A clear-eyed look at modern India's role in Asia's and the broader world One of India's most distinguished foreign policy thinkers addresses the many questions facing India as it seeks to find its way in the increasingly complex world of Asian geopolitics. A former Indian foreign secretary and national security adviser, Shivshankar Menon traces India's approach to the shifting regional landscape since its independence in 1947. From its leading role in the “nonaligned” movement during the cold war to its current status as a perceived counterweight to China, India often has been an after-thought for global leaders—until they realize how much they needed it. Examining India's own policy choices throughout its history, Menon focuses in particular on India's responses to the rise of China, as well as other regional powers. Menon also looks to the future and analyzes how India's policies are likely to evolve in response to current and new challenges. As India grows economically and gains new stature across the globe, both its domestic preoccupations and

international choices become more significant. India itself will become more affected by what happens in the world around it. Menon makes a powerful geopolitical case for an India increasingly and positively engaged in Asia and the broader world in pursuit of a pluralistic, open, and inclusive world order.

Tinderbox tells the exclusive, explosive, uninhibited true story of HBO and how it burst onto the American scene and screen to detonate a revolution and transform our relationship with television forever. The Sopranos, Game of Thrones, Sex and the City, The Wire, Succession...HBO has long been the home of epic shows, as well as the source for brilliant new movies, news-making documentaries, and controversial sports journalism. By thinking big, trashing tired formulas, and killing off cliches long past their primes, HBO shook off the shackles of convention and led the way to a bolder world of content, opening the door to all that was new, original, and worthy of our attention. In Tinderbox, award-winning journalist James Andrew Miller uncovers a bottomless trove of secrets and surprises, revealing new conflicts, insights, and analysis. As he did to great acclaim with SNL in Live from New York; with ESPN in Those Guys Have All the Fun; and with talent agency CAA in Powerhouse, Miller continues his record of extraordinary access to the most important voices, this time speaking with talents ranging from Abrams (J. J.) to Zendaya, as well as every single living president of HBO—and hundreds of other major players. Over the course of more than 750 interviews with key sources, Miller reveals how fraught HBO's journey has been, capturing the drama and the comedy off-camera and inside boardrooms as HBO created and mobilized a daring new content universe, and, in doing so, reshaped storytelling and upended our entertainment lives forever.

It turns out having all the power in the universe doesn't mean much if you have no idea what to do with it. So together with Heather, he embarks on a frantic race to collect the remaining six Iglas and stave off the coming darkness. And in the process, they discover just how much deeper their problems go. With new threats lashing at them from every side, and old ones tightening their grip, it becomes a contest against chaos to see who will dictate the future of reality: the assorted protectors of Earth, an all-consuming darkness...or a conman who would really rather not. Arequipa, Peru's second largest city, has the most intense regional culture in the central Andes. Arequipeños fiercely conceive of themselves as exceptional and distinctive, yet also broadly representative of the nation's overall hybrid nature—a blending of coast (modern, “white”) and sierra (traditional, “indigenous”). The Independent Republic of Arequipa investigates why and how this regional identity developed in a boom of cultural production after the War of the Pacific (1879-1884) through the mid-twentieth century. Drawing on decades of ethnographic fieldwork, Thomas F. Love offers the first anthropological history of southwestern Peru's distinctive regional culture. He examines both its pre-Hispanic and colonial altiplano foundations (anchored in continuing pilgrimage to key Marian shrines) and the nature of its mid-nineteenth century “revolutionary” identity in cross-class resistance to Lima's autocratic control of nation-building in the post-Independence state. Love then examines Arequipa's early twentieth-century “mestizo” identity (an early and unusual case of “browning” of regional identity) in the context of raging debates about the “national question” and the “Indian problem,” as well as the post-WWII development of extravagant displays of distinctive bull-on-bull fighting that now constitute the very performance of regional identity. Love's research reveals that Arequipa's “traditional” local culture, symbolically marked by populist, secular, and rural elements, was in fact a project of urban-based, largely middle-class cultural entrepreneurs, invented to counter continuing Limeño autocratic power, marked by nostalgia, and anxious about the inclusion of the nation's indigenous majority as full modern citizens.

Today's business environment demands a new approach to leadership, one that effectively connects individuals and organizations in the midst of change. Leading with Sense offers a new, practical approach to meeting this challenge. Drawing on her experience as a poetic translator and her expertise in cross-cultural leadership, Valérie Gauthier outlines the tenets of savoir-relier: a framework for building sensible, trustworthy, and lasting relationships that enables leaders to value difference, work across boundaries, and navigate complex systems. Savoir-relier teaches leaders to tap into their senses in the midst of strategizing, allowing them to act intuitively and rationally at once. Few leaders dare to claim that their “gut feelings” are critical to their decisions. But, by engaging their intuition, they are able to draw on experience, better appreciate their environment, build confidence, and summon the courage to tackle the task at hand. Leading with Sense trains readers to be poets and translators in the business context. With savoir-relier, we can write our own stories, deciphering the challenges that we face with acumen, humility, and respect. Using real-world examples of this pioneering approach, Gauthier provides readers with methods and tools for cultivating a savoir-relier mindset to build positive relationships, nurture diversity, drive mindful innovation, and foster success.

The Lord has anointed all believers to demonstrate His power by operating in their anointing, and yet it remains one of the most misunderstood topics in the modern-day church. In *Marked by the Anointing*, Anthony Trezza takes readers on a journey through the Bible, revealing what the anointing is according to the word of God and not according to the tradition of men. As you read this book you will clearly see that the anointing is not a power, it the process by which the Lord marks and sets apart ordinary men and women for an extraordinary work, and that the power of the anointing is the Holy Spirit.

Many men killed Julius Caesar. Only one man was determined to kill the killers. From the spring of 44 BC through one of the most dramatic and influential periods in history, Caesar's adopted son, Octavian, the future Emperor Augustus, exacted vengeance on the assassins of the Ides of March, not only on Brutus and Cassius, immortalized by Shakespeare, but all the others too, each with his own individual story. The last assassin left alive was one of the lesser-known: Cassius Parmensis was a poet and sailor who chose every side in the dying Republic's civil wars except the winning one, a playwright whose work was said to have been stolen and published by the man sent to kill him. Parmensis was in the back row of the plotters, many of them Caesar's friends, who killed for reasons of the highest political principles and lowest personal piques. For fourteen years he was the most successful at evading his hunters but has been barely a historical footnote—until now.

The Last Assassin dazzlingly charts an epic turn of history through the eyes of an unheralded man. It is a history of a hunt that an emperor wanted to hide, of torture and terror, politics and poetry, of ideas and their consequences, a gripping story of fear, revenge, and survival.

Welcome to my fucking world. My name is Kaston Cox and I'm a criminal's worst nightmare. Most people run from darkness, but I live in it, require it, and thrive in the night. Some call me a monster, some a lover of evil, and others, the devil himself, but they're all wrong. I'm just a shadow in the dark. I speak for the innocent when no one else will. Once I have marked you, you better beg for forgiveness, because your time has run out... Revenge is the ultimate wage for evil. Some just can't stomach to do it themselves. That's where I come in. I am the ultimate judge when called upon for justice. I will decide who lives and who dies. Blood may be on my hands, but it's not the blood of the innocent. Remorse is nowhere to be found. I don't give a shit if you understand. I can live with the man I look at every day in the mirror. My soul was tainted the day I was conceived. You think you know me? You have no fucking idea. I am who I am because of what they did to her, and to him. They were my family. This was the only form of restitution he believed in. I owed him everything. I took over the empire he built. This is how I repay him. There was only one rule: never allow emotions to form. Numb and heartless are the only two ways to live. What I never included in the plan...was her. My name is Lux Larsen. My life is as perfect as it can get. I'm a partier, a seductress when it comes to something that I want, and the ultimate sexual con artist. I use my body to get what I want and I'm not ashamed. Designer tags are what I'm after. I love sex. I'm good at it. Fuck double standards. Guys can do it, well guess what, so can I. I will never be caught back on the other side of the tracks for as long as I live. I left that hellhole years ago. I'll do anything to stay away. You can call me a whore if you want, but I just look at it as I've decided to become a player in a man's game, and I'm a fucking pro at it. Love is for the weak minded. Weak is something I'll never be. I never anticipated the predator that would find me. I'm now his prey...but I'm not sure I can run. The world likes to think that love is only pure, only for those that do good, but what no one considers is when bad has to be done to formulate a different type of good. Two of the most random people can be a perfect match, being placed together like pieces to a puzzle. Being in the wrong place at the right time can be terrifying and it can also be exactly what is supposed to happen, because sometimes...love is born in the dark.
