**That's Not in My American History Book** Christian Liberty Press

Expertly steering readers through the often tumultuous and exhilarating history of the United States, from its early modern Native American roots to twenty-first-century neoliberalism and the shifting political climate of the past decade, this highly readable textbook provides a compelling overview of American development over the last five centuries. This book avoids either celebratory or condemnatory rhetoric to present a critical examination of domestic America and its interaction with the rest of the world. Balancing coverage of political, social, cultural, and economic history, each chapter also includes a wealth of features to facilitate learning: Timelines situating key events in their wider chronology Lists of topics covered within each chapter for easy reference Concept boxes discussing selected issues in more detail Historiography boxes exploring key debates Chapter summaries offering condensed outlines of the main themes of each chapter Further reading lists guiding readers to additional resources Maps and images bringing to life important events and figures from America's history Clearly and engagingly written and positioning America's narrative within the wider global context, this textbook is particularly accessible for non-US students and is the perfect introduction for those new to US history. This textbook is also supported by a companion website offering interactive content including a timeline, multiple-choice quizzes, and links to selected web resources.

*History Lessons* The New Press

A powerful exploration of the past and present arc of America's white supremacy—from the country's inception and Revolutionary years to its 19th century flashpoint of civil war; to the Civil Rights movement of the 1960s and today's Black Lives Matter. "The most profoundly original cultural history in recent memory." —Henry Louis Gates, Jr., Harvard University "Stunning, timely . . . an achievement in writing public history . . . Teaching White Supremacy should be read widely in our roiling debate over how to teach about race and slavery in classrooms." —David W. Blight, Sterling Professor of American History, Yale University; author of the Pulitzer Prize-winning *Frederick Douglass: Prophet of Freedom* Donald Yacovone shows us the clear and damning evidence of white supremacy's deep-seated roots in our nation's educational system through a fascinating, in-depth examination of America's wide assortment of texts, from primary readers to college textbooks, from popular histories to the most influential academic scholarship. Sifting through a wealth of materials from the colonial era to today, Yacovone reveals the systematic ways in which this ideology has infiltrated all aspects of American culture and how it has been at the heart of our collective national identity. Yacovone lays out the arc of America's white supremacy from the country's inception and Revolutionary War years to its nineteenth-century flashpoint of civil war to the civil rights movement of the 1960s and today's Black Lives Matter. In a stunning reappraisal, the author argues that it is the North, not the South, that bears the greater responsibility for creating the dominant strain of race theory, which has been inculcated throughout the culture and in school textbooks that restricted and repressed African Americans and other minorities, even as Northerners blamed the South for its legacy of slavery, segregation, and racial injustice. A major assessment of how we got to where we are today, of how white supremacy has suffused every area of American learning, from literature and science to religion, medicine, and law, and why this kind of thinking has so insidiously endured for more than three centuries.

*America: A Narrative History (Brief Ninth Edition) (Vol. One-Volume)* Cengage Learning

*Sports in American History: From Colonization to Globalization, Second Edition*, journeys from the early American past to the present to give students a compelling grasp of the evolution of American sporting practices.

[This book] blends the ... drama of the American experience with insights into the social, economic, and cultural issues underlying it.-Back cover.

**Exploring American History** McGraw-Hill Education

This book analyzes the common narrative residing in American History textbooks published in the first half of the 19th century. That story, what the author identifies as the American "creation" or "origins" narrative, is simultaneously examined as both historic and "mythic" in composition. It offers a fresh, multidisciplinary perspective on an enduring aspect of these works. The book begins with a provocative thesis that proposes the importance of the relationship between myth and history in the creation of America's textbook narrative. It ends with a passionate call for a truly inclusive story of who Americans are and what Americans aspire to become. The book is organized into three related sections. The first section provides the context for the emergence of American History textbooks. It analyzes the structure and utility of these school histories within the context of antebellum American society and educational practices. The second section is the heart of the book. It recounts and scrutinizes the textbook narrative as it tells the story of America's emergence from "prehistory" through the American Revolution—the origins story of America. This section identifies the recurring themes and images that together constitute what early educators conceived as a unified cultural narrative. Section three examines the sectional bifurcation and eventual re-unification of the American History textbook narrative from the 1850s into the early 20th century. The book concludes by revisiting the relationship between textbooks, the American story, and mythic narratives in light of current debates and controversies over textbooks, American history curriculum and a common American narrative.

**Cengage Advantage Books: A History in the United States, Volume I: To 1877** Human Kinetics

Criticizes the way history is presented in current textbooks, and suggests a more accurate approach to teaching American history.

**Sports in American History, 2E** Broadway Books

The new edition of this classic text on modern U.S. history brings the story of contemporary America into the second decade of the twenty-first century with new coverage of the Obama presidency and the 2012 elections. Written by three highly respected scholars, the book seamlessly blends political, social, cultural, intellectual, and economic themes into an authoritative and readable account of our increasingly complex national story. The seventh edition retains its affordability and conciseness while continuing to add the most recent scholarship. Each chapter contains a special feature section devoted to cultural topics including the arts and architecture, sports and recreation, technology and education. Adding to the readers' learning experience is the addition of web links to each of these features, providing numerous complementary visual study tools. These links become live, and illustrations appear in full color, in the ebook edition. An American Century instructor site provides instructors who adopt the book with high interest features--illustrations, photos, maps, quizzes, an elaboration of key themes in the book, PowerPoint presentations, and lecture launchers on topics including the Versailles Conference, the "Military-Industrial Complex" Speech by Dwight D. Eisenhower, the Tet Offensive, and the prospects for a Second American Century. In addition, students have free access to a multimedia primary source archive of materials carefully selected to support the themes of each chapter.

**Teaching White Supremacy** Vintage

Author Joseph R. Conlin's award-winning teaching and writing styles are reflected in this colorful and engaging look at the individuals, events, and ideas that have shaped our nation's past. Organized into short chapters and updated with new insights into recently published research, this text sets the story in a political context, weaving in social, cultural, economic, intellectual, constitutional, diplomatic, and military events along the way. Conlin's popular sidebars and How They Lived vignettes—many of which are new in this edition—bring historical stories to life and emphasize the human and social dimensions of history. With its literary prose style and its unifying voice, *THE AMERICAN PAST*, Ninth Edition will capture and hold your students' interest as it guides them on a fascinating, eye-opening walk through the years gone by. Conlin's text is available in the following volume options: *THE AMERICAN PAST: A SURVEY OF AMERICAN HISTORY*, Comprehensive, (Chapters 1-52), ISBN: 049557287X; *VOLUME I: TO 1877*, (Chapters 1-24), ISBN: 0495572888; *VOLUME II: SINCE 1865*, (Chapters 24-52), ISBN: 0495572896. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**A First Book of American History** Prentice Hall

This third edition is greatly expanded with over 600 new entries to reflect the growing number of imaginative writings about the Vietnam War.

Available in the following split options: CENGAGE ADVANTAGE BOOKS: *A PEOPLE AND A NATION*, Tenth Edition (Chapters 1-29), ISBN: 978-1-285-42587-0; Volume I: *To 1877* (Chapters 1-14), ISBN: 978-1-285-42588-7; Volume II: *Since 1865* (Chapters 14-29), ISBN: 978-1-285-42589-4. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

*American History for Schools (1913)* Macmillan Higher Education

An expanded, new and improved American Environmental History textbook for everyone! After years of teaching Environmental History at a major East Coast University without a textbook, Dr. Dan Allosso decided to take matters into his own hands. The result, *American Environmental History*, is a concise, comprehensive survey covering the material from Dan's undergraduate course. What do people say about the class and the text? "This was my first semester and this course has created an incredible first impression. If all of the courses are this good, I am going to really enjoy my time here. The course has completely changed the way I look at the world." (Student in 2014 class) "One of the few classes I'm really sad is ending, the subject matter is fascinating and Dan is a great guide to it. His approach should be required of all students as it teaches an appreciation for a newer and better way of living." (Student in 2014 class) "Allosso's lectures are fantastic. The best I have ever had. So impressed. The material is always extremely interesting and well-presented." (Student in 2015 class) "It is just a perfect course that I think should be mandatory if we want to save our planet and live responsibly." (Student in 2015 class) "A rare gem for an IB ESS teacher or any social studies teacher looking for an 11th or 12th grade supplementary text that aims to provide an historical context for the environmental reality in America today. Highly recommended." (District Curriculum Coordinator, 2016) "I was so impressed with this material that I am using it as a supplement for a course I teach at my college." (History and Environmental Studies Professor, 2017) Beginning in prehistory and concluding in the present, *American Environmental History* explores the ways the environment has affected the choices that became our history, and how our choices have affected the environment. The dynamic relationship between people and the world around them is missing from mainstream history. Putting the environment back into history helps us make sense of the past and the present, which will help guide us toward a better future. More information and Dan's blog are available at [environmentalhistory.us](http://environmentalhistory.us)

**The American Past: A Survey of American History, Volume I: To 1877** McGraw-Hill Education

From the Publisher: This latest edition of an official U.S. Government military history classic provides an authoritative historical survey of the organization and accomplishments of the United States

Army. This scholarly yet readable book is designed to inculcate an awareness of our nation's military past and to demonstrate that the study of military history is an essential ingredient in leadership development. It is also an essential addition to any personal military history library.

**Teaching What Really Happened** Createspace Independent Publishing Platform

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass* *The American Yawp* is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

**American History 1 (Before 1865), Hardcover Student Text Only** Lexington Books

A book students love, in a more concise format. America has sold more than 1.8 million copies over the past eight editions because it's a book that students enjoy reading. Effective storytelling, colorful anecdotes, and biographical sketches make the narrative absorbing and the material more memorable. The Brief Ninth Edition is 20% shorter, and includes refreshed and updated coverage of African American history, and has been streamlined from 37 to 34 chapters.

*The American Century* John Wiley & Sons

*American History* volume 1 surveys the broad sweep of American history from the first Native American societies to the end of the Reconstruction period, following the Civil War. Drawing on a deep range of research and years of classroom teaching experience, Thomas S. Kidd offers students an engaging overview of the first half of American history. The volume features illuminating stories of people from well-known presidents and generals, to lesser-known men and women who struggled under slavery and other forms of oppression to make their place in American life. The role of Christianity in America is central in this book. Americans' faith sometimes inspired awakenings and the search for an equitable society, but at other times it justified violence and inequality. Students will come away from *American History* volume 1 better prepared to grapple with the challenges presented by the history of America's founding, the problem of slavery, and our nation's political tradition.
