In this book I try to give a coherent and consistent overview of what an ecological approach to language learning might look like. This is not a fully fledged grand theory that aims to provide an explanation of everything, but an attempt to provide a rationale for taking an ecological world view and applying it to language education, which I regard as one of the most important of all human activities. Goethe once said that everything has been thought of before, but that the difficulty is to think of it again. The same certainly is true of the present effort. If it has any innovative ideas to offer, these lie in a novel combination of thoughts and ideas that have been around for a long, long time. The reader will encounter influences that range from Spinoza to Bakhtin and from Vygotsky to Halliday. The scope of the work is intentionally broad, covering all major themes that are part of the language learning process and the language teaching profession. These themes include language, perception and action, self, learning, critical pedagogy and research. At the same time I have attempted to look at both the macro and the micro sides of the ecological coin, and address issues from both a theoretical and a practical perspective. This, then, aims to be a book that can be read by practitioners and theoreticians alike, and the main idea is that it should be readable and challenging at the same time.

Since its founding nearly a century ago, Bentley has become an arresting and eloquent voice for the British persona. This book not only illustrates the engineering excellence of the marque, but also introduces "today's Bentley Boys"--a tribe of Bentley and Britain adherents both inspired and motivated by what it means to be British. Featuring such varied creatives as Pink Floyd's Nick Mason, Alice Temperley, and interior designer Kelly Hoppen, *Bentley: Be Extraordinary* is a celebration of the enlivening fire behind the brand as synonymous with the UK as the Union Jack. With Bentley, you have arrived.

First published in 1989, *The Singing Bourgeois* challenges the myth that the 'Victorian parlour song' was a clear-cut genre. Derek Scott reveals the huge diversity of musical forms and styles that influenced the songs performed in middle class homes during the nineteenth century, from the assimilation of Celtic and Afro-American culture by songwriters, to the emergence of forms of sacred

song performed in the home. The popularity of these domestic songs opened up opportunities to women composers, and a chapter of the book is dedicated to the discussion of women songwriters and their work. The commercial success of bourgeois song through the sale of sheet music demonstrated how music might be incorporated into a system of capitalist enterprise. Scott examines the early amateur music market and its evolution into an increasingly professionalized activity towards the end of the century. This new updated edition features an additional chapter which provides a broad survey of music and class in London, drawing on sources that have appeared since the book's first publication. An overview of recent research is also given in a section of additional notes. The new bibliography of nineteenth-century British and American popular song is the most comprehensive of its kind and includes information on twentieth-century collections of songs, relevant periodicals, catalogues, dictionaries and indexes, as well as useful databases and internet sites. The book also features an accompanying CD of songs from the period.

Alice Temperley, one of the most accomplished British designers working today, creates clothing that is coveted by the likes of Kate Hudson, Sarah Jessica Parker, Olga Kurylenko, Rita Ora, Poppy Delevingne, Helen Mirren, Adele, Naomie Harris, and The Duchess of Cambridge. This book is conceived as a celebration of Alice Temperley's aesthetic and conveys the effortless decadence and handcrafted allure of her brand. This book highlights the key moments that have inspired the last decade of work—focusing on the personal moments that have shaped her brand. Filled with captivating photographs from Temperley London photo shoots and fashion editorials, *ALICE TEMPERLEY: ENGLISH MYTHS AND LEGENDS* gives an in-depth look into the inspirations and processes behind the creation of the collections. While her first Rizzoli book, *TRUE BRITISH* (2011), was a chronological story about the first 10 years of the brand, *ENGLISH MYTHS AND LEGENDS* gives a more intimate view of what defines Temperley London today and its evolution; revealing both practical and sentimental moments of the designer's generative history.

This book assesses Lloyd George's attempt to shape the history of 1914-18 through his War Memoirs. His account of the British conduct of the war focused on the generals' incompetence, their obsession with the Western Front, and their refusal to consider alternatives to the costly trench warfare in France and Belgium. Yet as War Minister and Prime Minister Lloyd George presided over the bloody offensives of 1916-17, and had earlier taken a leading role in mobilising industrial resources to provide the weapons which made them possible. *Rewriting the First World War* examines how Lloyd George addressed this paradox.

During the Age of Revolution, Paris came alive with wildly popular virtuoso performances. Whether the performers were musicians or chefs, chess players or detectives, these virtuosos transformed their technical skills into dramatic spectacles, presenting the marvelous and the outré for spellbound audiences. Who these characters were, how they attained their fame, and why Paris became the focal point of their activities is the subject of Paul Metzner's absorbing study. Covering the years 1775 to 1850, Metzner describes the careers of a handful of virtuosos: chess masters who played several games at once; a chef who sculpted hundreds of four-foot-tall architectural fantasies in sugar; the first police detective, whose memoirs inspired the invention of the detective story; a violinist who played whole pieces on a single string. He examines these virtuosos as a group in the context of the society that was then the capital of Western civilization. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. Covering historical performance practice in its broadest sense this text identifies common performing styles, comparing and using sound recordings from the past. To help musicians distinguish between Period and Romantic styles, it engages with controversial topics in the field in defining the differences between them.

Frederick the Great and the Rise of Prussia Editions Assouline

This book investigates adaptations of *The Lady of Shalott* and *Elaine of Astolat* in Victorian and post-Victorian popular culture to explore their engagement with medievalism, social constructions of gender, and representations of the role of art in society. Although the figure of Elaine first appeared in medieval texts, including Malory's *Le Morte Darthur*, Tennyson's poems about the Lady and Elaine drew unprecedented response from musicians, artists, and other authors, whose adaptations in some cases inspired further adaptations. With chapters on music, art, and literature (including parody, young people's literature, and historical fiction and fantasy), this book seeks to trace the evolution of these characters and the ways in which they reinforce or challenge conventional gender roles, represent the present's relationship to the past, and highlight the power of art.

In *The Pity of War*, Niall Ferguson makes a simple and provocative argument: that the human atrocity known as the Great War was entirely England's fault. Britain, according to Ferguson, entered into war based on naïve assumptions of German aims—and England's entry into the war transformed a Continental conflict into a world war, which they then badly mishandled, necessitating American involvement. The war was not inevitable, Ferguson argues, but rather the result of the mistaken decisions of individuals who would later claim to have been in the grip of huge impersonal forces. That the war was wicked, horrific, inhuman, is memorialized in part by the poetry of men like Wilfred Owen and Siegfried Sassoon, but also by cold statistics. More British soldiers were killed in the first day of the Battle of the Somme than Americans in the Vietnam War; indeed, the total British fatalities in that single battle—some 420,000—exceeds the entire American fatalities for both World Wars. And yet, as Ferguson writes, while the war itself was a disastrous folly, the great majority of men who fought it did so with enthusiasm. Ferguson vividly brings back to life this terrifying period, not through dry citation of chronological chapter and verse but through a series of brilliant chapters focusing on key ways in which we now view the First World War. For anyone wanting to understand why wars are fought, why men are willing to fight them, and why the world is as it is today, there is no sharper nor more stimulating guide than Niall Ferguson's *The Pity of War*.

George Platt Lynes: *The Daring Eye* is a life of the gregarious American portrait, dance, fashion, and male nude photographer whose career spanned the late 1920s to 1955. From age 18, Lynes entered the cosmopolitan world of the American expatriate community in Paris when he became acquainted with the salon of Gertrude Stein and Alice B. Toklas. Intending to pursue a literary and small press publishing career, Lynes also began photographing authors like Stein, Jean Cocteau, André Gide, and Colette. Soon, he turned exclusively to photography, establishing himself as one of the premier fashion photographers in the Condé Nast stable, documenting the early ballets of George Balanchine, and pursuing his private obsession with seductive images of young male nudes almost never published in his time. Lynes's private life was as glamorous and theatrical as his images with their brilliant studio lighting and dramatic Surrealist set-ups. Barely out his teens, he met the publisher Monroe Wheeler who was already in a relationship with the emerging expatriate novelist Glenway Wescott. The peripatetic threesome maintained a polyamorous connection that lasted some 15 years. Their New York apartment became a mecca for elegant cocktail and name-dropping dinner parties. Their ménage-à-trois complicates our understanding of the pre-Stonewall gay "closet." This biography, drawing upon intimate letters and an unpublished memoir of Lynes's life by his brother, writer and editor Russell Lynes, paints a portrait of the emerging influence of gays and lesbians in the visual, literary, and performing arts that defined transatlantic cosmopolitan culture and presaged later gay political activism.

Musical Women in England, 1870-1914 delineates the roles women played in the flourishing music world of late-Victorian and early twentieth-century England, and shows how contemporary challenges to restrictive gender roles inspired women to move into new areas of musical expression, both in composition and performance. The most famous women musicians were the internationally renowned stars of opera; greatly admired despite their violations of the prescribed Victorian linkage of female music-making with domesticity, the divas were often compared to the sirens of antiquity, their irresistible voices a source of moral danger to their male admirers. Their ambiguous social reception notwithstanding, the extraordinary ability and striking self-confidence of these women - and of pioneering female soloists on the violin, long an instrument permitted only to men - inspired fiction writers to feature musician heroines and motivated unprecedented numbers of girls and women to pursue advanced musical study. Finding professional orchestras almost fully closed to them, many female graduates of English conservatories performed in small ensembles and in all-female and amateur orchestras, and sought to earn their living in the overcrowded world of music teaching.

This edited collection examines the concept and nature of the 'people's martyrology', raising issues of class, community, religion and authority. It examines modern martyrdom through studies of Peterloo; Tolpuddle; Featherstone; Tonypandy; Emily Davison, fatally injured by the King's horse on Derby Day, 1913; the 1916 Easter Rising; Jarrow, 'the town that was murdered, and martyred in the 1930s'; David Oluwale, a Nigerian killed in Leeds in 1965; and Bobby Sands, the IRA hunger striker who died in 1981. It engages with the burgeoning historiography of memory to try to understand why some events, such as Peterloo, Tonypandy and the Easter Rising, have become household names whilst others, most notably Featherstone and Oluwale, are barely known. It will appeal to those interested in British and Irish labour history, as well as the study of memory and memorialization.

Part of the seminal Cambridge History of Music series, this volume departs from standard histories of early modern Western music in two important ways. First, it considers music as something primarily experienced by people in their daily lives, whether as musicians or listeners, and as something that happened in particular locations, and different intellectual and ideological contexts, rather than as a story of genres, individual counties, and composers and their works. Second, by constraining discussion within the limits of a 100-year timespan, the music culture of the sixteenth century is freed from its conventional (and tenuous) absorption within the abstraction of 'the Renaissance', and is understood in terms of recent developments in the broader narrative of this turbulent period of European history. Both an original take on a well-known period in early music and a key work of reference for scholars, this volume makes an important contribution to the history of music.

Twentieth-Century Crime Fiction aims to enhance understanding of one of the most popular forms of genre fiction by examining a wide variety of the detective and crime fiction produced in Britain and America during the twentieth century. It will be of interest to anyone who enjoys reading crime fiction but is specifically designed with the needs of students in mind. It introduces different theoretical approaches to crime fiction (e.g., formalist, historicist, psychoanalytic, postcolonial, feminist) and will be a useful supplement to a range of crime fiction courses, whether they focus on historical contexts, ideological shifts, the emergence of sub-genres, or the application of critical theories. Forty-seven widely available stories and novels are chosen for detailed discussion. In seeking to illuminate the relationship between different phases of generic development Lee Horsley employs an overlapping historical framework, with sections doubling back chronologically in order to explore the extent to which successive transformations have their roots within the earlier phases of crime writing, as well as responding in complex ways to the preoccupations and anxieties of their own eras. The first part of the study considers the nature and evolution of the main sub-genres of crime fiction: the classic and hard-boiled strands of detective fiction, the non-investigative crime novel (centred on transgressors or victims), and the 'mixed' form of the police procedural. The second half of the study examines the ways in which writers have used crime fiction as a vehicle for socio-political critique. These chapters consider the evolution of committed, oppositional strategies, tracing the development of politicized detective and crime fiction, from Depression-era protests against economic injustice to more recent decades which have seen writers launching protests against ecological crimes, rampant consumerism, Reaganomics, racism, and sexism.
