This edited collection
explores the complex
ways in which

photography is used and interpreted: as a record of evidence, as a form of communication, as a means of social and political provocation, as a mode of surveillance, as a narrative of the self, and as an art form. What makes photographic images unsettling and how do the re-uses and interpretations of photographic images unsettle the self-evident reality of the visual field? Taking up these themes, this book examines the role of photography as a revelatory medium

underscored by its complex association with history, memory, experience and identity. What They Saw: Historical Photobooks by Women, 1843 - 1999, 10x10
Photobooks' most recent "book-on-photobooks" anthology in its ongoing examination of photobook history, explores photobooks created by women from photography's beginnings to the dawn of the 21st century. Presenting a diverse geographic and ethnic selection, the anthology interprets the concept of the photobook in the broadest sense possible: classic bound

books, portfolios, personal albums, unpublished books, zines and scrapbooks. Some of the books documented are well-known publications such as Anna Atkins' *Photographs of British Algae: Cyanotype Impressions* (1843-1853), Germaine Krull's *Métal* (1928) and Diane Arbus: *An Aperture Monograph* (1972), while other books may be relatively unknown, such as Alice Seeley Harris' *The Camera and the Congo Crime* (c. 1906), Varvara Stepanova's *Groznyi*

smekh. Okna Rosta (1932), Eslanda Cardozo Goode Robeson's *African Journey* (1945), Fina Gómez Revenga's *Fotografías de Fina Gómez Revenga* (1954), Eiko Yamazawa's *Far and Near* (1962) and Gretta Alegre Sarfaty's *Auto-photos: Série transformações-1976: Diário de Uma Mulher-1977* (1978). Also addressed in the publication are the glaring gaps and omissions in current photobook history-in particular, the lack of access, support

and funding for photobooks by non-Western women and women of color. Paris Photo-Aperture Foundation Catalogue of the Year Award 2021 Kraszna-Krausz Photography Book Award 2022 Time Magazine 20 Best Photobooks of 2021 *I Know How Furiously Your Hear T Is Beating* Mango Media Inc. In the middle years of the Great Depression, Erskine Caldwell and photographer Margaret Bourke-White spent eighteen months traveling

across the back roads of the Deep South--from South Carolina to Arkansas--to document the living conditions of the sharecropper. Their collaboration resulted in *You Have Seen Their Faces*, a graphic portrayal of America's desperately poor rural underclass. First published in 1937, it is a classic comparable to Jacob Riis's *How the Other Half Lives*, and James Agee and Walker Evans's *Let Us Now Praise Famous Men*, which it preceded by more than three years. Caldwell lets the poor

speak for themselves. Supported by his commentary, they tell how the tenant system exploited whites and blacks alike and fostered animosity between them. Bourke-White, who sometimes waited hours for the right moment, captures her subjects in the shacks where they lived, the depleted fields where they plowed, and the churches where they worshipped. documents a unique and important segment of the Wisconsin community. Our bars are unique micro-communities, offering patrons a sense of belonging. Many of these bars are the only public gathering place in the rural communities they serve. These simple taverns offer the individual the valuable opportunity for face to face conversation and camaraderie, particularly as people become more physically isolated through the accelerated use of the internet's social

networking, mobile texting, gaming, and the rapid-fire of email. This collection of 60 pictures captures the Wisconsin tavern as it is today. Carl Corey's view is both familiar and undeniably unique, his pictures resonant with anyone who has set foot in a Wisconsin tavern. As the Milwaukee Journal Sentinel's Mary Louise Schumacher has written, "Carl Corey's photographs . . . document iconic American places that are taken for granted. . . . They are comforting

images, places we know, but also eerie and remote, presented with a sense of romance and nostalgia that suggests they are already past."

The idea of "The Green Book" is to give the Motorist and Tourist a Guide not only of the Hotels and Tourist Homes in all of the large cities, but other classifications that will be found useful wherever he may be. Also facts and information that

the Negro Motorist can use and depend upon. There are thousands of places that the public doesn't know about and aren't listed. Perhaps you know of some? If so send in their names and addresses and the kind of business, so that we might pass it along to the rest of your fellow Motorists. You will find it handy on your travels, whether at home or in some other state, and is up to date. Each year we are compiling new lists as some of these places move, or go out of

business and new business places are started giving added employment to members of our race.

"Taking its name from a line in the Wallace Stevens' poem "The Gray Room," Alec Soth's latest book is a lyrical exploration of the limitations of photographic representation. While these large-format color photographs are made all over the world, they aren't about any particular place or population. By a process of intimate and often extended engagement, Soth's portraits and images of his subject's

surroundings involve an enquiry into the extent to which a photographic likeness can depict more than the outer surface of an individual, and perhaps even plumb the depths of something unknowable about both the sitter and the photographer"--The publisher.

wooden boards discovered in Russia in 1919, written in a proto-Slavic language. It was claimed to be a history of the Slavic people and the god Veles himself--the pre-Christian Slavic god of mischief, chaos and deception

The Coffee-Table Book in the Post-War Anglophone World argues that coffee-table books appeared and

became popular in the post-war era at the convergence of three important developments: advances in full colour printing technology, social change, and publishing entrepreneurship and innovation. Examining the coffee-table book through a book history lens acknowledges their significant contribution to post-war visual culture and illustrated publishing. Focussing on post-war America, Great Britain, and Australia during the “golden age” era of the 1950s, 1960s, and 1970s,

this history of the coffee-table book takes an interdisciplinary approach to put the coffee-table book in context in regards to materiality, format, printing, status, and genre.

Understanding
Photobooks is a user-friendly guide to engaging with the photographic book— or, as it is widely known, the photobook. Despite its importance as a central medium in which many photographers showcase their work today, there is surprisingly little information on the mechanics of the photobook: what exactly it does and how it does it. Written for makers and artists, this book will help

you develop a better understanding of the images, concept, sequence, design, and production of the photobook. With an awareness of the connections between these elements, you'll be able to evaluate photobooks more clearly and easily, ultimately allowing for a deeper and more rewarding experience of the work.
