preparing to set off on a long journey at sea. Collodi wrote this story immediately after Pinocchio, and the little monkey's adventures present clear similarities, both in terms of themes and characters, with his more celebrated masterpiece. This rediscovered gem of Italian literature is here adapted and expanded by Alessandro Gallenzi. This edition is here presented with illustrations by Axel Scheffler and a section of extra material for young readers.

Everyone knows Pinocchio, but many people don't know the real story. The original book was written by Carlo Lorenzini alias Carlo Collodi. It was published for the first time in 1883 with the title "The adventures of Pinocchio: The Story of a Puppet". Since then, many versions have been proposed, especially cinematographic ones, which have modified and softened both the character and the plot. In the original story the world in which Pinocchio lives is merciless and cruel, populated by thieves, murderers and cheaters who will do anything to try to kill or rob. As he grows and matures, Pinocchio must not only learn to defend himself from

danger, but also from bullying classmates and from the deception of kind and flattering men. He also learns not to place too much trust in judges, police and doctors. This may seem excessive to us today, but warning children about the injustices and cruelty of the real world was a feature of children's literature of the 1800s. However, the use of irony and the imaginary characters (puppets, animals, fairies) go a long way towards mitigating the dramatic reality described in the story. The original book uses 19th-century Italian and is strongly influenced by terms and idioms typical of the Tuscan language. In this edition, the language has been simplified and updated, to adapt it to intermediate level students of Italian.

◆ How it happened that Mastro Cherry, carpenter, found a piece of wood that wept and laughed like a child Centuries ago there lived-- "A king!" my little readers will say immediately. No, children, you are mistaken. Once upon a time there was a piece of wood. It was not an expensive piece of wood. Far from it. Just a common block of firewood, one of those thick, solid logs that are put on the fire in winter to make cold rooms cozy and warm.
