A child wanders too far into the Knysna Forest ... he never returns. Nine years later government officials working on a census find a white child living with a Coloured family in the mountains beyond the forest. They take him away from the stricken Fiela, who has brought him up as her son, and give him back to his 'original' family. Stunned and helpless, Benjamin waits for Fiela to reclaim him. But, powerless against authority, Fiela never comes.

Benjamin has to grow up before he can go in search of the truth ...

Rethinking Normalcy Penguin Random House South Africa

"A true benchmark. This work will set a new standard for the conceptualization--let alone the study--of missionization and religious conversion, colonial language policy, and language-oriented social history. Hanks provides a framework for thinking about language history that integrates language ideology, linguistic form (from phonology to speech genres), social organization, and the phenomenology of experience that goes so far beyond traditional historical, linguistic, or philological perspectives as to constitute a new paradigm for the field. *Converting Words* will be a classic work that will stimulate others to emulate Hanks's powerful scholarly example. The field will never be the same after this book appears."--Richard Bauman, author of *A World of Others' Words: Cross-Cultural Perspectives on Intertextuality* "Hanks's work is utterly original and unprecedented... I don't think historians of the Mesoamerican colonial regimes should write anything until they read this book; it's that important."--Jane H. Hill, author of *A Grammar of Cupeño*

The *Garland Handbook of African Music* is comprised of essays from *The Garland Encyclopedia of World Music: Volume 1, Africa*, (1997). Revised and updated, the essays offer detailed, regional studies of the different musical cultures of Africa and examine the ways in which music helps to define the identity of this particular area. Part One provides an in-depth introduction to Africa. Part Two focuses on issues and processes, such as notation and oral tradition, dance in communal life, and intellectual property. Part Three focuses on the different regions, countries, and cultures of Africa with selected regional case studies. The second edition has been expanded to include exciting new scholarship that has been conducted since the first edition was published. Questions for Critical Thinking at the end of each major section guide and focus attention on what musical and cultural issues arise when one studies the music of Africa -- issues that might not occur in the study of other musics of the world. An accompanying audio compact disc offers musical examples of some of the music of Africa.

Romeo and Juliet is a tragedy written by William Shakespeare early in his career about two young Italian star-crossed lovers whose deaths ultimately reconcile their feuding families. It was among Shakespeare's most popular plays during his lifetime and, along with *Hamlet*, is one of his most frequently performed plays. Today, the title characters are regarded as archetypal young lovers.

"Diamonds for everyone." That's what fifteen-year-old Patson Moyo hears when his family arrives in the Marange diamond fields. Soon Patson is working in the mines along with four friends, pooling their profits for a chance at a better life. Each of them hopes to find a girazi, a priceless stone that could change their circumstances forever. But when the government's soldiers come to Marange, Patson's world is shattered. Set against the backdrop of Zimbabwe's brutal recent history, *Diamond Boy* is the story of a young man who succumbs to greed but finds his way out through a transformative journey to South Africa in search of his missing sister, in search of freedom, and in search of himself. A high-stakes, harrowing adventure in the blood-diamond fields of southern Africa, from the critically acclaimed author of *Now Is the Time for Running*.

One of the early set of reforms that South Africa embarked on after emerging from apartheid was in the water sector, following a remarkable, consultative process. The policy and legal reforms were comprehensive and covered almost all aspects of water management including revolutionary

changes in defining and allocating rights to water, radical reforms in water management and supply institutions, the introduction of the protection of environmental flows, and major shifts in charging for water use and in the provision of free basic water. Over ten years of implementation of these policy and legislative changes mean that valuable lessons have already been learned and useful experiences gained in the challenge of effective water resources management and water services provision in a middle income country.

A Xhosa prince reluctantly leaves the University College of Fort Hare and goes back to the land of his ancestors to take his place as king of the Mpondomise. The clash of his modern ideas and the traditional beliefs of his people mirrors the dash of the western way of life with African custom and tradition -- church-people versus traditionalists, school people versus 'red-ochre people', boarding school activities versus the inkundla or assembly at the royal place. The conclusion, that disaster can be averted only by the willingness of opposing forces to work together for mutual comprehension of the legitimate claims of tradition and modernity, gives a foretaste of the spirit that governed modern South Africa's political transformation. *Inqumbo Yeminyanya -- The Wrath of the Ancestors --* is a classic of Xhosa literature. A C Jordan has a keen eye for detail, a delightful sense of humour and a dramatic style. Literal translations of Xhosa images, idioms and proverbs transport readers to the Tsolo district and conjure up the memorable speeches of the Mpondomise counsellors.

This book broadens the scope of the subject of rural education and enlivens the ways in which the subject may be studied. Through textual and visual analysis of a range of sources – including young adult novels, the farming simulation game ‘Hay Day’ and reality television programs – the contributors investigate how the lives of young people in rural spaces are mediated by a range of social locations including class, ethnicity and sexuality. Additionally, through rich and detailed ethnographic work, the book explores the complicated and multifaceted meanings of rural places and examines how these meanings shape experiences of schooling for teachers and students. In doing so, the book embeds the study of rural education in explorations of patrilineal inheritance on family farms, international migration, globalisation and economic restructuring. It aims to start a conversation about the robust and complex ways in which the confluence between ‘rural’ and ‘education’ may be imagined, experienced and researched. This book was originally published as a special issue of *Discourse: Studies in the Cultural Politics of Education*.

Pass Geography Grade 12 McDougal Littell/Houghton Mifflin

The Book of Squares by Fibonacci is a gem in the mathematical literature and one of the most important mathematical treatises written in the Middle Ages. It is a collection of theorems on indeterminate analysis and equations of second degree which yield, among other results, a solution to a problem proposed by Master John of Palermo to Leonardo at the Court of Frederick II. The book was dedicated and presented to the Emperor at Pisa in 1225. Dating back to the 13th century the book exhibits the early and continued fascination of men with our number system and the relationship among numbers with special properties such as prime numbers, squares, and odd numbers. The faithful translation into modern English and the commentary by the translator make this book accessible to professional mathematicians and amateurs who have always been intrigued by the lure of our number system.
