A heart-rending but uplifting story of the human spirit's ability to prevail. From the day he is five-years-old and dropped off at his foster home of the next eleven years, Stephen is mentally and physically tortured. No one in the system can help him. No one can tell him if he has a family. No one can tell him why, with obvious African-American features, he has the last name of Klakowicz. Along the way, a single faint light comes only from a neighbor's small acts of kindness and caring—and a box of books. From one of those books he learns that he has to fight in any way he can—for victory is in the battle. His victory is to excel in school. Against all odds, the author succeeded. He attended college, graduated, became a successful corporate executive, and married a wonderful woman with whom he established a loving family of his own. Through it, he dug voraciously through records and files and found his history, his birth family—and the ultimate disappointment as some family members embrace him, but others reject him. Readers won't be the same after reading this powerful story. They will share in the hurts and despair but also in the triumph against daunting obstacles. They will share this story with their family, with their friends, with their neighbors.

Issues tied to race and culture continue to be a part of the landscape of America's schools and classrooms. Given the rapid demographic transformation in the nation's states, cities, counties, and schools, it is essential that all school personnel acquire the necessary knowledge, skills, and dispositions to talk, teach, and think across racial and cultural differences. The second edition of Howard's bestseller has been updated to take a deeper look at how schools must be prepared to respond to disparate outcomes among students of color. Tyrone Howard draws on theoretical constructs tied to race and racism, culture and opportunity gaps to address pressing issues stemming from the chronic inequalities that remain prevalent in many schools across the country. This time-honored text will help educators at all levels respond with greater conviction and clarity on how to create more equitable, inclusive, and democratic schools as sites for teaching and learning. "If you thought the first edition of *Why Race and Culture Matter in Schools* was impactful, this second edition is even more of a force to be reckoned with in the fight for social justice. By pushing the boundaries of the ordinary and the normative, this book teaches as it transforms. Every educator, preservice and inservice, working with racially, linguistically, and culturally diverse young people should read this book." —H. Richard Milner IV, Cornelius Vanderbilt Distinguished Professor of Education, Vanderbilt University "On the 10th anniversary of this groundbreaking book, Tyrone Howard not only reminds me of the salient role that race and culture play in education, but also moves beyond a Black-White binary that reflect the nuances and contours of diversity. This book should be in the hands of all teachers and teacher educators." —Maisha T. Winn, Chancellor's Leadership Professor, School of Education, University of California, Davis
