*Geertz and Beyond* Literary Licensing, LLC Ibn al-'Awwām's *Kitāb al-filāḥa* is, without doubt, the most comprehensive agricultural treatise in Arabic. He gathers all the knowledge of his time concerning agriculture, horticulture and animal husbandry into a huge compendium of

excerpts from all the previous agronomical traditions and treatises. From 112 named authors (Ibn al-'Awwām, Banqueri 1802, I, pp. 61-2) he includes one thousand nine hundred direct and indirect citations - 615 or 32.5% from Byzantine sources, especially from Cassianus Bassus, 585 or 31% from Near Eastern sources, 85% of which are from Ibn Waḥshīya, and 690 citations or 36.5 % from earlier Andalusi agronomists (Glick 2005, pp. 12-13). To

these he often adds his own observations and experiences, about which he says: "As for my own contribution, I put forward nothing that I have not first proved by experiment on repeated occasions" (Ibn al-'Awwām, Clément-Mullet 1866, I, p. 9). He records, for example, his experiments in grafting the wild olive of the mountains with the domesticated olive of the plain, and his successful cultivation of saffron, under irrigation, in the mountains. Ibn al-'Awwām's treatise comprises 34 chapters dealing with all aspects of husbandry - it mentions 585 different plants, explains the cultivation of more than 50 fruit trees, and includes many valuable observations on soils, manures, grafting, and plant diseases (Sarton 1927-48, II, pp. 424-25). Ibn al-'Awwām also includes an agricultural calendar, one of the few Andalusí agronomists to do so. The last section of his work is devoted to animal husbandry, with chapters on cattle, sheep, goats, camels, horses, mules and donkeys, geese, ducks, chickens, pigeons, peacocks and beekeeping. As well as being of great value and interest for the study of agricultural history, the *Kitāb al-filāḥa* has enabled scholars to reconstruct the

original texts of some previous authors whose work has only survived in abridged or fragmented form. In addition, the profusion of references, even though sometimes entangled and difficult to unravel, provides the historian with a wealth of information on the transmission of knowledge. It also presents a unique survey of the agricultural geography of Al-Andalus in the late 12th century, at least in regard to its interior arable land and the valley of the Guadalquivir river.

This book presents state of the art knowledge on penile augmentation with a

view to providing a guide that will be highly relevant to clinical practice. The coverage is wide ranging, with clear descriptions of penile anatomy, patient selection and counselling, preoperative preparation, girth enhancement and penile lengthening techniques, postoperative care, and the approach to the pediatric patient. Experienced surgeons describe operative procedures from traditional fat transfer to the penile disassembly technique and reconstruction of the amputated penis, while the newest tissue engineering techniques are presented by leading researchers with reference to high-quality data. In addition, the role of auxiliary medical devices is explained. The text is supported by numerous full-color illustrations. Only recently have the requisite medical skills and techniques been developed to allow safe and reliable penile augmentation, and now the procedure is considered comparable to the use of mammoplasty for breast augmentation in women for cosmetic and psychological reasons. Penile Augmentation will be of value for all who are involved or interested in the procedure.

In the 7 Habits series, international bestselling author Stephen R. Covey showed us how to become as effective as it is possible to be. In his long-awaited new book, THE 8th HABIT, he opens up an entirely new dimension of human potential, and shows us how to achieve greatness in any position and any venue. All of us, Covey says, have within us the means for greatness. To tap into it is a matter of finding the right balance of four human attributes: talent, need, conscience and passion. At the nexus of these four attributes is what Covey calls voice - the unique, personal significance we each possess. Covey exhorts us all to move beyond effectiveness into the realm of greatness - and he shows us how to do so, by engaging our strengths and locating our powerful, individual voices. Why do we need this new habit? Because we have entered a new era in human history. The world is a profoundly different place than when THE 7 HABITS OF HIGHLY EFFECTIVE PEOPLE was originally published in 1989.

The challenges and complexity we face today are of a different order of magnitude. We enjoy far greater autonomy in all areas of our lives, and along with this freedom comes the expectation that we will manage ourselves, instead of being managed by others. At the same time, we struggle to feel engaged, fulfilled and passionate. Tapping into the higher reaches of human genius and motivation to find our voice requires a new mindset, a new skill-set, a new tool-set - in short, a whole new habit. *Tengger Tradition and Islam* Kesaint Blanc The description for this book, Hindu Javanese: *Tengger Tradition and Islam*, will be forthcoming.

di Taman Ismail Marzuki (TIM) diterbitkan menjadi buku berjudul Manusia Indonesia. Karena gaya dan sikapnya yang lugas dalam mengupas terutama sifat-sifat negatif orang Indonesia, buku ini menimbulkan pendapat pro dan kontra, selain membangkitkan pemikiran kritis tentang manusia Indonesia. Sifat-sifat manusia Indonesia yang dimaksud ialah munafik, tidak mau bertanggungjawab, berperilaku feodal, percaya pada takhyul, berbakat seni, dan lemah karakternya. Stereotipe ini tentu saja tidak semuanya benar, namun tidak juga seluruhnya salah. Ketika reformasi sedang berkembang, sosok manusia Indonesia seperti dilukiskan di atas lebih kuat lagi aktualitas dan relevansinya. beberapa penyebabnya ialah pendidikan, sistem, dan struktur politik yang ikut mengentalkan sifat-sifat negatif tersebut. dari kedua sudut pandang tersebut, buku Manusia Indonesia menyajikan bahan dan permulaan kerangka yang berguna untuk membangun kembali manusia Indonesia yang sedang porak-poranda.

----- God made the mountains and the seas. He made all the animals. He made the heavens and the stars. He made the sun and the moon and He made the angels. Then Allah decided to make a man. He called this first man Adam. He taught him many things so that Adam had more knowledge than the angels. There was one Jinn, called Iblis, the Devil. Iblis tried to compare himself to Adam. He believed that he was more honorable than Adam. Therefore he abstained from prostrating even though Allah had commanded him to do so. Adam was surprised by this creature, Iblis who abhorred him without even knowing him and who imagined himself better than Adam without having proved that he was worthier. Allah gives His commissioned

creatures' absolute freedom even to the extent that they can refuse His commands. Allah grants them the freedom of denial, disobedience, and even disagreement with Him. His kingdom will not diminish if the disbelievers do not believe in Him nor will it be extended if many people believe in Him.
