This book sheds new light on the role of the military in Italian society and culture during war and peacetime by bringing together a whole host of contributors across the interdisciplinary spectrum of Italian Studies. Divided into five thematic units, this volume examines the continuous and multifaceted impact of the military on modern and contemporary Italy. The Italian context offers a particularly fertile ground for studying the cultural impact of the military because the institution was used not only for defensive/offensive purposes, but also to unify the country and to spread ideas of socio-cultural and technological development across its diverse population.

The first book to look extensively at conceptualism in Canada, published to accompany a touring exhibition. The most transformative art movement of the late 20th century, conceptual art became a global phenomenon long before it was popularized by a new generation of artists and institutions in the early 21st century. Its various manifestations in Canada, however, have remained a limited concern -- a whispered art history circulated among artists and writers primarily in alternative publications and artist-run centres. *Traffic: Conceptual Art in Canada 1965-1980* is the first publication and exhibition to track the complex, rigorous and diverse manifestations of conceptual art in the country. Presenting work by more than 90 artists in a beautifully produced package, *Traffic* examines the particular local and geographic needs and interests enacted by individual artists, collectives and art communities from across the country.

On the one hand, nobody wants to be a dick. On the other hand,

dicks are everywhere! They cut in line, talk behind our backs, recline into our seats, and even have the power to morph into trolls online. Their powers are impressive, but with a little foresight and thoughtfulness, we can take a stand against dickishness today. *How Not to Be a Dick* is packed with honest and straightforward advice, but it also includes playful illustrations showing two well-meaning (but not always well behaved) young people as they confront moments of potential dickishness in their everyday lives. Sometimes they falter, sometimes they triumph, but they always seek to find a better way. And with their help, you can too.
