AHMED ADELAIDE

Death and Night HarperCollins

From the award-winning author of *Five, Six, Seven, Nate!* and *Better Nate Than Ever* comes "a Holden Caulfield for a new generation" (Kirkus Reviews, starred review). Quinn Roberts is a sixteen-year-old smart aleck and Hollywood hopeful whose only worry used to be writing convincing dialogue for the movies he made with his sister Annabeth. Of course, that was all before—before Quinn stopped going to school, before his mom started sleeping on the sofa...and before the car accident that changed everything. Enter: Geoff, Quinn's best friend who insists it's time that Quinn came out—at least from hibernation. One haircut later, Geoff drags Quinn to his first college party, where instead of nursing his pain, he meets a guy—okay, a hot guy—and falls, hard. What follows is an upside-down week in which Quinn begins imagining his future as a screenplay that might actually have a happily-ever-after ending—if, that is, he can finally step back into the starring role of his own life story.

Object Lessons is a series of short, beautifully designed books about the hidden lives of ordinary things. It may be responsible for a greater improvement in human diet and longevity than any other technology of the last two thousand years—but have you ever thought seriously about your refrigerator? That box humming in the background displays more than you might expect, even who you are and the society in which you live. Jonathan Rees examines the past, present, and future of the household refrigerator with the aim of preventing its users from ever taking it for granted again. No mere container for cold Cokes and celery stalks, the refrigerator acts as a mirror—and what it reflects is chilling indeed. *Object Lessons* is published in partnership with an essay series in *The Atlantic*.
