Charles Rosen is one of the world's most talented pianists -- and one of music's most astute commentators. Known as a performer of Bach, Beethoven, Stravinsky, and Elliott Carter, he has also written highly acclaimed criticism for

sophisticated students and professionals. In *Piano Notes*, he writes for a broader audience about an old friend -- the piano itself. Drawing upon a lifetime of wisdom and the accumulated lore of many great performers of the past, Rosen shows why the instrument demands such a stark combination of mental and physical prowess. Readers will gather many little-known insights -- from how pianists vary their posture, to how splicings and microphone placements can ruin recordings, to how the history of composition was dominated by the piano for two centuries. Stories of many great musicians abound. Rosen reveals Nadia Boulanger's favorite way to avoid commenting on the performances of her friends ("You know what I think," spoken with utmost earnestness), why Glenn Gould's recordings suffer from "double-strike" touches, and how even Vladimir Horowitz became enamored of splicing multiple performances into a single recording. Rosen's explanation of the piano's physical pleasures, demands, and discontents will delight and instruct

anyone who has ever sat at a keyboard, as well as everyone who loves to listen to the instrument. In the end, he strikes a contemplative note. Western music was built around the piano from the classical era until recently, and for a good part of that time the instrument was an essential acquisition for every middle-class household. Music making was part of the fabric of social life. Yet those days have ended. Fewer people learn the instrument today. The rise of recorded music has homogenized performance styles and greatly reduced the frequency of public concerts. Music will undoubtedly survive, but will the supremely physical experience of playing the piano ever be the same?

Position Pieces for Cello is designed to give students a logical and fun way to learn their way around the fingerboard. Each hand position is introduced with exercises called "Target Practice," "Geography Quiz," and "Names and Numbers." Following these exercises are tuneful cello duets which have been specifically composed to require students to play in that hand position. In this way, students gain a thorough knowledge of how to find the hand positions and, once there, which notes are possible to play. Using these pieces

(with names like "I Was a Teenage Monster," "The Irish Tenor," and "I've Got the Blues, Baby"), position study on the cello has never been so much fun!

How Far I'll Go (from Moana) Sheet Music Chester Music

Bach's Well-tempered Clavier (or the 48 Preludes and Fugues) stands at the core of baroque keyboard music and has been a model and inspiration for performers and composers ever since it was written. This invaluable guide to the 96 pieces explains Bach's various purposes in compiling the music, describes the rich traditions on which he drew, and provides commentaries for each prelude and fugue. In his text, David Ledbetter addresses the main focal points mentioned by Bach in his original 1722 title page. Drawing on Bach literature over the past three hundred years, he explores German traditions of composition types and Bach's novel expansion of them; explains Bach's instruments and innovations in keyboard technique in the general context of early eighteenth-century developments; reviews instructive and theoretical literature relating to keyboard temperaments from 1680 to 1750; and discusses Bach's pedagogical intent when composing the Well-tempered Clavier. Ledbetter's commentaries on individual preludes and fugues equip readers with the concepts necessary to make their own assessment and include information about the sources when details of notation, ornaments, and fingerings have a bearing on performance.
