Cajeiri, the son of Tabini-aiji, the leader of the Western Association, becomes a target of factions determined to destroy his father's rule and runs away to follow Bren Cameron, his human paidhi, to his country retreat.

**Deliverer** Penguin

The twenty-first book in the beloved Foreigner saga continues the adventures of diplomat Bren Cameron, advisor to the atevi head of state. The overthrow of the atevi head of state, Tabini-aiji, and the several moves of enemies even since his restoration, have prompted major changes in the Assassins' Guild, which has since worked to root out its seditious elements—a clandestine group they call the Shadow Guild. With the Assassins now rid of internal corruption, with the birth of Tabini's second child, and with the appointment of an heir, stability seems to have returned to the atevi world. Humans and atevi share the space station in peaceful cooperation, humans and atevi share the planet as they have for centuries, and the humans' island enclave is preparing to welcome 5000 human refugees from a remote station now dismantled, and to do that in unprecedented cooperation with the atevi mainland. In general Bren Cameron, Tabini-aiji's personal representative, returning home to the atevi capital after securing that critical agreement, was ready to take a well-earned rest—until Tabini's grandmother claimed his services on a train trip to the smallest, most remote and least significant of the provinces, snowy Hasjuran—a move concerning which Tabini-aiji gave Bren a private instruction: protect her. Advise her. Advise her—perhaps. As for protection, she has a trainload of high-level Guild. But since the aiji-dowager has also invited a dangerously independent young warlord, Machigi, and a young man who may be the heir to Ajuri, a key northern province—the natural question is why the dowager is taking this ill-assorted pair to Hasjuran and what on this earth she may be up to. With a Shadow Guild attack on the train station, it has become clear that others have questions, too. Hasjuran, on its mountain height, overlooks the Marid, a district that is part of the atevi nation only in name—a district in which Machigi is one major player, and where the Shadow Guild retains a major stronghold. Protect her? IIsidi is hellbent on settling scores with the Shadow Guild, and her reasons for this trip and this company now become clear. One human diplomat and his own bodyguard suddenly seem a very small force to defend her from what she is setting in motion.

And though she should depart when Bren is once again able to fill his post, no recall order comes. Cut off from his government and haunted by the continuing threat of assassination, Bren realizes his only hompe may be to communicate directly with the Phoenix as the spokesman of the atevi—an actuan which may cut him off for good from his own species. Nearly ten years after the unexpected return of the starship Phoenix, the alien atevi have three functioning space shuttles, and teams of atevi engineers labor in orbit to renovate the space station. But these monumental advances not only add a dangerously powerful third party to an already precarious diplomatic situation, but rouse pro- and anti=s[ace factions in atevi society to incendiary levels. To help negotiate these treacherous diplomatic waters, Tabini-aiji, the powerful head of the atevi's Western Association, has sent the only human he fully trusts into space: his own paidhi, Bren Cameron. However, the threat of possible invasion by hostile aliens who attacked Phoenix's station in a far-off sector of space hangs over them all. And when one of the

senior captains of the Phoenix confesses that this station was not completely destroyed, as had been previously thought, the crew mutinies. Six months have passed since the reappearance of the starship Phoenix—the same ship which brought a colony of humans to the hostile environment of alien atevi nearly two hundred years ago. During these six months, the atevi have reconfigured their fledgling space program in a bid to take their place in the heavens alongside humans. But the return of the Phoenix has added a frighteningly powerful third party to an already volatile situation, polarizing both human and atevi political factions, and making the possibility of all-out planetary war an even more likely threat. On the atevi mainland, human ambassador Bren Cameron, in a desperate attempt to maintain the peace, has arranged for one human representative from the Phoenix to take up residence with him in his apartments, and for another to be stationed on humanity's island enclave. Bren himself is unable to return home for fear of being arrested or assassinated by the powerful arch conservative element who wish to bar the atevi from space. Responsible for a terrified, overwhelmed young man, and desperately trying to keep abreast of the atevi associations, how can Bren possibly find a way to save two species from a three-sided conflict that no one can win? The long-running Foreigner series can also be enjoyed by more casual genre readers in sub-trilogy installments. Inheritor is the 3rd Foreigner novel. **A Foreigner Novel** Penguin

The nineteenth book in the beloved Foreigner space opera series begins a new era for human diplomat Bren Cameron, as he navigates the tenuous peace between human refugees and the alien atevi. Bren Cameron, acting as the representative of the atevi's political leader, Tabini-aiji, as well as translator between humans and atevi, has undertaken a mission to the human enclave of Mospheira. Both his presence on the island and his absence from the continent have stirred old enemies to realize new opportunities. Old hatreds. Old grudges. Old ambitions. The situation has strengthened the determination of power-seekers on both sides of the strait. Bren knows most of them very well, but not all of them well enough. The space station on which the world increasingly relies is desperate to get more supplies up to orbit and to get a critical oversupply of human refugees down to the world below. Rationing is in force on the station, but the overpopulation problem has to be solved quickly—and Bren's mission on Mospheira has expanded to include preparation for that landing. First down will be the three children to whom Tabini's son has a close connection. But following them will be thousands of humans who have never set foot on a planet, humans descended from colonists and officers who split off from Mospheiran humans two hundred years before in a bitter parting of the ways. There is no way the atevi, native to the world, will cede any more land to these new arrivals: they will have to share the island. But certain Mospheirans are willing to use force to prevent these refugees from settling among them. Bren's job is

as general peacemaker—but old enemies want war. Is Bren's diplomatic acumen enough to prevent a war that both sides are prepared to wage?

Yet Daetrin's secret as one no scientist had ever uncovered, for down through the years he had succeeded in burying it so well that he had even hidden his real nature from himself.
